

COUNTY AUDITOR PIERCE RESIGNS

TEVIS SUBMITS PROPOSITION TO CITY OF ALAMEDA

Plans for Water Supply Are Made in Writing to City Officials.

COUNCIL WILL ACT AT NEXT MEETING

Mayors of Four Cities to Hold Conference in Alameda Tonight.

William Tevis, president of the Bay Cities Water company, returned to San Francisco from the southern part of the state this morning, and at 2 o'clock this afternoon had a consultation with Chairman Pendleton of the City Council in the latter's office in San Francisco.

It was decided that Councilmen Bronner, Ellsworth and Pendleton should meet with Mr. Tevis at 7:30 tonight in the Oakland City Hall to consult over the plan of the water company to secure a contract from the city government for the wholesale supply of water to the municipality, the building of a pipe line, distributive systems, etc.

W. S. Tevis, president of the Bay Cities Water Company, is meeting with Mayor W. H. Noy and the members of the public utilities committee of the Alameda City Council this afternoon in Alameda to lay before the city of Alameda his proposition to supply the city with water.

Mayor Noy and Councilman William Hammond Jr., John Walker and Bert Fisher of the public utilities committee have asked for facts and figure in writing, and it is expected that the president of the water company will submit a voluminous report to the city officials, outlining what he intends to do for the city of Alameda, what rates he expects to get and from what source the supply of the Bay Cities Water Company comes, together with how long it would take the company to bring the supply into this city.

Tevis' report will be carefully investigated by Mayor Noy, the councilmen, City Attorney M. W. Simpson, Superintendent of Streets V. M. Padden and City Engineer L. N. Chapman of Alameda.

It will be submitted to the City Council at its next regular meeting, when action will be taken on the matter. The city officials of Alameda are favorably disposed toward the new supply of water offered by Tevis and the Bay Cities Water Company and if the report submitted today is satisfactory, may decide to change the water supply of the city.

SIGNED STATEMENT.

The meeting was called for 4 o'clock this afternoon, Tevis signifying his intention of being in attendance with the desired report. Tevis made a verbal proposition to Mayor Noy about a week ago to bring water into Alameda, but he declined to state his terms at that time or tell the source of the supply, which is now known to be around Mount Hamilton in the east range.

WANT MUNICIPAL PLANT.

Alameda will be the first of the bay cities to obtain a signed statement from Tevis on what his company will do for the people.

He has already laid two plans before the city of Alameda, one to lay the main and build a municipal plant to be purchased by the city and run as a municipal concern, the other, to run the plant as a private corporation.

Many of the residents of the city are in favor of a municipal water plant.

BRONX ZOO MOURNS DEATH OF TWO-HORN BULL RHINOCEROS

NEW YORK, March 3.—There was a scene on the main entrance of the Bronx Zoo today. Sheke, the only two-horned male rhinoceros in captivity, is dead after a long illness. He was valued at \$10,000. Three years ago Sheke was reported peacefully in the mud of a little gulch in German East Africa. Some men found him, tied him to a pole and took him across country to Uganda and Mombasa, from which famous place he was transported to this country.

ASSAILANT OF LITTLE GIRL IS LYNCHED BY MOB

Crowd of 5000 Men String Up Negro for His Brutal Attack.

MILITIA IS CALLED TO PROTECT CITY JAIL

Mob Is Finally Dispersed After a Stormy Scene Is Enacted.

DALLAS, Texas, March 3.—Allen Brooks, a negro charged with assaulting a three-year-old white girl last week, was lynched here today by a mob of 5000 men.

At noon all the available militiamen, extra police and firemen were ordered to the jail. The Mayor issued an order closing all saloons. A number of negroes participated in the lynching of Brooks.

Brooks was in the court room awaiting trial when the mob surged past the officers on guard and threw the negro from the second story window, breaking his neck. A rope was then placed around the man's neck and the body was dragged down Main street ten blocks to the Elks' Arch, where it was strung up. The police succeeded in preventing the mob from burning the body.

EXTRA GUARDS ORDERED.

When the attack was made the militia and extra police were ordered out, but before they could reach the scene the mob had seized the negro.

Following the lynching the mob marched to the jail and it was feared an attempt to lynch two other negro alleged murderers—Burrell Gates and Sol Aranooff—would be made.

Later the mob endeavored to hunt down the jail doors with heavy railroad ties. The officers tried to pacify the mob by assuring them that both of the negroes had been taken to Fort Worth.

In an effort to disperse the mob the fire department threw streams of water on its members, who immediately attacked the firemen and threatened to lynch them. The firemen hurriedly left the scene.

At 2 p. m. it was learned positively that the negroes wanted had been spirited away. The mob then dispersed and the city became quiet.

Chattel Mortgage Auction Sale.

of the Pianos, Furniture, Carpets, etc., of J. Adams, Jr. and others. Sale at 1007 Clay street, near Tenth street, Oakland Friday March 4, at 10:30 a. m. open for inspection Thursday. Comprising in part:

Two fine upright pianos, 1 square piano, mahogany pianola and about \$1000 worth of music, weathered oak and mahogany parlor pieces, rockers, hat trunks, bookcases, pictures, portieres, lace curtains, lamp and small new rugs, carpets, round and square extension tables, chairs, sideboards, plated ware, cutlery, brass and iron beds, bedding, bedroom suites and maple and golden oak dressers, chiffoniers, stands, ranges, gas stoves, etc.

Also a fine lot of new overcoats and children's clothing and a young parrot, good talker. All must and will be sold.

J. A. MUNRO & CO.

BODIES BURIED UNDER 200 FEET OF DEBRIS

Frantic Efforts-Made to Reach Living Persons Prove Futile.

NO HOPE FOR THOSE REMAINING IN COACHES

Months Before Mass of Rock and Earth Can Be Taken Off Cars.

WELLINGTON, Wash., Mar. 3.—Thirty-eight bodies of avalanche victims have been recovered. Sixty are missing whose names are known, beside a number of laborers.

Probably more than 100 persons were killed. All in the ruins are dead.

EVERETT, Wash., March 3.—Fifteen bodies have been recovered from the snow heap of the avalanche that carried away two Great Northern trains Tuesday morning and there is no hope that any of the sixty-nine persons missing is alive. One hundred and fifty men, mostly volunteers, are working to uncover the dead, but they accomplish little, their task being so great owing to the vast mass of debris under which the cars are buried.

When the track is opened the railroad will bring machinery and tackle and an army of men and it will be possible to uncover the dead in a short time. The railroad with plows, wrecking trains and hundreds of men is working on both sides of the Cascade mountains to open the track.

Even after the bodies are recovered they cannot be taken out to the world.

There is a growing belief that the number of dead will be higher than eighty-four. It is said that a number of laborers were on the train, whose names are not given in the list of missing.

The wounded are at the Wellington bunkhouse, which has been converted into a hospital, and they have physicians, nurses, food and all comforts. All supplies are packed up the steep trail from scenic on men's backs.

The most pitiful among the injured is Mrs. William Starrett of Chemainus, B. C., who is severely injured. She was returning from Spokane, where her husband was killed in a railroad accident two months ago. With her were her three children and her father and mother. Two of the children and her father, William May, were killed by the avalanche.

SNOW IS MELTING.

Railroad men who have been at the scene of the Wellington avalanche say the rescue of any of the persons reported missing would be a miracle, and that all are almost certainly dead, making the total eighty-four.

The difficulties of getting news are not decreased today. The snow is melting and the mountains are in turmoil, with snow, rocks, trees and earth rolling and plunging down the steep places.

It is hoped to have the telegraph line to scenic Hot Springs restored today.

The bodies of the dead at Wellington are wrapped in blankets and laid upon the snow. No attempt will be made to bring them down the mountainside. It is not unlikely that the track will be opened from the eastern side first, in which case the dead and wounded will be taken to Spokane. Many of the bodies are terribly mutilated.

BURIED UNDER TONS.

Shortly before 2 o'clock Tuesday morning, when every one on the two trains sidetracked at Wellington was in bed, ten acres of the mountainside that towered above the trains became detached and, taking with it snow,

County Auditor Pierce, Who Has Resigned Office

GEORGE PIERCE, who resigns a County Auditor.

LATEST NEWS BULLETINS

Doctor Found Guilty of Crime

DETROIT, Mich., March 3.—Dr. George A. Fritch was today found guilty of manslaughter in connection with the death last summer of Maybelle Millman of Ann Arbor, whose dismembered body was found in Ecorse creek.

New Angle to Philadelphia Strike

PHILADELPHIA, March 3.—Mayor Reyburn will recommend to City Councils this afternoon that no action be taken in the trolley strike and will call attention to an old law that will permit the courts to handle the situation.

Mine Explosion Kills Sixty Workmen

JUNEAU, Alaska, March 3.—A magazine exploded in the 1100-foot level of the Mexican shaft of the Treadwell gold mine today and caused a large loss of life. Twenty-three bodies have been recovered. It is reported sixty are dead.

Favorable Report on Mail Steamships

WASHINGTON, March 3.—The Gallinger bill to provide for the establishment of mail steamship lines between the United States and South America, the Philippines, Japan and China was ordered reported favorably to the Senate today.

Federal Grand Jury Accuses Sugar Trust

NEW YORK, March 3.—The Federal Grand Jury today handed down a presentment against the American Sugar Refining Company, charging it with contempt of court in failing to produce the books and papers called for by the Grand Jury.

New Indictment Against Heinze

NEW YORK, March 3.—A new indictment against Augustus Heinze for alleged violation of the National Banking Laws was returned by the Federal Grand Jury here today.

This is the government's fourth attempt to connect Heinze with certain phases of the alleged misapplication of the funds of the Mercantile National Bank.

Commerce Commission Enjoined

KANSAS CITY, March 3.—The Interstate Commerce Commission was permanently enjoined from enforcing an order prohibiting railroads and other carriers from allowing compensation to owners and operators of elevators for elevation and transfer of grain in transit in a decision filed in the United States Court here today.

The decision says that "the order of the Interstate Commerce Commission which prohibits the allowances or payment by carriers of all compensation to owners and operators of elevators for the elevation and transfer of grain in transit is beyond the delegates' power of the commission."

WELL-KNOWN OFFICIAL TO PUT ALL HIS TIME TO PRIVATE BUSINESS

Clerical Errors Are Found in His Office, but Grand Jury Had Nothing on Which to Base Accusations

County Auditor George Pierce has resigned his office. This was decided upon at a meeting today. No charges of irregularities were found by the Grand Jury against Mr. Pierce. It was found, however, that there had been several clerical mistakes in his office, and this was called to his attention.

Mr. Pierce, however, had already decided to resign from his office for the reason that his business interests required his entire attention. It was not the intention of the Grand Jury to bring any accusations against him.

The expert who has been in the County Auditor's office for some time will be withdrawn.

It is believed that Mr. Pierce is to be succeeded by a man from Berkeley.

George Pierce Makes Statement

County Auditor George Pierce issued the following statement:

"I have served the public of the county of Alameda in different positions for a period of over twelve years. I have never, wilfully, done a single thing of which I am ashamed, or for which I owe any person an apology. I feel grateful to the people of Alameda county who have elected me as County Auditor of this county and I have never wilfully, at any time, betrayed any public trust. As everyone knows I have a large private business where I have some \$40,000 or \$50,000 invested. I have worked industriously for years to build up this business. I have a family depending upon me and, inasmuch as my business has taken the best years of my life I feel it my absolute duty to protect my family and my business interests. It has come to a time when I must either give all of my time to the office of the County Auditor of Alameda county or else to my business. I want to serve the people of the county faithfully. I cannot, in justice to my family, neglect my business to the extent of giving all of my time to the office of County Auditor. I have, therefore, made up my mind to devote myself to the upbuilding of the business that I have established, and of which I am proud, and for that reason I feel it my duty to the public to resign the position County Auditor in order that the Board of Supervisors may appoint some person who will give the office all of his time.

"I will state emphatically that I am not resigning under any pressure from the Grand Jury, the District Attorney or from any person on earth; or for any other reason except to devote my time to my business.

"About six months ago my brother was taken very ill and up until that time he was taking care of my business, and upon his illness I was compelled to purchase his interest in the business and to take active management. Consequently, I can not give as much time to the Auditor's office as I would like to."

District Attorney's Statement

In an interview District Attorney Donahue said: "Mr. Pierce's resignation is entirely voluntary and is not made under pressure in any form or manner from this office or on the part of the Grand Jury. I want to say right here that there is no imputation of crime attached to the present investigation of the County Auditor's office and therefore there is nothing in the way of threat that could be held over his head to induce him to retire from his position.

"He talked over the matter with me when he made up his mind to tender his resignation and I did not urge his action. Our discussion was confined solely to the legal point involved in the event of his retirement. I want it to be stated that I have the friendliest feeling towards Mr. Pierce."

Investigation of the affairs of County Auditor George S. Pierce's office, which now appears to be the most important of the unfinished business of the Grand Jury, was resumed this forenoon when the inquisitorial body went into session and occupied most of the time up to the noon hour. District Attorney Donahue then announced that the inquiry had been continued for another week because Expert Accountant Lester Herrick of San Francisco, engaged by the Board of Supervisors to go over the County Auditor's books, was not ready to make either a partial report on his work.

EXPERT NOT READY.

"The expert accountant has not yet finished his work," said Mr. Donahue in this connection. "But at present he is not prepared to submit even a partial report on the condition of the County Auditor's office and asked

for further time. He said that probably he would be in a position to report within a week, so the matter has been laid over until then. You may say in this connection that the investigation will be exhaustive and searching and that it will cover every feature of the issues involved."

PIERCE IS WITNESS.

County Auditor Pierce was the only witness examined this morning in connection with the conduct of his office. He was cross-examined by the Grand Jury for more than two hours, and while it could not be learned or the members of the inquisitorial body what details were covered by his testimony, it is understood that he was questioned with reference to alleged irregularities in his office which have developed since the Grand Jury meeting a week ago.

BODIES BURIED UNDER 200 FEET OF DEBRIS

Frantic Efforts Made to Reach
Living Persons Prove
Futile.

NO HOPE FOR THOSE
REMAINING IN COACHES

Months Before Mass of Rock
and Earth Can Be Taken
Off Cars.

(Continued From Page 1.)

Trees, earth and rocks, an avalanche
plunged down into the canyon.
The trains were picked up as
though they were trifles and the whole
mass was piled at the bottom of the
ravine several hundred feet below.
Looking down today at the de-
bris of the avalanche the cars
are not in sight, but are under
forty or fifty feet of snow and
trees.

One glance at the ruin explains
why so many persons are missing
and that hope is gone that any of
the buried is alive.

The few men who are working in
the snow cannot accomplish much, and
it would take them months to dig
out the cars.

MONTHS TO RECOVER.
It is not practicable, if it were pos-
sible, to send an army of wreckers to
Wellington. Food could not be sup-
plied to them.

When the track is opened the ava-
lanche mass will be recovered by men
equipped with machinery and all the
bodies will be recovered.

The first news direct from the scene
of the disaster was received at Everett last
night when Dr. Cox, one of the Great
Northern physicians who went up on the
first relief train, returned from Well-
ington, accompanied by three of the sur-
vivors, Roy Forsythe, R. M. Le Veille and
Freeman S. A. Bates. Dr. Cox says that
none of the injured is in a critical con-
dition. Many were only slightly hurt.

ONLY TWENTY ESCAPE INJURY.
Forsythe and Bates estimate that not
more than twenty of the 110 persons who
were carried into the canyon by the ava-
lanche escaped injury. Eleven pas-
sengers in cars, three locomotives, four elec-
tric motors, one rotary snow plow, the
rotary shed and the sand house were
swamped a way by the slide.

A member of the first relief party, who
returned to Everett last night, said that
when he reached the scene all the cars
were coming.

WOMEN AND CHILDREN PERISH.
Ray Forsythe, one of the injured pas-
sengers, was in a car in which there were
five women and seven children. Three
women and a child perished, but the
other undoubtedly perished.

In telling of the experience Forsythe
said that it seemed as if the car was
lifted bodily from the tracks and was
flung into mid-air. Suddenly it
tumbled over the edge and rolled
down the steep "embankment."

Instantly the air was filled with the
shrieks of the injured. A fearful
storm was raging. A high wind was
blowing and there was a spectacular
electric display.

The first men to extricate them-
selves from the wreckage set to work
releasing those less fortunate.
They had no lights and carried on
their work by the flame of the light-
ing, which was almost incessant.

This morning the severed hand of a
woman was found. On it were a
finger bearing initials which lead the work-

Here Are Dead and Missing

Following is a complete list of the casualties in the Great Northern
railroad disaster at Wellington:

THE IDENTIFIED DEAD

Barnhart, R. M., Spokane.
Blackburn, A. R., Tralmaster.
Lemman, Mrs. Ada, Hunters, Wash.
Lemman, E., Hunters, Wash.
May, William, Chemainus, B. C.
Carroll, R. H., Engineer.
Dorey, Wm., Brakeman.
Duffy, A. R., Brakeman.
Jonson, Chas., Brakeman.

Kelly, J., Brakeman.
Sharp, Miss Nellie, Spokane.

Tucker, John, mail clerk.
Towsley, Hiram.
Hohn, Fred.
Ahera, L. J.
Ladu, C. S.
Jenks, J. R., fireman.
Stenographer, car A-16.
Porter, car A-16.

THE WOUNDED AT

R. M. Saville, cook, Everett.
Mrs. Wm. May, Chemainus, B. C.
Julius D. Kessler, fireman, Belle-
view.
Alfred Hensel, mail clerk, Spokane.
Lucius Anderson, porter, Seattle.
H. H. White, traveling man, Seat-
tle.
M. O. White, conductor, Everett.
George Nelson, fireman, Leaven-
worth.

John Gray, fireman, Nooksack,
Wash.
B. Tognietter, engineer, Everett.
Adolph Smith, porter, Seattle.
Wm. Harrington, trainmaster, Wel-
lington.
R. P. Phillips, brakeman, Seattle.
Mrs. John Gray, Nooksack.
Verdon Gray, 19 months old.
Ray Forsythe, laborer, Everett.

DUNPHY DRUNK 1150 TIMES

Estate Manager Testifies to
Many Sprees to Prove
Insanity.

SAN FRANCISCO, March 3.—
Periods of intoxication and spree
gallies were testified to in the Dunphy
annulment case before Superior
Judge Scavell this morning, and T. E.
Curtis, manager of the Dunphy estate,
furnished considerable amusement as
well as substantial testimony during
his entire morning on the stand.
Declared that he had seen Dun-
phy drunk 1150 times at Burns'
Hammam baths, 80 times at the
Post street Hammam baths, 20
times at the Stockton street baths,
12 times at the Pood's Dog, 6
times at Delmonico's, and other
times too numerous to mention.
On the day preceding the million-
aire's marriage to Mrs. Silver-
stone Curtis affirms that he had
met him coming from the Ham-
mam baths, where he had been
following one of his periods of
intoxication.

TOLD OF WEDDING.
The next morning he had been rung
up by the cattle man from the Pleas-
anton and had been informed that
Dunphy was married. "I can't get
married if I want to," he said, "I
want to be married if I want to."
The next day after that, he
maintained, Dunphy had said to
him, "I give you \$1000 will fix this
up. I'm going to break it off."
Later in explaining the events
leading up to the wedding he ex-
plained that he went up to see
Mrs. Silverstone and she told him
she was engaged.

"Well, if you're engaged, why
not marry me?" he asked Dunphy
told her, and they were wed.
TO SHOW INSANITY.
All of this testimony was adduced
to show the insanity of the plaintiff,
who is suing for an annulment of his
marriage to "Dodie" Valencia, which
occurred last summer at Redwood
City. He also told how he had called
at 370 Baker street after Dunphy's
marriage and that the capitalist had
said to him:

"My wife expects to get \$125,000
from the Buhd estate, and that with
what I've got will do us, I guess."
On another occasion Curtis had a quar-
rel with Mrs. Silverstone on the ranch
and had gone up and torn off her furs
from her, saying:

"I bought them, and you're not go-
ing to wear them while you're run-
ning around with other men."

Trainmen Reject
Railroad Tender

Baltimore and Ohio Company to
Invoke Arbitration Under
Erdman Act.

BALTIMORE, March 3.—The result
of the vote of the conductors and trainmen
of the Baltimore and Ohio railroad, on
the acceptance or rejection of the com-
pany's counter-proposition to their de-
mands for wage adjustment, was an al-
most unanimous rejection of the offer.
The trainmen's general committee will
later today determine whether a strike
shall be declared.

The trainmen overwhelmingly rejected
the company's proposal to submit the
differences to arbitration. The company
announced it would invoke arbitration
under the Erdman act.

COLEMAN GETS DECREE.
Morris Coleman was granted an inter-
locutory decree of divorce from Pauline
Coleman today on the ground of cruelty.
He testified that his wife had been in the
habit of living an immoral life previous
to their marriage and continued to do
so thereafter.

5 PLEASANTON FOUR TRAINS RESIDENTS DEAD IN WRECK SENT EAST BY WAY OF PORTLAND

Entire Beck Family Killed by
Avalanche Which Destroyed
Northern Trains.

WERE ON THEIR WAY BACK
TO OLD CALIFORNIA HOME

George Beck Once Ran for
Recorder in Contra Costa
County.

The tragedy of the avalanche in the
Cascade mountains which, sweeping
down on the Great Northern trains
at Wellington, exacted a death toll
of 84, is brought home to this portion
of the state by the report that five
Californians are believed to be among
those who met a terrible fate beneath
the pall of ice. The missing are Mr.
and Mrs. G. L. Beck and their three
small children, Emma, Marion and a
baby in arms.

RETURNING TO OLD HOME.
They were returning to their home
in Livermore valley, where they are
connected with the Beck family, one
of the oldest in the state. George Beck
is the son of John Beck, who is at
present residing on the Sugarbeet
ranch near Pleasanton. He was born
in the Livermore valley in the old
Beck homestead, and four years ago
ran for the office of county recorder
in Contra Costa county, where he is
widely and favorably known. He was
married some twelve years ago, and
two years ago he and his wife left
for Marcus, Wash., where they have
since resided, prior to which they
made their home in Pleasanton.

WELL KNOWN HERE.
The missing man was 41 years of
age. His two daughters, both small
children, were born in this state,
though the baby was a small native
of Washington.

George Beck counts a host of
friends here in Oakland, where he has
been a constant visitor for years past.
He is well known among the busi-
ness, political and in the legal
profession, and his home in Liver-
more was at one time a rendezvous for
his friends from this county, who
spent much of the summer in the
country.

Depositions Taken
in Big Hyde Suit

His Stenographer and Sister-in-
Law of Dead Man on the
Stand Today.

KANSAS CITY, March 3.—Mrs. Logan
O. Swope, sister-in-law of the late Col.
Thos. H. Swope, was a witness again
today before the notarial court in this
city following a deposition in the dam-
age suit brought by Dr. H. C. Jordan,
the Kansas City, Kan., physician for
whom a warrant was issued yesterday
before the grand jury today. Dr. C. H. Jordan,
the Kansas City, Kan., physician for
whom a warrant was issued yesterday
before the grand jury today. Dr. C. H. Jordan,
the Kansas City, Kan., physician for
whom a warrant was issued yesterday
before the grand jury today.

ON INSPECTION TOUR.
OGDEN, Utah, March 3.—The ex-
tent of the flood in damage sustained
by the Southern Pacific west of Ogden
cannot be ascertained until Assistant
Superintendent Fitzgerald and party
complete an overland journey begun
last night at Palsade, Nev., which is
to extend to Battle Mountain, sixty
miles east. The stretch of country
along the railroad is submerged, and
the track absolutely impassable even
for a hand car.

It is reported that a bridge with
12 foot span near Palsade was de-
stroyed last night. The water has fallen
three feet at Palsade since yesterday
and this is the most encouraging word
the local railroad officials have since
the beginning of the flood in the Humboldt
Valley.

General Manager Calvis was
moved east from where he was
marooned since Tuesday and is
now in charge of a big gang of
workmen at Loray, where an at-
tempt is being made to bridge a
150 foot opening in the main line
of the Southern Pacific.

ORDERS TRAIN TO GO ON.
Overland Limited No. 1, westbound,
held at Wells, Nev., since Tuesday,
has been ordered to proceed to Cal-
ifornia, from which point the passengers
who are most anxious to continue
their journey west may make the
overland drive by stage to Battle
Mountain and be transferred to a
train to be made up at that place
for California points.

A new break in the line occurred
a mile west of Carlin early this morn-
ing. The colonist travel is arriving
in Ogden following the sale of colonist
tickets at Eastern points and 200 of
the marooned homeseekers have
reached here with as many more on
Union Pacific trains due in Ogden
this afternoon.

Trains are being routed from Ogden
via Focallito and Portland for Pac-
ific Coast points.

MILLION IN DAMAGES.
PORTLAND, March 3.—That the
new subsiding storm and its abating
floods in the northwest have entailed
an appalling loss of life and damage
to business and property that will
run high into the millions is the esti-
mate of conservative officials of the
northwestern roads that have suffered
by the deluge.

One official declared that the waste
and ruin wrought in the state of
Washington to the Great Northern,
Northern Pacific and Oregon Railroad
and Navigation Company would take
10,000 men six weeks to repair.

Conditions so far as traffic is con-
cerned are considerably better on all
lines today. The Spokane, Portland
and Seattle road continues practically
to be the only gateway between the

Passengers Leave City of San
Francisco on Long Detour
to Escape Washouts.

MORE WASHOUTS ARE
REPORTED ALONG U. P.

Travelers Are Forced to Walk
Three Miles Through the
Submerged Districts.

While the railroad situation in the
northwest is somewhat improved to-
day, it is still so badly tangled that
no one can tell when trains will ar-
rive or over what routes they will be
dispatched. Communication between
San Francisco and points in Colorado
is being maintained by way of Port-
land, Oregon, the Central Pacific
having been closed by washouts in
Nevada.

From Seattle the Northern Pacific
has cleared its main line to the east
and dispatched two trains today. The
Great Northern is blocked in the
mountains and has entrusted the only
eastbound overland sent out today to
the Northern Pacific.

TROUBLE NORTH OF PORTLAND.
From San Francisco north over the
Shasta route of the Southern Pacific
little trouble has been experienced
south of Portland. Beyond that point
the telegraph lines are tangled in
such a way that traffic is entirely sus-
pended on many local lines.

The flood situation throughout the
northwest is the worst in twenty years.
It is impossible to estimate the dam-
age.

Following the action of the Salt
Lake division Assistant General Man-
ager Scott of the Southern Pacific in
San Francisco ordered this morning
that the four eastbound passenger
trains due to leave here today be de-
toured by way of Portland, Ore., and
thence over the Oregon Short Line
to a junction with the Union Pacific
eastward of the slides along the Hum-
boldt river.

Despite the avalanche of snow
which has tied up transcontinental
traffic on nearly all of the great rail-
roads, the Atchison, Topeka and
Santa Fe line is running four overland
trains each day from Oakland to Chi-
cago. The service is excellent and
there has been absolutely no delay in
the schedule during the past few days.
There are no washouts on the line,
and no blockades. The road is open
and has been right along.

RUNNING FIVE TRAINS.
In addition to the overland trains
the Santa Fe Company is running five
daily trains to valley points, four to
Fresno and intermediate points, three
to Bakersfield, one to Sierra railroad
points, and six to Stockton and
valley stations.

SALT LAKE, March 3.—All inter-
ruptions on the Idaho division of the
Oregon Short Line have been over-
come and trains are moving on sched-
ule. The Southern Pacific trains for
San Francisco are being detoured over
the Short Line to Portland, Ore.

Two hundred people who left
San Francisco last Saturday night
arrived here early this morning
after three days among the wash-
outs on the Southern Pacific in
Nevada. They were obliged to
walk three miles across a portion
of the washed out track near
Coburn, carrying their luggage.

DELEGATES NAMED.
The club elected delegates and their
alternates to the State convention of
the federation of women's clubs which is to
be held in Santa Barbara April 8 to 13.
The club also elected the nominating
committee which shall name the execu-
tive board for which next year's elec-
tion will be chosen at the annual ses-
sion the first Wednesday in April.

The delegates and alternates to the
State convention are:
Alternates:
Mrs. C. S. Cham-
berlain
Mrs. J. S. Nal-
ber
Mrs. A. C. Deltz
The following members are mentioned
as prospective members of the executive
board:
Mrs. John Mole
Mrs. F. A. Mer-
guire
Mrs. W. A. Schrock
Mrs. C. S. Cham-
berlain
Mrs. Leon Hall
Mrs. L. Cole

Centering about the election of the
president of the Oakland Club is an in-
terest so intense that the factions favor-
ing different candidates are on the verge
of dissension. One faction is favor-
able to the re-election of Mrs. Leon M. Hall
who has served during the last year with
entire satisfaction to the members and
with great credit to herself. Another
contingent is working for the election
of Mrs. C. S. Chamberlain, a pioneer
member who has been treasurer of the
club since its founding and another group
of the club's politicians are urging Mrs.
R. Chadwick to put forth her candi-
dature but Mrs. Chadwick has refused the
nomination three times and is to be
steadfast in her determination not to be-
come a candidate.

Mrs. Chamberlain is in Los Angeles en-
route home from a tour of the east. A
lively contest for the coveted place is
anticipated by the members at the com-
ing election.

oast and Spokane and its trains are
running on normal schedules.
The Oregon division of the Oregon
Railroad and Navigation Co. is op-
erating again and the coast plan is
bound to be successful. The Oregon
Short Line sent a stream-
lined train into Huntington
at noon today, according to reports re-
ceived here. Eight trains arrived
there under caution orders close
on each other's heels as was con-
sistent with safety. The first one was
the fast mail train due here Tuesday,
and behind it came two through
trains from Chicago bound for Port-
land. Then came three belated west-
bound Southern Pacific trains, de-
stined for San Francisco and detoured
this way because of slides and wash-
outs in Nevada. The two trains bring-
ing up the rear were regular San
Francisco trains detoured via Port-
land.

OAKLAND CLUB TO SLAYER OF FENTON

WAGE A FIGHT FOR
CHILDREN

Aim to Interest 10,000 Women
in Child's Welfare League
Move.

ENFORCE LAWS REGARDING
TOBACCO AND DRINK

Selected Delegates to State
Convention and Nomination
Committee.

The Oakland Club at its monthly busi-
ness meeting yesterday accepted the
report of its committee on the Child's Wel-
fare League of Alameda County, by
which the Oakland Club is to invite
criminals in the history of the county
to join with it on equal terms to prevent
children from getting to the juvenile
court stage.

A radical departure in the work of
such organizations was approved, in that
none but the bona fide work will be un-
taken by the new organization. Its sole
purpose is defined to be the enforcement
and amendment of existing laws and the
enactment of new laws where necessary
for the protection of children and for
the prevention of juvenile delinquency.

It is expected that about 250 organiza-
tions will be invited to join, including
church and societies, women's fraternal
clubs, school mothers clubs, branches
of the W. C. T. U., and the regular
women's clubs.

A membership of 10,000 women will be
aimed at, the dues to be used in employ-
ing well equipped persons to work under
its direction. It is probable that these
persons will be deputized as probation of-
ficers. The League will work in co-opera-
tion with the Juvenile Court, the dis-
trict attorney and the police.

Events relating to the criminal or-
ganization which the sheriff's men to-
have discovered are now centering
about Stockton. Tevis and Chambers
are now in the Stockton jail, having
been moved from the Modesto prison
following the attempt of the former to
escape yesterday.

AIDED BY HOBO.
A hobo who had been released from
the jail was seen a few hours later
to pass some jail-breaking im-
plements through the bars of the
window in Tevis' cell. The matter
was reported to the police by wit-
nesses and the man was again jailed.
Tevis and Chambers, the boy who was
confession has led to the investi-
gation into the past history of the
belief that he was connected with
several of the crimes which have oc-
curred in Alameda county in the past
two years, were moved to the Stockton
jail following this incident.

Robinson, the third man in captiv-
ity, was arrested in Stockton on Sun-
day, owing to suspicion being aroused
when he drew a check to pay for his
laundry and later returned and begged
that he might redeem the paper him-
self.

It is reported that after a waiting
in the jail he made confessions which
will added to those of Chambers,
and are forcing the chains about Te-
vis and the other members of the band
who are now being trailed by the po-
lice of the state.

Woman Attacked by
Ferocious Canine

SAN FRANCISCO, March 3.—Attacked
by a dog, who jumped upon her as she
was passing a corner of Grant avenue
last night, a woman was injured. Mrs.
Boudreaux Guiseppe was thrown to the
pavement by the animal, who continued
to jump upon her, and she received a
very injury to her head by striking it
on the pavement. The stranger who
came to the aid of the hapless woman
two shots, one of which struck the dog
in the leg.

The injured woman was carried here
by a doctor. Dr. 1415 Grant avenue,
where her wounds were dressed.

ATTEMPTED THEFT.
An unsuccessful attempt was made by
thieves last night to enter the saloon
of Chaquet Brothers, 874 Broadway,
through a rear door of the premises,
which was broken open, but a second
door, which was barred, saved the prop-
erty. The matter has been reported to
the police.

Your Nerves

S.S.S. CURES BLOOD POISON

The only way to cure Contagious Blood Poison is to REMOVE its cause. Trying to kill the germs within the system, or counteract disease cells in the blood with powerful mineral medicines, not only results in failure, but also weakens the more delicate and vital tissues, and allows the original trouble to attack other portions of the body.

It is solely on the principle of removing the cause by purifying the blood, that S. S. S. cures Contagious Blood Poison, and it does this because it is the most perfect and thorough of all blood remedies. It does not work on the principle of killing one poison by taking another, or trying to dry up the germs in the blood, but it cleanses the circulation and REMOVES the last vestige of the contagious infection.

Contagious Blood Poison is the most insidious of all diseases. It begins in an insignificant manner, usually the appearance of a tiny pimple or sore being the only outward evidence of its presence. But down in the blood the treacherous infection is at work, and in a short time the victim finds his body is affected from head to foot. The mouth and throat ulcerate, skin eruptions break out, sores and ulcers appear on the body, yellow spots disfigure the skin, the glands in the groin and neck swell, and as the poison becomes more thoroughly saturated into the blood the hair and eyebrows come out.

Contagious Blood Poison is too dangerous to trifle with. Medicines which merely check the progress of the poison for a time and leave the insidious germs smoldering in the blood, have brought misery and disappointment to thousands. Faithfully they took such treatment for months, perhaps years, only to find when it was left off that the vicious disease was ready to crop out again in all its former destructiveness.

The only possible way to cure Contagious Blood Poison is to remove the cause. This is just what S. S. S. does; and it is the one medicine that absolutely and thoroughly cleanses the blood of every trace of germs and virus of the disease. S. S. S. goes into the circulation, and while removing the cause makes the blood pure, fresh and healthy. This causes a general upbuilding of the entire system, and when S. S. S. has made a cure the patient experiences a change to vigorous, robust health.

S. S. S. is made entirely of roots, herbs and barks. It does not contain the slightest particle of Mercury, Potash or any other mineral substance to upset the stomach, affect the bowels, or inflame any of the delicate membranes of the body. On the other hand, it is a fine tonic, made of botanical ingredients that aid the system in every way to overcome the effects of Contagious Blood Poison. We have a book on Home Treatment which we will send, together with any medical advice free to all.

Will Bring Scott Back for His Trial

SACRAMENTO, March 3.—Governor Gillett has granted an application for a reprieve for the return to this State of O. H. Scott, who is under arrest at Salt Lake on the charge of embezzlement, preferred against him by Miss Anna B. Marston of San Bernardino.

Miss Marston says that she gave Scott a set of diamond earrings to take to Los Angeles and have reset. She alleges Scott converted them into coin and fled from the State. The earrings are said to be worth \$200.

IS HAMMOND WORKING TO DEFEAT CITY

Many Suspect Mining Man Is Back of Hetch-Hetchy Annulment.

HE IS SAID TO BE EXERTING HIS INFLUENCE

Mining Man Has Large Holdings in the Lake Eleanor District.

SAN FRANCISCO, March 3.—It is strongly suspected in some quarters that the fine Italian hand of John Hays Hammond is visible in the suggested annulment by Secretary of the Interior Ralph H. Henshaw of the Garfield grant of reservoir sites and water and pipe-line rights in the Hetch-Hetchy valley and confining the proposed source of supply for San Francisco to Lake Eleanor.

HAMMOND'S INTEREST. It is alleged that Hammond exerted great influence in the Interior Department in behalf of the Guggenheims in the movement for the issuance of patents to the Cunningham coal land claims in Alaska. It is now asserted that he is exerting the same influence against the acquisition of San Francisco of the Hetch-Hetchy water rights and reservoir sites and confining the municipality's source of Sierra water supply to Lake Eleanor in the Lake Eleanor holdings, for which the city has been asked to pay \$1,000,000. Hammond is said to be heavily interested.

The position taken by the Secretary of the Interior, it is claimed, will force the city to settle with Hammond at an early date. There is a strong opposition to the payment of \$1,000,000 for the Lake Eleanor privileges and it has been suggested that condemnation proceedings be instituted.

The Lake Eleanor properties are now largely controlled by the Sierra Ditch and Water Company John Hays Hammond is one of the principal owners. He is represented locally by John Turner Hayes, a nephew, and Hammond Hall, a cousin. POWER COMPANIES INTERESTED.

The report was also revived yesterday that the water power interests had renewed their campaign of opposition. By a strange coincidence the John Hayes Hammond interests have been represented by the attorney for the San Francisco Gas and Electric Company in the person of W. R. Bosley. It was Bosley who sought greater rights in the federal domain for Hammond's Sierra Ditch and Water company.

The city authorities will make no reply to Ballinger until they receive through the mails the letter in which they are ordered to show cause. When that mischievous notice is issued that a conference will be called to thrash over the situation.

Toilers Returning To Bethlehem Works

SOUTH BETHLEHEM, Pa., March 3.—More men returned to work today at the Bethlehem Steel works, where a strike is in progress, than on any other day since the violent outbreak of the foreign strikers last Friday. Picketing by the strikers is still in force, however, and the leaders of the strikers are not letting up in their efforts to keep the great plant crippled.

The two companies of state police and the hundred deputies sworn in by the sheriff are still on duty, but they are not meeting with any trouble.

AN OFFICE HOLDERS' SOCIETY. An Ohio Society is to be organized in Washington. Most of the public officeholders will, of course, be eligible. —Chicago Record-Herald.

SWEET WORDS OF HOPE. The fact remains, however, that the ground hog is just about as irresponsible as the weather bureau. —Kansas City Times.

Disease attacks only those Who are susceptible to it, Because of a weakened Condition of the body—Generally due to wrong food. Grape-Nuts food is made

Of whole wheat and barley, Scientifically employing Moisture, time and heat—Nature's own way of changing

The starch of the grains To a form of sugar (the Most digestible food known) Which a weakened human system

Can absorb and use to build Itself back to sturdy strength. Proper food will generally Put disease to flight.

Read "The Road to Wellville," in packages. "There's a Reason"

MUST BELIEVE IT

When Well Known Oakland and East Oakland People Tell it so Plainly.

When public endorsement is made by a representative citizen of East Oakland the proof is positive. You must believe it. Read this testimony. Every back-ache sufferer, every man, woman or child with any kidney trouble will find profit in the reading.

Timothy Kennedy, 1426 East Ninth street, East Oakland, Cal., says: "I consider myself justified in vouching for the merits of Doan's Kidney Pills, as I derived great benefit from their use. About two years ago I first took Doan's Kidney Pills and was relieved of pain in my back and other symptoms of disordered kidneys. The pain in my loins was very annoying and I was also bothered by a too frequent desire to pass the kidney secretions. Doan's Kidney Pills acted promptly and effectively and the use of a couple of boxes improved my condition in every way. Some time ago I felt a slight recurrence of kidney trouble, but on that occasion I took Doan's Kidney Pills and they soon had the desired effect."

For sale by all dealers. Price 50 cents. Foster-McIlburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

MAN BOASTED OF AFFINITY, SHE TELLS COURT

Authoress Is Granted Decree of Divorce After Tale of Cruelty.

SAYS HUSBAND LEFT HER FOR THE AFFINITY

Husband Told Her He Had Wronged Other Woman, She Asserts.

It was the same old story of a husband's infidelity and a wife and mother suffering because of the shame of the scandal, that won for Elizabeth Vore an interlocutory decree of divorce last evening in the Superior Court from J. W. Vore, the affinity in the case being one Eleanor Rogers of Los Angeles, with whom Vore is said to be living at present.

The Vores were first married in West Branch, Ia., in 1922, and the result of this union were three daughters and one son, two of the former now being matrons. The couple lived together for seventeen years and then Mrs. Vore secured a divorce from Vore in Los Angeles in 1929, being also awarded the custody of the children.

A year later, during the Christmas season, the couple became reconciled and were remarried in San Francisco on the 23d day of December. Then some question was raised as to the legality of the marriage certificate so Vore and his wife obtained another license in Oakland and had the ceremony repeated. Mrs. Vore told the court that the reason she remarried Vore was because she had found it utterly impossible for her to support the children any longer without assistance.

LIVED IN BERKELEY. Having re-established their home at 1635 Mission avenue in Berkeley, the Vores' domestic life was tranquil enough for awhile and then trouble began again when one day Vore said to his wife in a self-accusing sort of way: "I have greatly wronged another woman by remarrying you; I have good reasons to marry that woman."

He referred to the Rogers woman, Mrs. Vore told the court, because about the same time she found a letter he had written to his affinity but not yet mailed. In Vore reminded his soulmate of the time they had together at Long Beach, where he had spent his vacation on money furnished to him by Mrs. Vore.

Vore told his affinity that he was so homesick for her that he could hardly live and concluded by entreating her to come up to San Francisco, where she could be near him.

FURNISHED HIM MONEY. "I furnished the money for him to take that vacation," declared Mrs. Vore to the court, "and he spent it with this woman."

In the early part of 1926 Vore indicated by his actions that something was troubling his soul. One day when Mrs. Vore entreated him to unburden himself he sat down beside her and made a confession of the errors he had committed, telling her all about the Rogers woman. But his repentance was not toward his wife. It was for the great wrong he had done the Los Angeles woman.

"I have hated you," declared Vore to his wife on this occasion, "and I have determined to crush you. Yet, withal, I wonder that the stones do not cry out to heaven at the wrongs I have heaped upon an innocent wife and a good woman."

REBUFFED HIS WIFE. "It is none of your business," Vore would tell his wife when she asked him about his affairs. "I intend to have a good time the rest of my life. If you can't overlook my shortcomings, I intend to have a good time anyway."

Mrs. Vore told the court that Vore's conduct cast a gloom over the family's home life, made the children nervous and herself sick. Vore had absolutely no interest in his home and no love for his family, she says, and there were times when he neglected them so shamefully that they were almost without food and had no money with which to purchase it. Mrs. Vore is an honorary member of Pacific Coast Women's Press Association and at one time was a frequent contributor to magazines. She assisted her family for many years with her literary work, but the latter has grown less and less as her health has become weaker.

EXPECT SPRING VALLEY WILL MAKE NEW OFFER

Creation of Two Corporations Leads to Belief of Well Defined Plan.

PURPOSE TO SEGREGATE THEIR LANDED HOLDINGS

Scheme Was Originated by A. J. Payson When Tender Was Formerly Made.

SAN FRANCISCO, March 3.—No dental coming from President W. B. Bourn, or any other responsible official of the Spring Valley Water Company, that the two new city and suburban corporations have been created in the interest of the water company, for the segregation of its properties and to facilitate a new offer to the city of the water producing lands and storage and distributing plants separately for \$28,000,000, is generally accepted by the public as an acknowledged preliminary for a well-defined plan.

PAYSON'S PLANS. It is now recalled that about one and one-half years ago, Captain A. J. Payson, then president of Spring Valley, made two propositions to sell to the city. One was for \$22,000,000 for all the company's possessions. The other was for \$28,000,000 after segregating outside land not needed for water conservation which he reserved for future exploitation by himself and his associates.

The latter offer represented the value of the 280,000 shares of stock in the corporation at \$50 per share, plus the outstanding bonded indebtedness approaching \$18,000,000. The lands reserved for private exploitation were then appraised by Payson at \$4,000,000, as shown in the difference between the amounts named in the two propositions.

OUTSIDE LANDS. The outside lands eliminated in the second of Payson's propositions comprised 2500 acres in the Rancho de la Merced lying partly in San Francisco county and partly in San Mateo county, and some 5000 additional acres on both sides of the coast ranges in San Mateo, San Benito, Santa Clara and Alameda counties. The non-water producing lands had been bought by Chief Engineer Herman Schussler for the corporation, on the theory that they were necessary to keep the watersheds free from contamination. He did not want the waters near the watersheds and the only way, in his opinion, to accomplish this purpose was to buy the surrounding lands and keep settlers away. This was done by him, but not before he had overcome some opposition in the board of directors, some of the members believing then that Schussler was buying land which was not absolutely necessary for the maintenance of either the quantity or quality of the company's water supply.

RETURN TO PAYSON'S FIGURES. It now appears as if Bourn had adopted Payson's plan of segregation of the lands and his figures for the water producing lands and operating plant. Bourn's general plan has not yet formally come before the board of directors of the Spring Valley Water Company. It will give its approval at the right time because Bourn and his friends are in control of the board.

If the plan to sell the productive properties to the city for \$28,000,000 is finally accepted by the municipal authorities and is favorably voted upon by the citizens, then the Spring Valley water plant proper will be legally transferred to the City and Suburban Water Company by Bourn and his associates, and the city at the proper time will acquire the plant from the latter company.

When the water lands and plant are transferred to the new water company, the segregated outside lands will, at the same time, be transferred to the City and Suburban Water Company for the individual purposes of Bourn and his coterie. There will be no opposition to this division of the present holdings of the Spring Valley Water Company by the owners of the \$18,000,000 bonds now outstanding. It was ascertained yesterday. Whenever requested to do so, they will give their approval.

SAVANT SCORED COLLEGE COURSE

BERKELEY, March 3.—Students and faculty of the University of California are discussing the scathing indictment of modern education contained in the book just issued from the pen of Professor Charles Mills Gayley, head of the department of English in the university. Professor Gayley attacks the college student, declaring that his education is one-sided, that he gives up his time to "queening" student politics, "thug athletics" and general nonsense, and has no time for study. He points the finger of scorn at many holders of Ph. D. degrees, stating that their command of language is a farce, and that they are but half educated. College athletics comes in for a bitter arraignment, and the activities to which students devote the larger part of their time are designated as so much trash. About the only independent activity to which students give attention that is not attacked by Professor Gayley in his "Ideals of Education" is that of debating.

Professor A. C. Miller recently rebuked his classes for their literary lack of attention to work, and he was declared that they could not be compared with students of a similar grade in European universities.

Superior Judge Ellsworth granted to Mrs. Vore her interlocutory decree and ordered Vore to pay her \$45 a month as alimony. The community property, consisting of household effects at the McGee avenue home was also given to the wife.

Hear Slezak sing "Celeste Aida" in the Edison Phonograph

The New York Tribune says: "Mr. Slezak dominated every scene, and his clarion voice rang out superbly in the climaxes. He sang the Celeste Aida with effectiveness, and the Nile scene with fire and passion, yet always with regard for phrase."

These comments represent the consensus of opinion of all who heard Slezak at the Metropolitan in the role of Rhadames. Could you ask for better evidence of the fact that Slezak is the greatest lyric tenor since the days of Tamagno? He sings the "Celeste Aida" and the great arias from Verdi's "Otello" exclusively for the Edison Phonograph. The Slezak Records are Edison Grand Opera Ambers—playing longer than any other Records made.

The AMBEROLA, the newest and highest type of Edison Phonograph

combines the rich, tonal beauty of the Edison Phonograph with a cabinet that is a masterpiece of craftsmanship. It is charmingly designed and finished and comes in either Mahogany or Oak to harmonize with surroundings in any home. It plays both Standard and Amber Records. It has drawers for holding 100 Records. The price is low. Other types of Edison Phonographs, \$15 to \$100. See and hear the Ambers at your dealer's and be sure to hear Slezak sing "Celeste Aida."

Edison Grand Opera Records, 75c and \$1.00. Edison Standard Records, 75c and \$1.00. Edison Amber Records, 75c and \$1.00. National Phonograph Company, 75 Lakeside Avenue, Orange, N. J.

Oakland Phonograph Co. EDISON DEALERS

472 ELEVENTH STREET ELEVENTH ST. ENTRANCE BACON BUILDING

TEVIS SUBMITS HIS PROPOSITION

Plans for Water Supply Are Made in Writing to City Officials.

(Continued From Page 1.)

managed on a basis with the electric light plant, which is owned by the city. NEW COMPLICATIONS. New complications are entering into the water supply situation on both sides of the bay. In the proposed elimination of the Hetch-Hetchy valley feature from San Francisco's Sierra water supply scheme, John Hayes Hammond is apparently cutting a big figure, as it is suspected that he has exerted the same influence in contracting San Francisco's Sierra water interests as he applied to the Cunningham Alaska coal claims in behalf of the Guggenheims, whom he represented. Hammond is said to be more largely interested in Lake Eleanor water rights than any other man, and that the proposed cancellation of the Garfield Grant to the reservoir site and water and canal rights in Hetch-Hetchy is designed to force the city to come to his \$1,000,000 terms for the acquisition of the Lake Eleanor land and water claims. Owing to the failure of any responsible Spring Valley Water Company official to deny that the organization of the City and Suburban Water and Realty companies is a preliminary step toward a submission by the old corporation of a new proposition for the acquisition by the city of San Francisco of its water producing plants at a lower valuation than the one which was recently defeated at the polls for all the company's possessions. Public opinion has become settled that Spring Valley is behind the new corporation.

BOURN IS SATISFIED. It is stated, moreover, that President Bourn is well satisfied over the friendly attitude of Mayor P. H. McCarthy towards the plan of Spring Valley land segregation, outlined in the objects of the new companies, as declared within respective articles of incorporation. If Hetch-Hetchy valley is eliminated from the Sierra water supply system and Spring Valley's forthcoming proposition is adopted by the voters of the city, it means that the Hetch-Hetchy water scheme will pass out of the field on this side of the bay and that the latter will be left open to the Bay Cities and the Peoples Water Companies exclusively.

PEOPLES WATER BONDS. The bond market in San Francisco yesterday showed no activity in Peoples Water Company securities. There were no sales, and the closing quotations at the end of the day were \$64.50 bid and \$67.50 asked. On the other hand Spring Valley trading was active on a rising market.

MEETING TONIGHT. Tonight a civic convention will be held in the old First Methodist church building, near the corner of Park street and East Clara avenue, Alameda, under the auspices of the Alameda Chamber of Commerce, in which the mayors of San Francisco, Oakland, Berkeley and Alameda will deliver addresses all of which will have a more or less direct bearing on the water situation and the relations of the four municipalities toward one another. Possibly an independent conference will be held by the four mayors for the purpose of exchanging views on the water supply question.

HERE IS THE PROOF

That the best body-building and strengthening tonic for Delicate Children

is Vinol

"My 9 year old daughter was weak, pale, and had no appetite. I gave her Vinol, and she began to thrive at once. She gained rapidly in weight, color and strength." — Mrs. W. H. GILMORE, Durand, Mich.

"My two children, who were puny and ailing, rapidly gained flesh and strength when I began to give them Vinol. I proved that Vinol is a splendid tonic for delicate children." — Mrs. C. ALLEN, New Bedford, Mass.

Vinol builds up healthy flesh and makes thin little limbs round and plump. Children love to take it. We return people's money without question if Vinol does not accomplish all we claim for it. Try it, please.

OPENING SALE SUNDAY Of the Reserved Portion of A. J. Snyder's Piedmont Terrace-by-the-Lake

SUNDAY the portion of A. J. Snyder's Piedmont-Terrace-by-the-Lake that has been reserved until the completion of improvements will be placed on sale at no increase in price.

NO other property in Northern California offers such a multitude of attractive features as this magnificent property of the hill land just north of Lake Merritt.

OVERLOOKING the grand panorama of Lake Merritt and the beautiful homes and gardens that border its shores, with all improvements complete and contiguous properties of the highest possible order, A. J. Snyder's Piedmont-Terrace-by-the-Lake presents itself as the most desirable place for a permanent home site in or adjacent to Oakland.

THE future of this property and its rapid increase in value is assured. To the west is Adams Point, with property selling from \$50 to \$125 a foot. On the north is on-coming Piedmont and its costly homes. On the east is Linda Vista Terrace, completing the chain of residence sections with lots selling from 20% to 50% higher than Piedmont Terrace.

ALTHOUGH the opening sale does not take place until Sunday, an earlier reservation is advised, conditional, of course, upon your personal visit next Sunday.

PHONE in at any time for a motor car to call for you. No obligation incurred, you know. Or take Grand Avenue cars and get off at the boulevard and walk north to the tract.

Western Pacific to Build to San Jose

SAN JOSE, March 3.—With the opening of the new line in this city by the Western Pacific Railroad Company comes the announcement by a member of the Chamber of Commerce that a spur of the Oakland-Buffalo main line will be built to this city. The Santa Clara valley's great light business is the incentive and the line will connect this city with Niles, J. Q. Patton, traveling freight and passenger agent of the Western Pacific, arrived in this city recently and last night was voted a member of the San Jose Chamber of Commerce. He states that his company will boost this valley throughout the East.

PURE FOODS AND PURE MEDICINES.

mean better, healthier, happier people. It has been proved, however, that all medicines are not adulterated and worthless any more than are all food products. The wheat has been sifted from the chaff, and such medicines as Lydia E. Pinkham's Vegetable Compound, which is made from roots and herbs and contains "all conditions of the Pure Food and Drug Law," will continue to hold its place as the standard American remedy for female ills.

Report Confirmed Of Chamorro's Rout

BLUEFIELD, Nicaragua, March 3.—News of the crushing defeat of General Chamorro at Limas, on February 22, leaked out here today and was officially confirmed. Chamorro's forces were wiped out and he barely escaped with a handful of followers. His loss in killed, wounded and captured is given as 800. He estimates his opponents' loss as 1000. The defeat was due to the giving out of his cartridges. As a military man, the provisional army now seems to merit no higher classification than that of guerrillas.

Sons Succeeded Noted Sires as Directors

NEW YORK, March 3.—J. P. Morgan Jr. succeeded his father today as a director of the National Bank of Commerce. Henry P. Davidson, Morgan's youngest partner, succeeded H. C. Deming and Allan Ryan succeeded his father, Thomas P. Ryan. The three young men are all about the same age, and all succeed men old in years and finance.

HOODOO HAUNTS JUDICIAL AUTO

Florence Oakley's Father-in-Law Has Trouble With His Car.

LOS ANGELES, March 3.—Judge Pryor of Pasadena, who has lately become an expert automobile enthusiast, had a series of mishaps in connection with one of his joy rides yesterday. After getting some distance from town, he broke something about his engine and spent three hours under the machine trying to fix it, thus ruining a new suit of clothes. Then he got started and when several miles from any sign of a garage, he blew a tire, and had to come into town on a rim.

While fixing this break, he laid his fine \$200 gold watch and chain on the running board and forgot to pick it up. It was lost in the dust somewhere in the weeds. When he finally got into town he backed into a bicycle near the curb and smashed it, which cost him the price of a new bicycle.

Mrs. Pryor and the Judge's son and his young wife enjoyed the ride with the Judge. Young Mrs. Pryor formerly was Miss Florence Oakley, leading woman in the Liberty Theater in Oakland, and was married in San Rafael last fall.

America Is Sending Best Blood to Canada

OTTAWA, Ont., March 2.—Here is a prophecy made by Sydney Fisher, Minister of Agriculture, yesterday: "Next year it will be my duty to take the census of Canada and I firmly believe the census will show 8,000,000, an increase in the last ten years of 50 per cent."

"In the course of the next generation we will be doubling and tripling our population, which will mean that America will be sending her best blood to Canada as in the early days of the United States. "Canada provides the old country with her grain now and it will not be far in the future when Canada is the granary of the empire."

RIGHT METHODS TO TRAIN CHILD

Probation Officer Addresses
Lockwood Mothers' Club
on Minor Problem.

There was a large gathering in the assembly hall of the Lockwood school yesterday afternoon when Probation Officer Christopher Ruess addressed the Mothers' Club of that school, taking for his subject "The Father, the Mother and the Child."

The speaker professed the belief that right methods pursued with children will give satisfactory results even with those who are under the care of the probation office. "The longest way around is often the shortest way home in the training of a child," said Ruess. "And, lastly, kindness and fair play and a whole-some respect for the law, whether in the home or in the community, are the essential points to be adhered to in its bringing up."

Following the lecture, refreshments were served by the members of the club and a social hour was thoroughly enjoyed by those present. The Lockwood Mothers' Club is one of the youngest in the bay federation, but already numbers over 100 members who are exerting themselves in behalf of the civic betterment of their locality. It was largely due to their efforts that the Board of Education at its meeting Tuesday evening decided to set aside \$40,000 in the coming bond issue for the purchase of adjoining land to be used as playgrounds for the Lockwood school.

Canners Combine; Buy Four Northern Plants

TACOMA, March 3.—The California Fruit Canners' Association has leased for one year, with an option to buy, four canneries in Washington and Oregon, owned by the Webber-Bussell Canning Company, and located at Sammamish, Yakima, Newburg, Or., and Brewster, O. The California Association took possession of the plants yesterday and already has agents in Eastern Washington arranging to purchase fruit for this year's pack.

The plants at Sammamish and North Yakima each has a capacity of 150,000 cases annually. The two in Oregon have a combined capacity of 800 cases. C. B. Bussell, president of the Webber-Bussell Company, is the intention of the California Fruit Canners' Association to take up the option and become owner of the plants. Bussell established his company four years ago. He has other large interests and conducts a large business in the canning industry. The Yakima plant was not operated during the last year owing to the failure of the peach crop and the high prices ruling for other fruits.

Local jobbers declare that the entrance of California fruit into the Northwest means much to the fruit growing and jobbing interests of the State.

Wheeler Honored By German Kaiser

BERLIN, March 3.—Emperor William III. has presented a large size autograph photograph of himself inscribed "from an ardent admirer," to President Wheeler of the University of California, who has just closed his services as Roosevelt professor at the University of Berlin.

Professor Wheeler also has received from the Empress Augusta Victoria a photograph of herself and Princess Louise. This bears the autographs of her majesty and the princess.

Professor Wheeler will leave for Oxford, England, tomorrow and will lecture at Oxford University Saturday. He will sail for the United States March 5th.

Civic League Opens War on Gambling

ALBANY, N. Y., March 2.—The Civic League of Albany has begun a campaign against gambling here. As the opening gun in their warfare, they sent a letter to Governor Hughes asking his assistance. Today the Albany District Attorney and the State Excise Commissioner received letters from the Governor, directing them to "take such steps as are necessary to enforce the law."

SAN FRANCISCO BREVITIES

WAGON THIEF'S ARREST.—George Connor, a teamster, was arrested yesterday while attempting to steal a wagon belonging to the firm of M. D. Meyer located at Geary and Divisadero streets. Connor is believed to be a member of a gang of wagon thieves who have been operating in the city for some time.

WANTED FOR FELONY.—Charles Hutchings' failure to provide for the support of his two minor children, both under 10 years of age, resulted yesterday in the issuance by Police Judge Weller of a warrant for his arrest on a charge of felony.

GRAY BROTHERS ATTACHED.—Yesterday the Metropolitan Trust Company filed a notice of its claim in an attachment suit against the Gray Brothers, dealers in crushed rock. The trust company's claim amounts to \$12,000 and the attachment covers twenty-six pieces of city property and the company's brick yards.

FAILURE TO PROVIDE.—Musical Harman P. Schlott, former orchestra leader here, was held by Police Judge Shortall yesterday to answer to the Superior Court to a felony charge, based on his failure to provide for his little daughter, Cecilia Bianche, and his bail was fixed at \$3000.

WANTS TO BE REINSTATED.—Benjamin Heath, a former field deputy in the office of the Board of Public Works, who lost his job with the board of administration, has petitioned the Superior Court to compel the board to reinstate him and the Auditor and Treasurer to pay him his salary of \$200 for the month of February.

HUMANITY SOCIETY ELECTION.—The following officers and directors of the Humanity Society were elected at the annual meeting of the organization yesterday afternoon: President, Daniel S. O'Brien, first vice-president, T. H. Corcoran, second vice-president, F. V. Seaman; treasurer, A. E. Scamell, secretary, E. L. Wadham; directors, Dr. P. Snodgrass, Dr. M. H. Echeverry, Thos. J. Emery, J. V. Noonan, Joseph Grant and Dr. E. W. Bass. The following new members were elected: Frank C. Higgins, I. Helmann, J. Summerfield, G. Hayes, Melville G. Hoffmann and Harry R. Fee.

EXPELLED FROM HIS CLUB.—Notary W. H. Pryburn, who stands accused by members of the Park-Richmond Improvement Club of divulging the contents of two affidavits sworn to before him, has been expelled from the club for an attack on his fellow members in a typewritten paper of many pages read before the organization on Tuesday night in which he charged them with perjury, bad faith and petty politics.

A WHITE ELEPHANT.—The Lick public baths, founded by a bequest of \$150,000 made by the late James Lick in the deed of trust distributing his estate, has turned out to be a white elephant, and the trustees want to get the property out of their hands. The baths were destroyed by the earthquake and fire of 1906 and the trustees have incurred a loss of \$24,000 to rebuild and rehabilitate. They asked the predecessors of the present Board of Supervisors to take the property out of their hands and they have renewed the offer to the present board. The matter was passed to the City Attorney for an opinion as to the right of the board to accept the gift and assume the indebtedness.

DAN BURNS ADDS MINE TO FORTUNE

Fabulous Ore Property Located
Near the Candelaria
Prize.

SAN FRANCISCO, March 3.—The luck of Colonel Dan Burns still comes at his beckon, for the well known politician, horseman and mine owner has another rich mine among his assets. It is located about eight miles from his famous Candelaria property in Durango, Mexico, and credited with being far richer in the quality and value of its ore.

The Candelaria mine is reputed to be worth between \$20,000,000 and \$30,000,000 though that is purely a guess at the value of the property, which is said to have produced \$1,000,000 in profits in a year. Burns is one of the best known of California politicians. He was candidate for United States Senator and for many years was a dominant factor in the Republican party.

GOTHAM STATUES TO BE GIVEN FIRST BATH IN DECADE

NEW YORK, March 3.—With indications of approaching spring stirring in the air, Mayor Gaynor today park commissioner announced that he is about to undertake the unusual task of cleansing all the bronze statues about the city. In many cases twenty years' accumulation of soot and dirt must be removed. The work is to be done under the general supervision of Gulsion Bormann, the sculptor, so that no damage from the artistic point of view will be done to the statues.

Nogales Swept by Destructive Flames

NOGALES, Ariz., March 3.—Fire early today destroyed the Boston store and the Vasquez block and damaged a number of business houses. Loss \$75,000 to \$100,000. The town's new fire apparatus saved the business portion from total destruction.

M'CARTHY SCHOOL BOARD IS BARRED

Judge Sturtevant Decides in
Favor of the Taylor
Appointees.

SAN FRANCISCO, March 3.—The members of the Taylor Board of Education will remain in office unless the Supreme Court to which appeal will be taken, reverses the action of Judge Sturtevant in other proceedings. In the decision handed down by the latter yesterday afternoon the injunction preventing Mayor McCarthy's appointees from taking office or interfering in any way with the exercise of the powers of the old board was made permanent. Frank J. Murphy, who appears as chief attorney for the McCarthy appointees, said that the fight would be carried to the supreme court.

CHARGED WITH BATTERY.—A warrant for the arrest of Antonio Simas on a charge of battery was issued here today. He is charged with assaulting Joseph Bevis.

Hiram Johnson on Republican Sins.

One significant fact about the primary contest for Governor, viewed from a Republican standpoint, is that Hiram Johnson represents a spirit and an element hostile to President Taft and the policy of the National Republican administration.

Mr. Johnson insulted the President in a public speech on the eve of the Presidential visit to San Francisco. More than once he has pointed the finger of suspicion at the head of the government. He speaks of the cabinet as if it were a sort of rogues' gallery, and his chief journalistic supporters are whacking away at Ballinger, Wickersham, Dickinson and Knox. The only excuse made for the President is that he is weak and silly, a well-meaning dunce in the hands of designing and unscrupulous advisers.

Mr. Johnson and his adherents are arrayed in bitter hostility against the Republican majority in both Houses of Congress. Their view of the dominant wing of the party is that of the extreme Democrat. Their idea is that the Republican party should confess that it is sinful and unworthy and put on sackcloth as a sign of guilt and repentance. They demand that the party abase itself and repudiate its leaders, and plead guilty to every indictment the Democrats have brought against it since the Civil War.

For forty years, according to Mr. Johnson, the Republican party has been a trick mule for corporations; that it has been nothing better than a bunco-steering organization for crooks and public plunderers; that it has poisoned the fountains of justice, defiled the judicial ermine and corrupted the enactment and administration of law. He further alleges that the President is, wittingly or unwittingly, the instrument of trust robbers and plunderers of the public domain. His editorial fuglemen take the position that no man is worthy of public trust or endorsement for public office who does not assume Mr. Johnson's attitude toward the President and the leaders of the Republican party and echo the plea of infamous guilt which he enters for the party as the basis of his candidacy.

Is the Republican party the false and degenerate thing Mr. Johnson represents it to be? Are its national leaders the servile, sordid, crooked vassals of organized theft that he and his friends picture them to be? Has the party of Lincoln and Grant and Garfield and Blaine and McKinley been walking in sin and darkness all these years, betraying the people and delivering them in chains to the spoiler and robber, or has Mr. Johnson corrupted his imagination with evil thoughts and generalized from a few special instances?

But, in any event, if what Mr. Johnson says of the Republican party and the men who have controlled its destinies for a generation is true, the only logical and decent thing to do is to vote the Democratic ticket. If Mr. Johnson were consistent he would advise electors to do that very thing. If he is not laboring under a monstrous delusion and uttering a frightful calumny, the Republican party is unworthy of confidence, unfit to govern; the President it has given the republic a foolish dupe, and his cabinet a parcel of scheming, treacherous rogues. If we accept that condition as a fact, can we hope that Hiram Johnson and Francis J. Heney, assisted by Fremont Older and Dick Creighton, are equal to the task of purifying and regenerating a party fallen so low and so far that it must needs go to the pillory of its own accord as a thing too rotten and degraded to claim even the semblance of virtue?

Jeremiah and Isaiah denounced the corruptions of Israel, but it is not recorded that they improved the situation much; and even the most enthusiastic admirers of Heney and Johnson will hardly contend that these vociferous patriots are the equals of Isaiah and Jeremiah in sincerity and moral earnestness. Are not these would-be regenerators speaking too much from personal experience in charging the Republican party with being corrupt and debauched?

Harriman's Spirit Marching On.

Although E. H. Harriman is dead his master mind is still directing the policy of the great railway system he consolidated and built up to such a high standard of efficiency. The plans he made are being carried out along the lines he projected, and the broken parts of disconnected systems that he acquired for the Union Pacific and the Southern Pacific are being pieced together as he originally planned.

It is stated that the surveys have been completed for the line Harriman projected into Southeastern Oregon from the Sacramento valley, and the announcement is made that construction will soon be commenced. This line will open up a rich timber, farming and grazing country east of the Sierra Nevada Mountains, and give Oakland and San Francisco direct rail communication with the Pitt River country in Modoc county in California and the Goose Lake country in Oregon—a great interior basin capable of a great variety of production and of sustaining a large population.

In Mexico the road to Gaudalajara is being rapidly built. In a short time the Southern Pacific will have a direct line from Seattle to the second city in Mexico, paralleling the Pacific ocean for nearly 3000 miles, with links connecting it with the Southern Pacific and allied lines entering Mexico at El Paso, Eagle Pass and Laredo.

The system of branch roads in Arizona are being pieced together and extended so as to create a through short route from Los Angeles to Kansas City and Chicago via Yuma, Phoenix, Durango, Denver and the Kansas Pacific. This line will be over easy grades for the most part and will give the most populous districts of Arizona direct communication with the centers of population of the Atlantic seaboard as well as with Los Angeles and San Francisco.

In every part of the Harriman system there is manifested the same activity, the same exhibition of energy in developing the plans of perhaps the greatest transportation organizer this country has yet produced. Harriman's irrepressible spirit is still marching on.

It now develops that James A. Garfield, Ballinger's predecessor as head of the Interior Department, expressed the belief that Lake Eleanor is amply sufficient for the needs of San Francisco. But that was when he expected to remain in the cabinet.

Oakland needs more school houses, but the people will not tolerate one of the methods pursued in the past. Due diligence must be exercised in future, and before construction begins plans must be devised that will not require repeated revisions, increased expense and interminable delays. There must be no more blundering and trickery.

If T. R. should ever become Speaker it is not likely that anybody would ever complain of the tyranny of the committee on rules again. It would be the silliest outfit connected with the House.—Houston Post.

Possibly Mr. Roosevelt will have a program of his own for his reception in New York, as he had for his departure from Washington.—Washington Star.

When T. R. visits Spain he will surely congratulate Queen Victoria.—Cleveland Leader.

"The City of Brotherly Love!"

—CHICAGO INTER-OCEAN.

Topics Timely and Interesting

Leopold of Belgium, who died recently, was at one time thought of as a candidate for the throne of France. Aug. 23, 1870, Busch, who was Bismarck's factotum, wrote: "I was much interested by a report of the views recently expressed by Thiers as to the immediate future of France. He regarded it as certain that in the event of victory he should retain Alsace. The defeat of Napoleon would be followed by the loss of his throne. He would be succeeded for a few months by a republic and then probably by one of the Orleans family, or perhaps by Leopold of Belgium, who, according to the source from which our informant obtained his views (one of Rothschild's confidants), was known on the best authority to be extremely ambitious."

August Belmont is actively engaged in stimulating the work upon the Cape Cod canal, which is to save sixty-five miles in distance between New York and Boston, a week in time for sailing vessels and barges, and many thousands of dollars in the annual wreckage in storms and fogs along the treacherous coast. The canal is to be wide and deep enough

for passing steamers, so that it will be possible in all weathers to leave New York in the evening and arrive in Boston before business hours the next morning.

Meat eating is on the increase in Japan and for some time past the Japanese government, under direct encouragement from the emperor, has been devoting attention to the improvement of Japanese cattle. The head of the cattle-breeding department of the Japanese government, Mr. Hashimoto, is at present visiting

England to make purchase of stock. According to Mr. Hashimoto, "the Japanese peasant does not eat much rice; it is too dear. Barley, vegetables and fish are his staple foods. The upper and middle classes, however, who have hitherto eaten large quantities of rice, are now slowly beginning to add meat to their dietary. Beef is the favorite dish. It is cut up small, boiled with a native bean sauce and vegetables, and eaten with the hashi or chopsticks. The wholesale price of beef in Japan is about 12 cents a pound."

Transportation of Mails

There is soon to be installed in the state of Michigan an entirely new system of freight and mail transportation which is especially designed for rural business. By its use a great number of patrons are served automatically, mail matter and packages of reasonable size coming to some convenient station and being deposited there to await the pleasure of the owners.

Light metal poles support a double steel track which is from twelve to twenty feet above the ground except at the stations, where it is depressed and entirely accessible. These routes radiate from a central dispatching station in loops, and the mail and parcels for each farmer on that line are arranged in boxes and attached to the carrier in the order in which the residences are located.

Between stations the carriers are designed to operate at a speed of about twenty-five miles an hour, but upon approaching a station the carrier automatically slackens speed, deposits the mail in a box, locks it, picks up the outgoing mail, rings a bell in the house to notify the occupants that the mail has been delivered, and goes on its way with an almost instant acceleration.

There is practically no danger of bad weather blocking the line, as the power is transmitted to the car through an inverted V-shaped groove that is amply protected from the elements. The rails can also be used to furnish telephone service if desired.—Newark News.

SHERLOCK HOLMES.
The Policeman (Nish)—This is more serious than I thought. The window is broken on both sides, and it's lucky for you that you have the brick as evidence.—London Sketch.

The Force of Authority

Tuesday's rioting in Philadelphia seems to have had its origin in the crowd's sense of humor. There were the Fencibles, four hundred strong, whose name suggests nothing more martial than parade. To make them even more reassuring still, their commanders stationed them thirty feet apart. The crowd at first jested about them verbally. Then it proceeded to practical jokes, such as stealing their cartridge belts, their campaign hats and their guns. There being a limit to what even the em-

bodiment of distracted authority will endure, the soldiers were soon engaged in a hand-to-hand scuffle with their persecutors and a joke had become a riot. To make the humor of the situation complete, ten policemen rescued the four hundred Fencibles and covered their retreat from the field without loss.

After this incident it is evident that the authorities of Philadelphia must not take any chances with the public sense of humor. The Fencibles should garrison a laughter proof fort. Who would answer for the safety of Philadelphia if they or anything else like them should be suffered at large in the present state of the public mind? It is too bad, however, that Philadelphia's sense of humor cannot be put to a better use. Can't Philadelphia perceive the joke in misgoverning itself and then rioting under its own misgovernment.—New York Tribune.

Pointed Paragraphs

It might be well to remember that other people have just as much right to their opinions as you have to yours. A Yankee at the point of death whittled the point off and got well. Truth is not to blame because it isn't eligible in a beauty contest.

A man isn't necessarily hot-headed because he wears a stovepipe hat. Farmers admire a cut-rate grocer until he cuts the price of butter and eggs.

Mind your own business and some day you will be minding a business of your own.

But women can put it all over men when it comes to looking interested when they are not.

One-half of the world doesn't lay awake at night worrying about how the other half lives.

The average girl is prouder of her engagement ring than she ever will be of her wedding ring.

The prune crop is reported short, but the rumor hasn't caused any walling and gnashing of teeth among the patrons of fourth-grade boarding houses.

Twenty Years Ago in Oakland

The Chief of Police in his report for the month of February states that there was a total of 387 arrests. The average number of prisoners on hand was 74 1-2 and 6251 meals were consumed in the city jail. Judge Gibson has appointed L. D. Manning, J. A. Calhoun and F. W. Sawyer to appraise the estate of Terrence Doyle, deceased. County Tax Collector Barber has released all his clerks, L. E. Yates and Myron Whidden, who were employed there, having gone into the County Assessor's office. On April 1 the regulation passed

some time ago compelling all regular members of the fire department appear in uniform will go into effect. The proposition for additions to the Durant school will be the important matter to come up this evening at a special meeting of the Board of Education. M. H. Goodkind of this city has been elected secretary and treasurer of the association of the graduates of Cornell University. A petition to close the saloons in Oakland from Saturday until Monday will come up before the Council at the meeting this evening.

Feet Tired-- So Tired?

TIZ Makes Sick Feet Well no
Matter What Ails Them.

TIZ acts at once and makes tired, aching, swollen feet remarkably fresh and sure proof.

It's the sure remedy, you know, for everything that gets the matter with your feet. It's for sore feet and for sweaty, bad-smelling feet, and for corns, callouses and bunions, too.

"For years I have been troubled with sore and tender feet; suffered intense pains. Have had the assistance of physicians without relief. I bought a box of TIZ, which worked a perfect cure, as it has with a great many of my friends. I would not be without it. It is recommended to be universally used."

A. P. Dretzer, Chicago.

TIZ is not a powder. Powders and other foot remedies clog up the pores. TIZ draws out all poisonous excretions which bring on soreness of the feet, and is the only remedy that does. TIZ cleans out every pore and glorifies the feet--your feet.

You'll never limp again or draw up your face in pain, and you'll forget about your corns, bunions and callouses. You'll feel like a new person. TIZ, 25 cents per box, or it will be sent you direct, if you wish, from Walter Luther Dodge & Co., Dodge Bldg., Chicago 10. Recommended and sold by the Civil Drug Stores.

WOMAN'S MISSION BOARD BEGINS QUARTERLY SESSION

Asks Pledge of \$6,000 to Found Girls' Department Attached to Mission at Kyoto, Japan

With devotional services led by Miss Grace Fisher, president of the Young Women's Christian Association, the quarterly meeting of the Woman's Board of Missions for the Pacific, was held yesterday, in the First Congregational church, Twelfth and Clay streets. At the morning session reports were read by the secretary, superintendent, treasurer and design secretary. At the noon hour a luncheon was served by the Ladies Aid Society of the First Congregational church.

The meeting was called to order by Mrs. R. B. Cherington, president of the board, who welcomed the delegates. One of the important issues that came before the afternoon conference was the adoption of a new constitution, which was recommended at the last meeting of the board. The main object of the board, according to the new constitution, was to adopt, is to engage Christian women and younger people in systematic effort to evangelize the women and children of foreign lands through the agency of the American board of commissioners of foreign missions.

The Women's Board of Missions for the Pacific was organized in 1873 and was incorporated by an act of the legislature of the United States in 1874. The headquarters of the society are in San Francisco, and that office acts in connection with the American board of commissioners for foreign missions.

Doshisha School.

To raise \$6,000 for a girls' department to the Doshisha school in Kyoto, Japan, will be the work of the Woman's Board of Missions for the Pacific, during the next few years. Enthusiasm in the new project was aroused at the meeting, where reports of that society convened for the purpose of adopting a new constitution and with the object of learning of the missionary work that has been accomplished in foreign lands.

Mrs. George Hinman, who returned two years ago from China, gave a resume of her work at Foochow, where she passed a number of years in endeavoring to spread Christian ideals.

Miss Mine Tamama, a student in the University of California and editor of the Japanese Woman's Herald, read a paper in which she appealed to the members of the board to lend their support to the new building in the Doshisha college of which she is a graduate. Over 300 students have enrolled in that institution, where girls are educated to become teachers, evangelists, social workers, professional women, wives and mothers. In the academic or high school course Chinese classics take the place of Latin given in western schools, and English is the modern language taught. Through all these courses--arithmetic, algebra, geometry, science and drawing are taught in the Japanese language and are given in about the same proportion that these branches are taught in the western high schools and in addition the girls have a rigid course in sewing.

Government Privileges.

The Japanese government gives certain privileges to schools having an approved curriculum, an efficiency in the teaching force, a school building built according to certain approved schemes and standards as to the number of windows and of cubic feet of each room. Girls graduated from schools without the privileges or recognition, are refused admission either to a college of regular standing or to a higher technical or professional school. They are not allowed to enter the government examinations for teachers' certificates.

The erection of the girls' department to the Doshisha will cost about \$20,000 and of this amount more than half has already been pledged by the board. Mrs. S. T. Alexander of this city has subscribed \$1000 and other individuals have sought to increase the fund by giving entertainments for the new structure, which will give dignity to the new institution. The American board has endorsed the appeal for the building.

The Doshisha building committee is headed by Mrs. H. B. Jewett of Berkeley, who is being assisted in this enterprise by Mrs. E. A. Evans, and Miss M. C. McClees, treasurer.

Officers of Board.

The officers of the board are as follows: President, Mrs. R. B. Cherington; vice-presidents, Mrs. J. K. McLean, Mrs. H.

Petition for Hoefler's Removal Is Mild

SAN FRANCISCO, March 3.—A petition to have Attorney Ludwig M. Hoefler removed as guardian of the person of James and Mary Josephine Lea, minor children of the late Mary Lea, was filed in Redwood City this morning, but it was a for milder complaint than was first promised by the litigants opposing Hoefler. Those interests are represented by Attorney John B. Hogan. No charge of criminal action was alleged against Hoefler. The petition was presented by William McQuillan, uncle of the children, and merely charged their guardian with misconduct.

"There will be no criminal charge made against Attorney Hoefler at this time," said Hogan last evening. "We will demand that he be removed as guardian and that there be an accounting of the estate. If the accounting should show anything wrong with the estate then we will lay the matter before the District Attorney and the Grand Jury of San Mateo county."

PERSONAL MENTION

JOSEPH HERBERT, better known as the mayor of "Watts tract," is being urged by his friends to become a candidate for Assemblyman from the Forty-ninth assembly district. CHARLES CURRY, Secretary of State, is in this city for a few days.

J. P. SULLIVAN of Los Angeles is stopping at the Hotel Crefin for a few days.

JUDGE T. W. HARRIS returned from Martinez today where he has been conducting a trial in a civil case.

HARRY PATTERSON, manager of the Pacific States Telephone company at Richmond, has been promoted to district manager at Fresno.

MR. AND MRS. HOWARD HAMILTON TAYLOR have returned from Europe and will reside at the Palace Hotel in San Francisco until the completion of the new home in Claremont.

DR. LIZZIE COOK WALKER is visiting friends in Topeka. She is improving in health and will reopen her offices in two or three months.

MISS VERA HAMILTON of Pittsburgh is visiting in this city for a number of weeks and is the guest of Miss Grace Layman.

MRS. CORA E. JONES expects soon to leave for the South and will spend most of the time in Santa Monica.

PROF. DAVID BULLOW delivered an address before the University Club of Alameda last evening.

DR. WALTER T. LUM has been appointed a member of the Alameda Board of Education. JOE ROXBOROUGH will leave Tuesday for Lincoln, Pierce county, where he will remain for a week.

MISS EMMA VOOGT of Berkeley has planned a sewing bee for Miss Rena Scott, who is soon to be married.

MISS ROSE SCHMIDT of Berkeley has returned from a sojourn of several weeks on the Atlantic coast, where she spent much time visiting the large cities.

MRS. J. R. FRIED has extended the hospitality of her Berkeley home for the reception this afternoon to Dr. Leslie Clay Carson, president of Mills College.

To Fly at Stockton In Curtiss Biplane

STOCKTON, March 3.—The Curtiss biplane, in which Colonel Frank H. Johnson is scheduled to fly next Saturday and Sunday afternoons, has arrived and is being put together by J. Schubert and R. E. Bricker, expert machinists.

Colonel Johnson is due here today and will test his machine Thursday or Friday. The exhibition is to be held at the race track, and is to be given under the auspices of the Stockton Chamber of Commerce.

The affair has been widely advertised, and thousands of visitors are expected during the two days. Agents have toured the southern mines section; Schora promises to send down 300, and Angels will be deserted. Special rates have been secured on all railroad lines.

Heirs Claim Share Of Baldwin Estate

LOS ANGELES, March 3.—Judge Rives, in the Superior Court here, granted the application of Walter Temple to be made administrator of the estate of his mother, the late Mrs. A. W. de Temple, today. This action means that a contest of the estate of the late E. J. Baldwin will be made in the courts.

The heirs of Mrs. De Temple claim an undivided interest in the rancho Merced, which was a part of the property left by Baldwin.

There are six heirs of Mrs. De Temple, and all are interested in the suit about to be brought.

Albino Gopher for Golden Gate Park

PETALUMA, March 3.—An albino gopher was caught today by Charles Halimell and has been secured by the museum in Golden Gate Park, San Francisco. The animal is pure white, has pink eyes and pink feet. No one here remembers ever having seen one in captivity before, but traps have been set in the place where this was found, as others have been seen.

BOTH SIDES WEAR SALOON EMBLEM

The Chicago Liquor Men Will
Enjoin Crusaders From
Use of Button.

CHICAGO, March 3.—Campaign buttons bearing a reproduction of the American flag and the inscription, "Our Country, Liberty and Independence," may mean the wearer is a zealous defender of the saloon or is an ardent "dry" crusader. This situation was created yesterday when the local option campaign committee appropriated the official button of the "wets" as its own emblem.

The local option campaign committee asked for bids on an order for 500,000 buttons exactly like those distributed by the "wets."

The association which is conducting the "wet" campaign claims to have ordered 1,000,000 buttons.

Leaders in the saloon cause, when they learned of the active of the "drys" intimated that they would bring action in the courts to put a stop to the plan of the local optionists.

Dire Danger Lurks In Chewing Straw

CHICAGO, March 3.—Persons should be cautious about chewing straw because of the danger of actinomycosis, known in plain English as "lumpy jaw." A case was discovered yesterday at the Presbyterian Hospital.

The patient is under the care of Dr. Arthur Dean Hevan, who refused to reveal his patient's name.

"My patient," he said, "became affected with the disease through placing in his mouth a piece of straw upon which a rust had collected. He is employed in a mattress factory which held a quantity of moldy straw."

"We should never put straw or hay in our mouths. The germs which lurk upon moldy straw lodge in the gums and that is the start of the disease. The germ is a vegetable parasite of the fungus. It thrives in plants and thus infects cattle. Men usually contract the disease by coming in contact with affected cattle."

Vapo-Cresolene

(Established 1873)

An Inhalant for
**Whooping-Cough, Croup,
Coughs, Colds, Catarrh,
Bronchitis, Diphtheria.**

Cresolene is a Boon to Asthmatics.

Does it not seem more effective to breathe in a remedy for disease of the breathing organs than to take the remedy into the stomach?

Cresolene cures because the air, rendered strongly antiseptic, is carried over the diseased surface with every breath, giving prolonged treatment. It is invaluable to mothers with small children.

For trifling colds there is nothing better than Cresolene Antiseptic Chamber Tablets.

SET OUT TO WIN A WAY IN WORLD

Vera Havens Denies Romance Lured Her From Her Mother's Wing.

SAN LORENZO, March 3.—Miss Vera Havens, the 15-year-old girl of this city who has been missing from her home since February 16, and was thought to have eloped with Gabriel Robin, was located late Monday night by her mother and returned to her home, where she has been kept in seclusion until the unpleasant notoriety that her disappearance has caused shall have time to blow over. The girl denies that she had any intention of eloping with Robin or any other young man, but will give no definite reason why she left her home. "I just wanted to and I went and I will do it again if I want to," said the high-spirited girl yesterday. She tells a tale of interest regarding her experiences, how she went to the city of San Francisco practically penniless and with no acquaintances from whom she could ask aid; how she walked the streets going into store after store in search of employment, worked two days as a saleswoman at the Emporium, after which she left for a place in a private family because of happenings which made her afraid to stay at a certain hotel on Market street, the name of which she refuses to disclose, and finally landed at the home of George Blumh, where she did housework.

CLEW OBTAINED.
The notice of the bay cities had been unable to get any track of the missing girl, Robin, who disappeared on the day after the flight of the girl, claimed to know nothing of her whereabouts and denied any attachment between the two. It was not until Mrs. C. Havens, the mother of the girl, made inquiries at the ferry building Monday night and chanced to interview a pedestrian who put her on the track of her missing daughter, that any clew was obtained. It was learned that she had communicated with the family of George Deering, who resides in York street, telling them that she was visiting in the city. The Deerings are acquaintances of the Havens family and assisted Mrs. Havens to trace the girl to the home of George Blumh.

VENDOR ACCUSED OF HAVING WEALTH

Dispute as to Whether C. Otto Is Deserving of Peanut Privilege.

MELROSE, March 3.—"Who is C. Otto, how old is he, and what is his financial standing—is he rich or poor, young or tottering with age?" This is the question that strangers to the situation in this place are asking today. The community is divided on the subject. Half of the town says that Otto is old and decrepit; that he is in dire need and these are signing a petition asking the Southern Pacific Company to restore to the popular peanut vendor the privilege of crying his wares on the plaza in front of the company's station here. But there is another faction in the community, bitter is the feud and greatly does the latter class differ from the backers of the peanut man in regard to his age and condition. Those who oppose the petition say that Otto is in the prime of life—just blooming with health—and besides that, they claim that he is "loaded with wealth." The statement is made that Otto is the owner of more property than any man who signed the petition in his favor. It has leaked out that Otto is the owner of property in the bay regions that has been appraised at \$1,000,000. If the statements of the opposition can be relied upon, and the latter are laughing at the signers of the petition who would make Otto the object of public beneficence.

VENDOR OWNS ESTATE.
Gilbert Wyman, who claims to be neutral in the affair, but is pointed out by Otto's backers as being against the interests of the peanut man, said yesterday: "There is no need to help Otto. I hear they want to grant him a free license. I have no objection to it myself and have written the railroad company asking that the request of the peanut man be granted. But it seems unnecessary, for I have been informed that Otto is the owner of property in Richmond appraised at \$1,000,000."

It is now up to the railroad company, and the whole town is waiting with bated breath the verdict of the "powers that be."

Philippine Coasters Tied Up by Strike

MANILA, March 3.—Following the refusal of the owners to grant a series of demands, the crews of the Inter-Island steamers struck yesterday, tying up the vessels and so holding up the mails. It is claimed that the strike was instigated by Dominador Gomez, former president of the Nationalist party. The strike breaks a two years' pact entered into by the owners and crews last fall.

Uncle Sam's Soldiers Attacked by Measles

DENVER, March 3.—Betrayed by a comrade into the hands of an insidious foe, 175 of Uncle Sam's soldiers at Fort Logan are under watch of armed guards, who hand them their meals, and the point of bayonets and laugh at them because of their affliction. This enemy which has barred the power of the command from pleasures of the garrison is nothing more than that simple disease of childhood known as measles. And now the private, guilty of the treachery, is quarantined within a quarantine to protect him from his comrades.

A NEIGHBOR OF YOURS
as well as yourself is liable at any time to have rheumatism. We're all liable to have cuts or burns, bruises or scalds, crick in the back, neck or side—some kind of an ache or pain. Then heed this advice and tell your neighbors—Ballard's Snow Liniment relieves all aches and pains and heals all wounds. Sold by Whart's Drug Store, Corner Tenth and Washington streets.
Pneumonia follows a cold but never follows the use of Foley's Honey and Tar which stops the cough, heals the lungs and expels the cold from the system. Whart's Drug Store.

Are you getting any of this money?

- If not, we want to tell you something.
- we want to tell you how you can get a great deal of this money if you will act NOW.
- you have heard of people making money easy, now we are going to show you where and how you can do it.
- every dollar an honest dollar, too.
- there is a certain section of Oakland that is going to double and treble in value in the next year.
- a dollar invested in this section now will bring you two, three or maybe ten dollars in the near future.
- invest one hundred dollars now and it will be a start to a fortune.
- we know it and we are backing up our knowledge with hundreds of thousands of our own money.
- the more you can spare now, of course, the more you can make.
- it rests entirely with you.
- there is more money made in real estate today than in any other form of investment.
- why? because real estate becomes more valuable every day—population is increasing rapidly and cities are spreading out.
- in 1906 Oakland's population was 150,000, today it is 250,000, that means that property values have nearly doubled.
- the man who owned a \$500 lot then owns a \$1000 lot now.
- he has made \$500 without turning his hand—that's easy money.
- the increase in population makes values rise, another and quicker means is rapid transit car service.
- before the Key Route was constructed you could purchase a block in Piedmont, Berkeley or in the Santa Fe tract for almost nothing.
- today property is selling in these same districts for \$35 to \$125 a front foot.
- stop and think what this fact means.
- if you had owned a few lots then you could ride in automobiles and live at the Palace now.
- you have let that opportunity go by. DON'T LET THIS ONE!
- there is another district to be opened this spring and it is as promising as Piedmont and Berkeley were then.

The Southern Pacific is spending millions of dollars

- the Southern Pacific's new electric train service from San Francisco and Oakland is the transportation facility that will develop and settle this new section.
- they are going to bring 50,000 people to this district in the next five years.
- they know it, and are spending over \$8,000,000 to get their train service ready for the crowds that are coming.
- the climate is so mild and ideal that Berkeley and Piedmont people will come here to live to escape the fogs and cold winds.
- San Francisco flat dwellers will move over in crowds when the trains start running, and Oakland families are now moving out there to escape the smoke and noise of the city.
- NOW, here is where you can make your easy money:
- get here before the trains start running; purchase what property you can right now and sell when prices go up—the longer you can hold, the more you will make. You do not have to pay all cash for this property. We will sell it to you on easy terms; one-tenth down and 1 per cent per month.

Melrose Heights was the old Talcott Homestead, and for that reason no cheap nor unsightly small shacks are on the tract. There are building restrictions to be lived up to, which makes Melrose Heights the future Pacific Heights of the new electric loop district.

Every dollar invested in Melrose Heights will begin to grow the day you invest; it will grow while you sleep, so to speak, and in a short while bring back two to five dollars for every one invested.

Our terms are very reasonable: One-tenth down and 1 per cent a month. And remember, no interest and no taxes for two years. If you decide to sell within two years, you have had the use of our land for nothing. Our profit is made on the lots we hold—get a few yourself and hold them.

- To reach Melrose Heights from Oakland take any East Fourteenth street car and get off at Fiftieth or Bay avenue.
- From San Francisco take Broad Gauge and Melrose local—tract is one block north of East Fourteenth street.

DEMOCRATIC POLITICAL BELL IS Jangling Out of Tune

Convention Plan Does Not Suit Many of Them--Curry Shakes Hands With Oakland People--Other Gossip

All is not harmony in the Democratic ranks. It is reported that the Democratic convention, to be held in Los Angeles shortly, is to nominate Theodore Bell to run on the Democratic ticket at the coming primary. Former Congressman Tom Geary of Santa Rosa does not like this convention business. He is a candidate himself and he does not believe in having conventions endorse candidates. This is what Mr. Geary says on the subject:

"I have been fighting for years for the direct primary law, be the first to stultify ourselves. For years the Democrats have been crying for the enactment of a direct primary law. We have talked and worked and fought for the enactment of a law that would free us from the boss-dominated convention. We have it now. Shall democracy be first to violate that law in both letter and spirit? Here is subjected something worse than the evil which we fought to wipe out. This is to be a convention without the authority of law. The delegates are to be appointed without an indirect reference to the people. I have not heard that the Democrats in our county are preparing to participate. I believe in giving the direct primary law a fair test."

Cooper's Surprise.

The politicians were given a surprise this morning by the announcement that Justice Cooper, presiding judge of the Appellate Court, had turned his back on the Democratic party and announced that he would seek the Republican nomination to succeed him. Judge Cooper expects to receive the Union Labor endorsement because of his Schmitz decision. Cooper is a very popular man and is looked upon as an able and just jurist. Judge Lennon of Marin County is seeking to succeed Judge Cooper, and is also hot after the endorsement of the L. & R. organization.

San Jose Mayoralty.

An interesting story comes from San Jose to the effect that the Hays brothers are going to give battle to the regulars at the city election to be held in that place. Mayor Charles W. Davidson, the incumbent, is to be renominated by the regulars. The Hays interests are going to name Dr. Simpson for Mayor. This will bring out a lively contest. The Hays brothers hope to have the support of the league candidates. The indications now are that "Red" Hays is going to have the fight of his life to be returned to Congress. Candidates for his office are beseeching him on all sides.

Outside Breastworks.

The Examiner this morning gives a little inside history on the railroad commissioners on the north district as follows:

"One of the liveliest troubles now agitating the interior of the Republican machine concerns Railroad Commissioner Alex C. Irwin of Marysville, representing Northern California on the board that costs so much, and does so little. Irwin is no longer in rapport with the 'organization.'"

"And it's all on account of Colonel E. A. Forbes, the militant leader of the Lincoln-Roosevelt League in the region around about Marysville, Chico and Oroville. For Irwin has always been Forbes' man and has held down a \$4000 job for now these eight long years on that account."

"Down to each convention would come Forbes, and each time he would want to protect or promote Irwin. Then the machine lieutenants would be heard to say:

"Oh, give Irwin the place; it may keep Forbes in line."

After Nye's Place.

Frank Mattison of Santa Cruz, once a member of the State Board of Equalization, announces his candidacy for State Controller. He was appointed to that position by Governor Gillett, but the court held that the appointment of A. B. Nye by Governor Pardee would stand. Nye has been endorsed by the league, but Mattison will have the endorsement of the regular Republicans.

Primary Plans.

The reading of the State primary law shows that the State Central Committee is not required to do anything until fifty days before the primary and the indications are that the governing body will confine itself to those duties, which are described as follows:

"The State Central Committee of any political party shall, at least fifty days prior to the August primary election, file a written petition signed by the chairman and secretary thereof, with the Secretary of State, and mail a copy thereof to the chairman and secretary of each County Central Committee of said party in the State, which petition shall set forth the date and place of holding the State convention of said political party, and the number of delegates entitled to seats therein, also the number of delegates

apportioned to each county, together with a brief statement of the purposes for which said convention shall be assembled. All delegates to State conventions shall be elected by county conventions, as provided in subdivision three of article seven.

Curry in Oakland.

Secretary of State Charles Curry was in Oakland yesterday visiting friends and building his fences. He was accompanied by Captain Kehoe, J. Cal Ewing and Harry Anderson. Mr. Curry was quite enthusiastic over the situation and declares that he will get a large vote in Alameda county.

"If every county in the State will treat me as well as I expect to be treated in Alameda county I will secure the Republican nomination for Governor without any shadow of a doubt. I have friends in every section of this county. I believe I am the only candidate who is honestly carrying out the provisions of the primary law. You had an article in your paper yesterday in which I stated that it was my friends against the other fellow's money. That is exactly the proposition. My friends are making my fight for me throughout the State, and I tell you now I am going to win sure. I have received some splendid assurances of support in Oakland."

Stanton Is Active.

A story comes from the south that Stanton is working hard, as is evidenced by this paragraph:

"Phil Stanton, also of Los Angeles, is making preparations for a lively fight for the primary nomination for Governor. Word from the southern city is that Stanton has chosen his campaign committee of two hundred, and appointed John T. Pope, a Good Government Leaguer, his campaign manager. Should Stanton knock the gubernatorial permission, the question of selecting the next United States Senator from the north may be reopened. Under the direct primary law, any number of candidates may seek the primary recommendation of the electors for the Senatorial toga, and it is not improbable that some politically ambitious citizen may endeavor to secure that indorsement at the primary polls."

The Lincoln-Roosevelt League committee will meet in San Francisco Saturday morning for the purpose of recommending a complete State ticket.

APPROPRIATE ALLOWANCE.

A DANGER TO BE AVOIDED. Congress, however, should exercise moderate discretion in seeing that it does not start so many investigations that they will get in each other's way. --Pittsburg Dispatch.

TIME TO DO SOMETHING. When Sero Payne and John D. Zell start out to ascertain what is the trouble with the high prices, the situation may well be regarded as serious. --Boston Transcript.

HOW TIMES CHANGE. The mummy Ramesses has reached New York. In the good old days this would have meant another Tammany vote. --Philadelphia Ledger.

MARTINEZ IS SEAT OF TELEPHONE POWER

Assessor Dodge Says Pacific Company Seeks to Avoid Assessment.

SHAREHOLDERS AT ANNUAL MEETING

Great Financial Prosperity Is Reported for Past Year.

SAN FRANCISCO, March 3. -- Stockholders of the Pacific Telephone and Telegraph Company, about a score in number, journeyed by special train to Martinez yesterday, there to hold the annual meeting of the corporation at its "principal place of business."

The fact that Martinez was made the "principal place of business" of the \$50,000,000 corporation, which is the merger of the Sunset Telephone and Telegraph Company and the Pacific States Telephone and Telegraph Company, was made the occasion of much speculation here, as the relation of the county seat of Contra Costa county to the giant corporation was a fact not generally known. The reasons for the selection of Martinez as the central point in the operations, legally, at least, are not generally known, and officials of the company are not inclined to go into the details of what caused the selection of that town. That there are good and sufficient reasons of officers of the company do not hesitate to say.

Dr. Washington Dodge, Assessor for the city and county of San Francisco, says that if the purpose of making Martinez the "principal place of business" of the corporation was to avoid being assessed on the franchise in this county those who planned that move are doomed to disappointment. He says the franchise will be assessed here, as this is the point where the corporation operates its plant.

ROUTINE MEETING.

The meeting was a mere matter of routine, according to the statement given out last night by Secretary F. W. Eaton upon his return from across the bay. All the old officers and directors were re-elected and the session occupied but a short time.

"On the reorganization of the companies constituting the Pacific Telephone and Telegraph company," said Secretary Eaton, "Martinez was selected as the principal place of business of the corporation. There were various reasons for this which it is not necessary to discuss. We could probably as well have selected any other city on the coast, but for reasons known to the board of directors we chose Martinez."

"We went there today for the purpose of holding the annual meeting, following which we held a directors' meeting, according to the code. Everything was of a purely formal nature, the main business consisting of the presentation of a synopsis of the statement giving the earnings and expenses for the last year. The preceding board of directors was re-elected and we then took the train back to San Francisco."

"The executive committee of the company meets in San Francisco and it is that body which practically controls the policy of the company. The Martinez meetings are merely a formality required by law. The voting is mostly done by proxy, but as everything is practically prearranged there is no need for discussion."

Secretary Eaton said that the company had an office in Martinez, in compliance with the law, and that there was a resident officer there.

REPORT FOR YEAR.

According to the statement presented to the stockholders yesterday, the company has in operation on the Pacific coast telephones to the number of 392,822. The States covered include California, Washington, Oregon, Arizona and Nevada. There is capital stock to the amount of \$18,000,000, and common stock of the same sum.

The total revenues for the last year was \$12,835,017.68, and the expenses amounted to \$9,774,357.82, leaving a net revenue of \$3,060,659.86. The sum of \$600,000 was transferred to a reserve fund for the maintenance of the various plants, and \$5,622,578 was expended during the year on plants and real estate.

The following officers and directors were re-elected for the present term: H. T. Scott, president; E. C. Bradley, vice-president and general manager; E. J. Zimmer, vice-president; Louis Glass, vice-president; F. W. Eaton, secretary and treasurer; F. C. Phelps, auditor; directors, H. T. Scott, San Francisco, J. C. Ainsworth, Portland; E. C. Bradley, San Francisco; F. J. Carlson, San Francisco; J. C. Cebrin, San Francisco; Wal-

Money Paid For Rent Is Wasted

How much rent do you pay?--\$40.00 a month?

POSTPONES TRIAL.
SAN FRANCISCO, March 3.--The slight illness of Superior Judge Dunne caused a postponement of the long-delayed case of Geo. Gong, accused of the murder of Yee Yip Woo from today until tomorrow morning. The evidence of the prosecution has been completed, but the defense has still its inning, after which the District Attorney will probably offer some rebuttal.

ARRESTS EIGHT SUSPECTS.
SAN FRANCISCO, March 3.--Detective Sergeant McGowan, who has been looking out for pickpockets and bunco men, took into custody eight suspects this morning and placed charges of vagrancy against them.

SPOUSE IS ABSENT THREE LONG YEARS.
Although previous to her marriage she had promised her husband that she would never seek refuge in the divorce courts, Julia Watson finally came to the conclusion after three years of her partner's absence that she was absolved from her promise and was today granted an interlocutory decree. Mrs. Watson married James D. Watson May 19, 1906, and shortly after the ceremony her husband left for Portland, explaining to her that he would send for her when he became permanently located. From that time until June he wrote to her regularly and finally announced that he was coming the north to take her back with him. Since that time she has neither heard from him.

ANNOUNCEMENTS

CONVICT MAKES GREAT FORTUNE

A machine has been invented by Fred Hoffman, a young man, not yet 30 years of age, who is serving a twenty year sentence in the California state prison at San Quentin and which has been thoroughly investigated by the leading bankers of the Pacific Coast, and all have cordially informed it as a machine which will absolutely prevent forgery and will positively identify the payee of a money order. They all unite in saying and in writing that it is the greatest invention for the protection of bankers, and the commercial world in general, that has ever been brought to their notice.

For years bankers and police officers the world over have known that a man's finger print is a better means of identifying him than his own signature. This machine is the first ever built wherein it is shown to be practicable to use the drawer's own individual finger print on his own money order. The machine now on exhibition at Tenth and Broadway, Oakland, is the finished product of the inventor's genius. Within a very short time the machine will be in use all over the civilized world; not only in banks but in express offices and there is no doubt but that in time the government will adopt them to use on post office money orders.

In order to finance sufficiently to begin the manufacturing of the machines, the company is offering for sale at one cent (\$100 per share), limited amount of the treasury stock, reserving the right, however, to increase the price or withdraw the same from sale at any time. The cost of the machines will be from \$20.00 to \$40.00 each. The sale price will be from \$15.00 to \$30.00 each. Opportunity knocks at least once at every man's door; this is his first visit to you. One good investment is worth a lifetime of labor. The future value of this stock has no limit and the whole world is our market. It is believed by those in a position to know, that the stock in this company will increase so rapidly in value that it will soon be beyond the reach of the small investor or entirely withdrawn from the market as when we began to sell the machines the returns in dividends were so great that none of the stockholders wished to sell their holdings. An investment of \$5.00 or \$10.00 might make the investor a fortune. \$5.00 invested in Telephone stock has returned a dividend of \$1.00 per share. The original investor paid \$1.00 per share, each share is now worth \$25.00. Limited stock once sold at \$1.00 per share, it is now worth \$25.00 per share. This opportunity will never occur again. If such opportunity is growing up, an investment of a few dollars from the dividends alone might pay for his education. If you have already made your fortune and think you are too old to wait for returns, buy a few shares anyhow; if for nothing else to prove to those coming after you that you know a good thing when you see it.

History does not tell of one single instance where a proposition of this kind, after having passed the experimental stage, has ever been a failure. The absolute need of a great invention guarantees its success. Purchase now and receive the profits. Free demonstrations are now being given at Tenth and Broadway, Oakland. Ladies especially are cordially invited to attend.

NATIONAL CASH PROTECTOR CO.
Home Office: 409, 10 and 11 Mills Bldg., San Francisco.

C. A. McCoy, General Agent, 964 East Twenty-first street, Oakland. Telephone Home B-1425.

Mrs. Maud Booth Is Coming to Oakland

Mrs. Maud Ballington Booth, "the little mother" of the Volunteer Prison League and head of the Volunteers of America, is coming to the city next week from Los Angeles, where she has been lecturing in the interests of the league. That the league has attracted much attention in the south is shown by the large number of people who have attended the lectures.

While in this city Mrs. Booth will work in the interest of the local branch and will also give lectures in San Francisco, Berkeley and Palo Alto. Her first address in Oakland will be at the First Presbyterian Church, Fourteenth and Webster streets, on Wednesday evening, March 9th. The public is cordially invited to attend.

Went Joy Riding In Naval Guise

SAN FRANCISCO, March 3.—Howard P. Clover, who represented himself as a nephew of Rear Admiral Richard T. Clover, and claimed to be a naval officer, was sentenced by Judge De Haven this morning to six months in the county jail. He had posed as a naval officer and induced himself in joy rides and sight-seeing trips in consequence without having the wherewithal to pay for them.

HOUSEHOLD ECONOMY
How to Save \$2.00 on Cough Medicine by Making it at Home.

Cough medicines as a rule, are mostly syrup. To make your own, take a pint of Granulated Sugar, add a pint warm water, and stir about 2 minutes.

Get two and one-half ounces of Pinex (50 cents worth), put it in a clean pint bottle and fill up with the Granulated Sugar Syrup. Shake a full pint of unequalled cough syrup for about 24 cents. Keeps perfectly. You couldn't buy as much ready-made Cough Syrup for \$2.50.

This home-made remedy is pleasant to take and usually gives relief in twenty-four hours. It is splendid, also for colds, whooping cough, bronchial ailments, etc. Take a teaspoonful every one, two or three hours.

The Sugar Syrup is an excellent substitute. The Pinex is the most valuable concentrated compound of natural White Pine Extract, rich in all the healing elements of Norwegian pine. Be sure to use the real Pinex itself. Your druggist has it or can easily get it for you.

Strand honey can be used instead of the syrup, and makes a very fine honey and cough syrup.

If you want to make money

FORTUNES IN OIL BEARING SANDS

Well in Maricopa District Pours Out 14,000 Barrels Per Day.

The remarkable development of California's oil industry is attracting universal attention, it having grown within the last hundred years from an investment of a few hundred thousand dollars to that of millions. Its production of oil has exceeded that of any other state in the union and the consumption of the output is very close, the demand and supply being about at a balance. The springing up of all sorts of manufacturing upon this coast makes it essential that a ready and cheap form of fuel be constantly at hand. The great pipe lines from the oil fields of the Central Valley, Coalinga, Maricopa, Bakersfield and Santa Maria, distribute the product to the refineries and shipping points along the coast and about San Francisco bay.

PROMISING FIELD.

Many Oaklanders have found a promising field for the investment of their capital in the southern oil lands and in their development. One of the enterprises in which a large number have interested is the Le Plan Oil company, which has been located on the N. W. quarter of Section 6, in the Maricopa district, one mile from the town. The company erected derrick No. 1 last fall and commenced drilling the first of October.

BIG PRODUCER.

The well is one mile southeast of the Ethel D. property and three-fourths of a mile from the gusher brought in two weeks ago by the K. T. & O. Co., which flowed 14,000 barrels per day without interruption for two days. This oil was of a high gravity. It required a great amount of labor and much hasty action in order to catch the flow, but scarcely any of it was lost.

The officers of the LePlan Oil company are President John LePlan; vice-president, W. V. Harrington; secretary, Samuel Jennings; treasurer, J. C. Downey, also D. F. Selby of Selby Brothers, James Kelle and A. E. M. Prentiss.

Some of the prominent shareholders residing in this city are: Eccleston Bros., James P. Taylor, F. M. Smith, E. A. Young, Smith Bros., and Selby Bros. The company has offices at 1004 Broadway.

TELEGRAMS TAKEN FROM TELEPHONE

New Departure Announced in Receiving Messages by W. U. T.

The Western Union Telegraph Company announces an important change in its methods of receiving messages from its patrons for transmission, which will be of great convenience to business men and others, as well as an important saving of time. Heretofore, when a patron desired to send a message he had to adopt one of the following three ways: Go to a telegraph office and file his message there; telephone to the office for a messenger to call for the dispatch, or for some one himself to the office on that errand. These three ways consumed much valuable time, especially in the rush hours of the day, when the commercial pulse pounds at race horse speed.

The more direct way to receive messages from its patrons by telephone has been adopted by the company and goes into effect immediately. No extra charge will be made for the service, and any telephone subscriber will be accorded this privilege.

Social Queen Finds Her Cigarette Case

NEW YORK, March 3.—Miss Agnes Sands has recovered her cigarette case through the New York American. The little article, which was as dear to the fair owner as a senator's pipe, was found by a member of the Lang advertising bureau. Whether his reward was a delicious—or lady's cigarette or something more prosaic and less romantic could not be learned.

Mr. Sands is properly grateful, only just a wee bit plucked, because she has been held up as a monstrosity—a woman who smokes. She is an athlete and a chum of Mrs. Gordon Mills.

Will Lecture on the Issue of the Times

"The Supreme Issue of Our Times" is the subject of a lecture to be delivered by J. Stitt Wilson, M. A., at Roehampton Hall, near the intersection of Waller and Union streets, next Sunday, March 6, 1916, 8 p. m.

Mr. Wilson has recently returned from an extended tour through England and Wales and he has given deep study to the causes of the disorders of our times and their cure, and among them the cause and cure of high prices.

SIX MONTHS IN JAIL.—Six months in the Alameda county jail was the sentence imposed on Howard T. Clover, convicted in the United States District Court of impersonating an officer of the United States Navy. Under the guise of a captain in the navy, Clover purchased automobiles and other merchandise from local merchants.

Erring Girl Bride Is Allowed Parole

After discovering that Jessie Raymond, the bride who left her husband two days after their wedding and was arrested in a disreputable resort in this city Monday night, was under the influence of drugs, the police are considering placing her on probation, and Judge Smith this morning continued the case until Probation Officer McCall could investigate the case.

The girl seems repentant and says that she will try to behave if given a chance.

The girl was married a few weeks ago to Andrew Raymond, employed as a dog catcher by the city at Richmond.

Three days after their marriage the girl disappeared, and was arrested in a disreputable resort Monday night on her husband's complaint, pleading guilt to a charge of vagrancy.

\$1,000,000 REMAIN TO BE GARNERED FROM COUNTY TAXPAYERS

According to County Tax Collector James H. Barber, more than \$1,000,000 remain to be collected between the present date and the last Monday in April, this money still remaining due on the second installment of taxes for the year 1909. Five per cent will be added to all delinquent taxes after April 5. About \$54,000 are due in delinquent taxes of the first installment of 1909 and a delinquency penalty of 15 per cent has already been added. After April 25 another 5 per cent penalty will be tacked on to this.

Chief Deputy Tax Collector W. B. Hodges today mailed 7500 tax collection notices to as many property owners throughout the county, calling for the payment of delinquency personal property taxes made collectible by the recent action of the State Board of Equalization in raising the personal property tax by 10 per cent. About \$11,000 still remains to be collected from this source.

Rev. Dille to Lecture On Timely Subject

Rev. E. R. Dille, D. D., pastor of Central Methodist church, San Francisco, will deliver an illustrated lecture at Centennial Methodist church, Ninth and Chester streets, Friday night, Dr. Dille is well known in Oakland, having been for a longer time than any other man the pastor of the First Methodist church of this city. He has here a host of warm admirers and staunch friends who will, doubtless, be pleased to avail themselves of an opportunity to hear the doctor again. The subject of the lecture is one of more than passing interest at this time.

Jacobs Accused of Race Track Betting

Manuel Jacobs, accused of accepting cash bets on races and said by the police to have accepted marked coins proffered by police agents, was examined this morning before Judge Smith, who continued the case until tomorrow, when a criminal complaint will be filed in the case by District Attorney Donahue. Jacobs appeared in court this morning, defended by Attorney A. L. Frick, and pleaded not guilty. The complaint was not filed today, so the case was ordered postponed.

Jacobs was arrested yesterday afternoon by detectives Caldwell and Agnew, who claim that the man had accepted marked coins bet by officers on races at Emeryville, in violation of the Walker-Otis Act.

Guns and Knives Figure in an Early Morning Saloon Fracas.

SAN FRANCISCO, March 3.—Knives and revolvers were drawn in a promiscuous fashion in the saloon of Michael Agrius, 711 Folsom street, at 2 o'clock this morning, when three customers began a general mixup, which was responsible for a heavy call being sent in to the police. Officers Hayes and Jurgens responded and entered the place to find a number of excited men fighting together.

One of them, Mike Munos, had a revolver lying on a table in front of him, and as the patrolmen advanced Effremos Chelembardis grabbed a butcher knife and began to chase Munos in and out among the tables. Finally the latter was slightly wounded over the eye and fell bleeding to the floor. The officers took both into custody and charged them with assault with a deadly weapon. Munos was treated at the Central Emergency Hospital.

HER TRAVELS IN SOUTH AMERICA

Mrs. Harriet Chalmers Adams to Lecture on Travel Tour.

Mrs. Harriet Chalmers Adams, the popular lecturer, who has been giving a series of addresses in the Macdonough Theater, gave an illustrated lecture yesterday afternoon on her travels from "Patagonia to Paraguay." The preceding address dwelt upon the old Spanish main and the new Panama. During her trip around the world she collected photographs, which are very rare and valuable.

As a speaker she has won distinction in the West as well as in the Eastern cities, where she is widely known. She is a former editor of the "Ladies' Home Journal," and has numerous accomplishments; she has a charming personality.

The last lecture in the series of addresses was delivered yesterday and Mrs. Adams plans to return to her home in New York.

Husband Disappears And Also a Woman

Elsie Bell Burton today secured an interlocutory decree of divorce from Will David Burton on the ground of desertion. In her complaint Mrs. Burton charges that her husband left Berkeley suddenly some time ago and at the same time the disappearance of a woman, whose name she does not give, was discovered. Pinkerton detectives were put on the trail of the erring husband, and according to the complaint he was located in company with the woman in St. Louis. Mrs. Burton's complaint and the complaint, testified that she had informed the minister-brother of her son-in-law of his actions and whereabouts and when the minister investigated for himself and visited St. Louis "Burton had the nerve to invite him to dinner with the woman" with whom he had left Berkeley. She then advised her daughter to sue for divorce.

Erring Girl Bride Is Allowed Parole

After discovering that Jessie Raymond, the bride who left her husband two days after their wedding and was arrested in a disreputable resort in this city Monday night, was under the influence of drugs, the police are considering placing her on probation, and Judge Smith this morning continued the case until Probation Officer McCall could investigate the case.

The girl seems repentant and says that she will try to behave if given a chance.

The girl was married a few weeks ago to Andrew Raymond, employed as a dog catcher by the city at Richmond.

Three days after their marriage the girl disappeared, and was arrested in a disreputable resort Monday night on her husband's complaint, pleading guilt to a charge of vagrancy.

Erring Girl Bride Is Allowed Parole

After discovering that Jessie Raymond, the bride who left her husband two days after their wedding and was arrested in a disreputable resort in this city Monday night, was under the influence of drugs, the police are considering placing her on probation, and Judge Smith this morning continued the case until Probation Officer McCall could investigate the case.

The girl seems repentant and says that she will try to behave if given a chance.

SPARKLING SHOW COMES THIS WEEK

"The Ginger Bread Man" Due at Macdonough With Array of Features.

Do you believe in Santa Claus? This question may be a little out of season, but whether you do or whether you don't you will possibly be convinced when "The Gingerbread Man" comes to town, and he is due here at the Macdonough Theater on Friday and Saturday and matinee March 4 and 5, when, under his cheerful and winning smile, Santa Claus for your favorable inspection. Flanked by a lot of pretty girls, a lot of good music, and some excellent comedians, they will present Sloan's & Ranker's pretty musical play for your delectation in a way that should excite your admiration. This charming musical oddity was presented in this section last year and received unstinted praise from all who attended the performance, and their name was legion. Taking it all in all it was said to be a very commendable production and assurances are such that the present one is a replica, and contains many of the clever people that were in last season's company.

NOVEL FEATURES.

The production from a scenic standpoint is said to be all that can be desired, and many novel features have been added to bring the piece right up to date, and make it an entertainment as unusual as it is attractive. Ross Snow and William Cameron, the two principal comedians, are still with the organization, and a young American prima donna, with a very fine high soprano voice and very pleasing to look upon is playing the leading female role. The production of the cast is said to be entirely up to the standard, and judging from the favorable criticisms received in the cities that they have played recently the company is in for a record-breaking engagement.

No doubt many remember Sloan's pretty music, with which the piece abounds, as it appeals to all classes of music lovers, and has sound melodious virtues. Mr. Sloan has given us, from time to time, many musical gems, but never so many in one opera as are found in "The Gingerbread Man."

POLICE ASSAILED BY BAR BRAWLERS

Guns and Knives Figure in an Early Morning Saloon Fracas.

SAN FRANCISCO, March 3.—Knives and revolvers were drawn in a promiscuous fashion in the saloon of Michael Agrius, 711 Folsom street, at 2 o'clock this morning, when three customers began a general mixup, which was responsible for a heavy call being sent in to the police. Officers Hayes and Jurgens responded and entered the place to find a number of excited men fighting together.

One of them, Mike Munos, had a revolver lying on a table in front of him, and as the patrolmen advanced Effremos Chelembardis grabbed a butcher knife and began to chase Munos in and out among the tables. Finally the latter was slightly wounded over the eye and fell bleeding to the floor. The officers took both into custody and charged them with assault with a deadly weapon. Munos was treated at the Central Emergency Hospital.

HER TRAVELS IN SOUTH AMERICA

Mrs. Harriet Chalmers Adams to Lecture on Travel Tour.

Mrs. Harriet Chalmers Adams, the popular lecturer, who has been giving a series of addresses in the Macdonough Theater, gave an illustrated lecture yesterday afternoon on her travels from "Patagonia to Paraguay." The preceding address dwelt upon the old Spanish main and the new Panama. During her trip around the world she collected photographs, which are very rare and valuable.

As a speaker she has won distinction in the West as well as in the Eastern cities, where she is widely known. She is a former editor of the "Ladies' Home Journal," and has numerous accomplishments; she has a charming personality.

The last lecture in the series of addresses was delivered yesterday and Mrs. Adams plans to return to her home in New York.

Husband Disappears And Also a Woman

Elsie Bell Burton today secured an interlocutory decree of divorce from Will David Burton on the ground of desertion. In her complaint Mrs. Burton charges that her husband left Berkeley suddenly some time ago and at the same time the disappearance of a woman, whose name she does not give, was discovered. Pinkerton detectives were put on the trail of the erring husband, and according to the complaint he was located in company with the woman in St. Louis. Mrs. Burton's complaint and the complaint, testified that she had informed the minister-brother of her son-in-law of his actions and whereabouts and when the minister investigated for himself and visited St. Louis "Burton had the nerve to invite him to dinner with the woman" with whom he had left Berkeley. She then advised her daughter to sue for divorce.

Everything in Millinery That's Beautiful

SPRING STYLES IN Suits, Dresses and Wraps

The refreshing originality of designs, the attractive materials and the refined tones of these Spring models all impress you with a natural desire to wear them. Graceful lines so pleasing when you try a garment on. Visit our Suit Department Friday and Saturday.

Pope-Hartford Will Be Bought by City

ALAMEDA, March 3.—A Pope-Hartford combination police patrol and ambulance was ordered purchased by the city council last night at a cost of \$400. The machine will be in charge of the police department.

The purchase of the Pope-Hartford car was ordered on the recommendation of the police and fire commission and the police and fire commission of the council. The city clerk was ordered to return the certified checks of the unsuccessful bidders.

White Youth Steals From Chinese Boss

SAN FRANCISCO, March 3.—Quan Fook Song, a local undertaker, has decided in the future that he will confine himself exclusively to Chinese help. Quan employed a white boy, named Henry Jones, to work for him in his establishment several days ago, and yesterday sent him to pay his monthly rent, amounting to \$48. That was the last he has seen of his new employee, and has asked the police to find him and if possible get back the coin.

Most money earned by the sweat of the brow prefers easy going.

Roosevelt Starts Out for Antelope

KHARTOUM, Sudan, March 3.—Colonel Roosevelt and his party left Mongalla today for Lake No, where Colonel Roosevelt may take a shot at the antelopes of that vicinity.

The party is due here, according to local understanding, on March 17.

Ostrich Plucking.
Bentley Ostrich Farm Friday and Saturday p. m., from 2 to 4.

Begin Today to Cure Your RHEUMATISM With Dr. Williams' Pink Pills

There are thousands of people suffering every day from rheumatism who can be cured.

Some continue to suffer because their doctors have said their cases were chronic and incurable. Others have tried many remedies without relief and have become discouraged.

The patient who has not tried Dr. Williams' Pink Pills has neglected a remedy for rheumatism that has accomplished thousands of cures. It is not a theory or an experiment. The cures are a matter of record and capable of proof.

A Disease of the Blood.
Rheumatism runs in families. It can be inherited. It is therefore in the blood. Every physician knows that the blood is greatly changed during an attack of acute rheumatism, that there are few acute diseases in which it becomes thin and watery with greater rapidity.

Dr. Williams' Pink Pills build up the blood. They begin at once to counteract the disease. Sometimes a very short treatment suffices to effect a cure. Other cases require persistent treatment. The following cases will be found to prove every statement made for this treatment.

MINING ENGINEER CURED.
Although Exposed to Damp and Wet, Disease Has Not Returned.

A permanent cure by this treatment is that of Mr. O. N. Jones, a mining engineer, Denver, Colo. "I was very much run down from overwork," he says, "and rheumatism developed. I had steady pains across the back and at times would get so stiff that I could hardly straighten out. Sometimes the pains would extend down the sciatic nerves of the limbs, then again there would be shooting pains through other parts of my body."

"I kept losing flesh, and could not get a good night's rest. My stomach was in bad condition and I had no desire to eat. All the medicine I took was of little account until I tried Dr. Williams' Pink Pills. I had but little faith in their doing me any good but after taking one more, I felt so much better that I bought a box. They absolutely cured me and although my work as mining engineer takes me in the damp and wet a great deal I have never had the rheumatism since."

THIS LOS ANGELES WOMAN
Was Helpless When She Began Taking Dr. Williams' Pink Pills.

HEART--TRIBUNE'S PAGE FOR WOMEN--HOME

IN SOCIETY

MR. and Mrs. Frank A. Proctor are sending out invitations for a fancy dress ball to be given at the home of Mrs. C. F. Macdermot, in Eighth street, next Wednesday evening. The guests have been bidden to wear children's garb and a motley array of Buster Brown, Mary Jane, school boys and girls, sailor boys and French dolls is expected to make the evening a memorable one.

About twenty-five guests have been invited.

MUSICAL ENTERTAINMENT.

Miss Margaret Bradley will entertain at a musicale to be given at her home in East Oakland the evening of March 12 at which all the numbers rendered will be compositions of Signor and Madame Antonio de Grassi and Frederick Maurer.

Among those who will contribute to the program will be the following:

Miss Louisa Rogers Mrs. Henry L. Signor Frederick Maurer
Signor and Madame Maurice Auger de Grassi

About twenty-five guests have been bidden.

MCCRACKEN-DAVIDSON WEDDING.

The wedding of Miss Grace Davidson, formerly of Goodland, Indiana, but more recently of Berkeley, and Oscar V. McCracken of this city, was solemnized at 9 o'clock last evening at the home of Mr. and Mrs. C. T. Cox, 2029 23rd street, Berkeley, Rev. Price of the Park Congregational church officiating.

The bride was attended by her cousin, Miss Vith Strowbridge of Bakersfield and E. J. McPeck of this city was the groom's attendant.

The home was prettily decorated with ferns and spring blossoms. The bridal couple exchanged vows beneath a bell of daffodils suspended in a tower of ferns and greenery.

The bride's gown was a dainty creation of white net over white silk and a shower of bride's roses completed the girlish costume. The bridesmaid was gowned in blue and carried white carnations.

An informal wedding supper was served, the bride's small place, Miss La Verne Cox and Mildred Nuttall, assisting in the serving.

The Lohengrin wedding march was rendered by Miss La Verne Cox. Only the nearest relatives witnessed the ceremony which was characterized by its extreme simplicity.

Mr. and Mrs. McCracken will reside at 1378 Fourteenth street, Oakland.

McCracken is a graduate of the Creighton Pharmaceutical college of Omaha, being the honor man of the class of 1908. He is a nephew of Dr. R. E. McCracken of this city and is identified with a long established firm of this city.

The bride is a sister of Mrs. C. T. Cox of Berkeley and has made many friends during her residence here. She is a young woman of much charm and a winning personality. The bridal couple received many beautiful wedding gifts.

Dr. and Mrs. R. E. McCracken will

tender the newly wedded couple a large reception next Monday evening at their home in Fourteenth street.

WEDDING PLANS.

The wedding of Miss Elsie Nason of Berkeley and George Clarkson formerly of the college city but now of Vallejo, will take place shortly after Easter and will be solemnized in St. Mark's Episcopal Church in Berkeley with an elaborate ceremony.

In the wedding party will be Joe Rosborough as best man and Naval Constructor Hall of Mare Island as one of the ushers. The bride's attendants have not been definitely decided upon.

Miss Nason has been extensively entertained since announcing her engagement to the young business man.

A beautiful home is being built for her which will be occupied upon their return from their honeymoon.

Miss Nason is one of the most beautiful brides-elect of the season.

SURPRISE PARTY.

Mrs. S. B. Wetherill was the recipient of a very pleasant surprise party last evening in her home on Seventh avenue. What was played after which refreshments were served.

The prizes were awarded to Mrs. A. Pettit, Mrs. Dietz, Louis Sutter and Mrs. John Hock.

Declare Widows Make Best Wives

WHAT WOMEN ARE DOING

Mrs. Jamieson, the well-known author, was a great admirer of beautiful hands, and she expressed herself on her favorite "point" in a woman: "A white hand is a very desirable ornament, and a hand can never be white unless it is kept clean; nor is this all, for if a young lady excels her companions in this respect, she must keep her hands in constant motion, which will cause the blood to circulate freely and have a wonderful effect. The motion recommended is working at the needle, brightening her house and making herself as useful as possible in the performance of all domestic duties."

It is questionable whether there is a royal child so adored as the little Princess Juliana of Holland, whose birth set all hearts at rest in that little kingdom. It is painful to think of the disruption of the State had Wilhelmina remained a child, but now all, from the mother to the humblest subject, are blessed indeed. The little princess is nearly 8 months old, and has been from the first a vigorous and promising child; the queen is said to exercise the most constant and jealous oversight of everything that pertains to her welfare. The cutting of the first tooth of the little princess was known all over Holland as soon as it was through and inquiries as to its health and its growth in every way, mentally as well as physically, is of the greatest importance. It is noted as an instance of the kindness of heart of the queen when the child was baptized all of the queen's former instructors were present. They are now white-haired men, but greatly gratified to be so remembered.

Sister Got Whipping for Boy's Dirty Face

NEW YORK.—The unconventional village of Bohemia, Long Island, which endeavors to live up to all that its name implies, is now in the throes of a social war, because the principal of the public school punished the daughter of one of the most important men of the village because her brother came to school with a dirty face.

The teacher, Mrs. Marie Diabolo, was tried before Magistrate White in Sayville last Saturday on the charge of assaulting the girl and was fined \$10. The victim of the alleged assault testified copiously at the trial, and so did everybody else in the village.

Joseph Hruby is not the least important man in Bohemia. In fact he is the least important — from a purely commercial point of view. His daughter, who is just in her teens, and his son, still in short trousers, go to the public school — rather they did. Like a great many other school boys, young Hruby went to school one day last week with some of his breakfast smeared on his face.

The teacher made him go home to take a bath. She sent word by the lad's sister that he couldn't come back until there was some evidence of the use of soap and water. The sister is said to have written various pointed things about teacher and these "writings" fell into teacher's hands.

What followed caused the assault trial. Relatives and friends have been drawn into the suit and now nearly everybody in the village threatens to sue nearly everybody else for slander. Magistrate White thinks he is the best there is for having been able to reach a verdict at all.

Wife Bound by Chains Writhes in Torture Two Years.

PARIS.—The disappearance of the young wife of a druggist named Parat, whose pharmacy is near the scene of the Steinhilf murder, was cleared up today when the police broke in and found the woman lying chained between the bed and the wall, horribly scarred.

In addition to the chain, which was strongly padlocked around the neck, a cruel contrivance resembling a coat of mail, but strengthened by a belt of copper rings, enveloped the body. Both objects could be removed only by the use of keys.

The woman told a pitiful tale of two years' imprisonment and martyrdom. Last November, while still in chains, she became the mother of her fifth child. The husband refused to call a doctor.

Parat, who was arrested, declared that he loved his wife, but was extremely jealous of her.

Miss Clarissa Lohse Miss Evelyn Adams and Miss Edith Beck.

BRIDGE AND TEA.

Miss Ethel Terry has sent out cards for Saturday afternoon, when she will entertain a score or more of guests at a session of bridge, followed by tea.

FOR MISS RICH.

Miss Kathleen Kent, formerly of this city, now of San Francisco, entertained yesterday afternoon in company with Miss Rich, who is the house guest of Mrs. Daniel Crosby of Fruitvale.

A number of Oakland guests crossed the bay to attend the affair.

RETURNS FROM EUROPE.

Mrs. H. H. Hart, who has been traveling abroad for the last year, has returned to her beautiful Claremont home, surprising her friends, who expected she would remain a year longer at least.

Mr. Hart returned about a month ago with many beautiful cards and furnishings for the new home, which is one of the show places of Claremont hills.

MRS. SAWYER A HOSTESS.

Mrs. A. A. Sawyer entertained informally this afternoon at her home in Merriam street, complimentary to Miss Lilian Harris, the house guest of Mrs. Harry East.

Was Heroine of the Shirt Waist Girls' Strike

MISS INEZ MILHOLLAND, well known society girl, who several times braved arrest in aiding the striking shirt waist makers in New York.

Now comes the rumor that Miss Inez Milholland, who was the heroine of the shirt waist makers' strike in New York City, is about to wed. She is one of the handsomest of the younger Gotham set and several times was on the point of being arrested during the strike.

Not All Mothers Teach Girls to Be Pure, Says Wife of Iowa's Governor, and Her Plan Is to Fill That Lack

DES MOINES, Iowa.—Mrs. B. F. Carroll, wife of the Governor of this State, is deeply in earnest in the campaign she has begun to procure the teaching of scientific parenthood in the public schools. Using the influence which her position gives her, she has outlined a crusade that would make many a man hesitate.

Opposition has sprung up from mothers' clubs, of which there are many in the State, but Mrs. Carroll is positive that when her real purpose is understood this opposition will vanish.

"I have been misunderstood, cruelly misunderstood," she said today to a reporter in the Governor's home on East Ninth street.

"It is not physical training of children to be fathers and mothers that I advocate. It is their training along psychological lines. I want our boys and girls to be pure and upright. I want them to keep themselves that way. I want them to learn the duties of parents while they are young and before they have become contaminated from associations which it is impossible to guard against entirely."

"Would you advocate placing school teachers above mothers in the teaching of these vital truths?" was asked.

"Never," replied Mrs. Carroll. "It is the mothers' duty to instruct their girls along the lines of purity. But all mothers do not do that. It is necessary that the children old enough to know the vital truths relating to purity should be instructed by the teachers. I am in sincerest sympathy with any movement that will arrest the prevalent social evil among the youth of our land."

"I am going before the legislators when the new legislature convenes and point out to them the need of pedagogical purity. If my husband, a noted elected official, shall make a difference, I shall not say anything that will make the legislators feel that I am going to talk plainly to them, but before them the true state of affairs and to them the causes for the conditions that threaten American homes."

In her lecture to mothers Mrs. Carroll refers to what she calls the "black plague" and points out the need for warning the daughters of today against its terrible effects.

In her address to mixed audiences Mrs. Carroll takes up the subject of the single standard of morals. She argues that what is wrong for a young woman is equally wrong for a young man. For every fallen woman there is a fallen man, she says.

"Girls should be taught the beauties of true motherhood," Mrs. Carroll adds. "Proper instruction should be given on the vital subject of physical and moral purity. If the parents will do this, and it is a well known fact that many mothers shrink from the very idea, the teachers should take it up. I am certain that it is possible for teachers to do this. They should be given the means to do it and to bring out the best there is in the child to give instruction that will fit these girls to be mothers in all the same impulses."

"I am not discouraged because some children who do not understand this plan are opposed to the idea. The purpose and because it is the duty of every woman to give the best there is in her for her children."

BARRED AS TEACHER, SHE LIVES OF GRIEF

That Agnes May Galletty, seventeen years old, a graduate of the Eastern District High school and daughter of William Galletty, of 274 Alameda street, Williamsburg, had died from heartbreak, because her ambition to become a teacher had been shattered by a woman physician, was revealed yesterday by her parents.

Agnes was at the head of her graduating class. When she made application to the Board of Education for a certificate to enable her to enter the Training School for Teachers, Dr. Knight examined her physically. Gently but plainly the woman physician told the girl that she was physically unfit to undergo the hard study required in the training school.

As it was Agnes' ambition to become a teacher, even in the extent of going to a country village, she went to the Board of Education's rooms from time to time, but of course nothing could be done there. She went to the rooms one day a week ago with her mother. Her cheeks were red. It is said somebody asked if they were painted. Humiliated, the girl returned home. She told her mother her heart was breaking. Soon she contracted a cold, which developed into pneumonia, and yesterday she died. She will be buried tomorrow in her white graduation dress, with her graduation ring on her finger, and eight of her school companions will be her pallbearers.

It called me from the land of fear and doubt. It bid me to forsake the base, and feel the impulse of the pure and true and real. It led the way when all was dark with-out.

Wherever I go, that voice remains my guest. Still I am but a follower of Him Who bids me, through the voice which speaks within.

To labor will I go, then in peace to rest.

—Frank L. Connor.

A Skin of Beauty is a Joy Forever.

Dr. T. Felix Gouraud's Oriental Cream or Magical Beautician.

'BRICK' MORSE IS UNADORNED BY PERUKE

Veteran College Singer Hoped to Cover Pate on Trip to Paris.

WIG ARRIVES LATE AND SINGER LOSES NERVE

Organizer of University Glee Clubs Will Look Same on Return.

BERKELEY, March 3.—Only immediate relatives and closest friends have known until today how close an escape from extinguishment was had by the famous bald pate of one Clinton R. Morse, member of the class of '96 at the University of California, leader of every musical organization at the university for years past and best-beloved in the Berkeley lodge of Elks. Those who were let into the secret today are still suffering the tremor that follows peril safely passed.

Old-timers may remember when the dome of "Brick" Morse was warned by an unshrinking growth of locks as ruddy as the fringe that attempts, but the younger generation has known only the fringe. On the campus, on the Berkeley streets, on the platform, supported sometimes by a dress suit, sometimes by a beautiful uniform, ruddy pat and citizen-like, on many a glee club trip it has lighted the way from border to border of the stage until it has become a part of California and merely a local thing.

ARTISTS MUST HAVE HAIR. But the time came when Morse was to sail away to La Belle France to join the musical and artistic colony. A bald artist was not to be thought of. Artists might be Bohemian to the mere Philistine but not to each other. Philistine had its fustian as well as Philistine. Morse got him to a wig-maker in San Francisco and was duly measured.

When fitting time came, however, came also a great disappointment. The toupee could not be ready in time for Morse's departure. Righteous indignation turned the Morse dome a deeper pink but to no avail. Protestations, entreaties and threats were alike in vain. Train and steamer passage had been booked; there was no alternative but to go and leave the wig to follow.

It did follow, but it followed three trains too late. In New York Morse watched anxiously the express offices and the postoffice, but steamer time came, and wigless he had to sail.

HE IS WIGLESS IN PARIS. Wigless he arrived in Paris and wigless he remained. Once the Quarter Latin had seen that pate, naked and unadorned and unadorned, covering it with borrowed hair was out of the question. The wig came later, by next steamer in fact, but Morse's debut had already been made. The wig was assigned to his trunk and there it remained to this day.

And among the denizens of the Quarter Latin Morse walks as one apart. About his ears were the sandy locks of man and Taffy. Bibles innumerable floundered before his eyes. Hundreds of French dances by him on dainty foot, charm him by their wealth of raven tresses. But Morse—curses on that tardy wig maker!—is a stranger in a strange land.

PRIZE FOR ESSAY ON LIQUOR EVILS

Minnehaha Club Announces an Oratorical Contest at University.

BERKELEY, March 3.—For the purpose of selecting a representative of the University of California to compete in the State Temperance oratorical contest to take place at San Jose April 20, the Minnehaha Club of the University has arranged for a local contest to be held April 4th.

The winner of the State contest will be eligible to participate in the Pacific coast championship contest, which will occur at Los Angeles May 20th. The local organization offers a prize of \$10 to the winner. The victors of the State and Pacific coast events will receive \$25 and \$50 respectively. The person winning the contest will be entered in the national meet in which the first prize consists of \$100 and the second \$50.

Rules governing the local contest provide that the orator must be given on some topic connected with the liquor traffic question. The length of the oration, including an outline, synopsis or syllabus must not exceed 100 words. The oration will be judged both on thought and composition and on delivery.

DEEP-SEATED COUGH CURED IN FIVE HOURS.

NEW HOME-MADE SYRUP. (Cut this out) From Boston Press

Progress in medical compounds never ceases, and now it is stated by a prominent medical man that any deep-seated cough or cold on the lungs can be actually cured in five hours by the clock. Opium and morphine have been resorted to in the past, as relief measures. But now it is learned that the system must be treated to rid it of inflammation and congestion. A tonic laxative cough syrup does the work so quickly and thoroughly as to be almost magical. What heretofore has taken weeks to cure can be accomplished in hours. Get this formula filled or mix it at home and always keep it on hand: 1/4 ounce fluid wild cherry bark, one ounce compound essence cardiol and three ounces syrup white pine compound. Shake the bottle and take twenty drops every half hour for four hours. Then take one-half to one teaspoonful three or four times a day until the system is purified and tones up. Give children less according to age. One filling will usually cure a whole family, as the dose is small.

Exalted to Rule Over the Herd of Berkeley Elks

HERBERT JONES, elected exalted ruler of the Berkeley Elks.

DR. H. N. ROWELL, one of the new officers of the Berkeley Elks.

BERKELEY, March 3.—Herbert Jones, a well-known local merchant, was last night elected exalted ruler of Berkeley Lodge, No. 1002, of the Benevolent and Protective Order of Elks, to succeed James M. Koford who has held that office for the past year.

Jones has been one of the leading members of the lodge for several years, and is also a well-known member of the local lodge of the Masons. He is president of the Berkeley Elks' Association, and was formerly president of the local branch of the Society for the Prevention of Cruelty to Animals, in which position he was the formal head of the city pound of Berkeley. He is a man of exceedingly high standing in the community and in the local lodge of the Elks.

A contest for the second place in the election resulted last night in the election of Dr. H. N. Rowell, a prominent local physician, to the position of esteemed leading knight. George W. Skilling was the next in regular succession for the place, but was defeated by an overwhelming majority of the voters.

Other officers elected last night were: Esteemed loyal knight, Frank M. Scoonover; esteemed lecturing knight, Dr. C. E. Ellis; secretary, E. A. Sullivan; treasurer, J. S. Miller; tiller, Dr. W. M. Billings; trustee for three years, Adam Kellner; delegate to the Grand Lodge, Past Exalted Ruler J. M. Koford; alternate, Past Exalted Ruler J. D. Watson.

FOR GRAND EXALTED RULER.

Grand Exalted Ruler J. U. Sammis, who is soon to make a start on his official round of the lodges, is to make the Berkeley lodge his headquarters during his stay of ten days in the bay region. The local lodge is making big preparations for the welcome to be extended to the Grand Exalted Ruler on his arrival, and for his entertainment while here. Following his visit with the California lodges he will make a trip to the Honolulu Elks, where he will be a guest for some time. He will start from his home city, Le Maui, Iowa, within a few weeks.

Decoto Personals

DECOTO, Feb. 3.—G. Swanson of this city was taken to the Railroad Hospital in Oakland Thursday afternoon, suffering from a severe attack of pneumonia.

Miss Nympha Hubbard and Gertrude May entertained the pupils of the local Sunday school Saturday afternoon as a farewell to Hartley and Rhoda Rowell, who leave soon for their new home in Washington. A special program of songs and speeches being given in honor of the event and refreshments were served after the program, in which inmates of the home took part. Patriotic songs were sung and addresses on Washington were made.

Burglar Captured by Girl Is Bound Over

BERKELEY, March 3.—Arthur Gunn, alias Arthur Covington, the daring second-story burglar who was captured through the action of Miss Eleanor Hart, a beautiful Berkeley society girl who discovered the burglar in her room on Washington's birthday, a special program of songs and speeches being given in honor of the event and refreshments were served after the program, in which inmates of the home took part. Patriotic songs were sung and addresses on Washington were made.

PAY LAST HONORS TO PROF. RISING

Veterans in Faculty Conduct Memorial for Former Colleague.

BERKELEY, March 3.—The old guard of University of California faculty members gathered at Hearst hall this afternoon to observe the last ceremonial rites in memory of the late Professor William Bradley Rising, veteran educator of California, whose death occurred about three weeks ago. The memorial services were presided over by Professor Alexis F. Lange, dean of the faculty and acting president of the university. The services were held at 4 o'clock.

Professor Rising had been connected with the University since its establishment, and he was the oldest member of the faculty. For many years dean of the department of chemistry, he was known both in this country and in Europe for his original studies in thermal chemistry, and was a member of many international and national scientific honor societies. The services this afternoon were of a simple but impressive nature. Addresses were made by life-long associates of Professor Rising, and two musical selections were rendered by the University Glee Club.

PAYS GLORIOUS TRIBUTE.

Professor Edmund O'Neill, head of the department of chemistry, paid a glowing tribute to the savant who had passed on in the department of the University of California to be one of the most efficient in any American university. He told of the constant and unselfish labors of his former colleague, and of the high scholarship and attainments in the highest words.

The attention in which Professor Rising was held by his colleagues of nearly half a century of constant association was the theme of touching address by Professor Bernard Mosser, one of the old guard of faculty members.

ENTERS BASEMENT TO WRITE TO GOD

Insane Japanese Woman Says She Is Cousin of Consul at San Francisco.

ALAMEDA, March 3.—Y. Mizugawa, a Japanese woman of 30 years, was arrested in the basement of the residence of R. H. Blake, 2008 Clinton avenue, yesterday morning. The woman declared that she had gone there to write a letter to God. She was charged with insanity.

Mizugawa declared that she was a cousin of the Japanese consul, of San Francisco. She was in possession of several passports, issued by the Japanese government. Mizugawa lives at 2811 Buena Vista avenue, but for the last few weeks has been insane on the part of religion.

Chief of Police Conrad communicated with the Japanese consul, in an endeavor to find some way of caring for the woman. Mizugawa is well educated, speaks fluent English, and writes a remarkably beautiful hand.

Berkeley Society

BERKELEY, March 3.—At a pretty ceremony last night at the home of the bride's parents, Mr. and Mrs. A. C. Mount in Bond Street, Charles R. Brown of Oakland united in marriage Edith Hazel Mount and Newton A. Johnson of Coalinga. It was a very quiet wedding, with only relatives and a few very close friends at the home. Spring the bride and groom left for Southern California, where they will spend the honeymoon, and later Mr. Johnson will take his bride to Coalinga, where he has prepared a home for her.

Miss Mount and Mr. Johnson met at Stanford, where they were both students. Mr. Johnson is a law graduate and is practicing his profession at Coalinga.

The Berkeley Piano Club held an open meeting yesterday and the program was enjoyed by 100 or more music lovers of this section. It is the custom of this pleasant musical organization to have such a meeting twice each year in order to entertain friends in a musical way and to show the work accomplished by the club as well. Each member has been accorded the privilege of entertaining two guests on these occasions, and the invitation is always in demand.

The musical was held at the studio in Bancroft way. The Berkeley Piano Club leads as a musical organization on this side of the bay.

Mr. and Mrs. Sill have been heard from several times since starting on their tour of the world. They wrote from the Grand Canyon and again farther east. On Saturday they will sail via the Mediterranean for France, where they will make quite an extended stay.

It is expected that Mr. and Mrs. B. W. Darst will return to Berkeley about the first of April. They are on account of Mr. Darst's health. He is very greatly improved.

Fruitvale Club Plans To Organize Orchestra

FRUITVALE, March 3.—At a special meeting of the Fruitvale Club at the home of President J. J. Matteson last night, plans were made for the organization of a Fruitvale Forum Orchestra. The musical organization will start with an orchestra of 15 to 20 members, and will be organized until such a time as it is able to organize as a permanent and independent body. The orchestra will be used by the Fruitvale Club on evenings of entertainment and includes a number of musicians of exceptional ability.

Endeavorers Are Entertained by Alameda Hostess

MRS. GERTRUDE COCKROFT, who entertained the Christian Endeavor Society.

MRS. GERTRUDE COCKROFT, who entertained the Christian Endeavor Society.

ALAMEDA, March 3.—Mrs. Gertrude Cockroft with her daughters, Miss Marjorie and Miss Hazel Cockroft, entertained the Christian Endeavor society of the First Presbyterian church at a recent affair given at her home on Alameda avenue.

The social was enjoyed by the members of the society, which has been identified with the Presbyterian church for many years.

An elaborate supper followed an evening of song and dancing. The Misses Cockroft are both members of the organization and two of its most earnest workers.

The guests made merry at the Cockroft home until a late hour and proclaimed the evening a great success.

Mrs. Cockroft is an ideal hostess.

FREMONT PUPILS FLY AEROPLANES

Preparing to Contest With Polytechnic High at Aviation Meet.

MELROSE, March 3.—Plying their small air ships at night and keeping the records of their success, members of the student body of the Fremont High School in this place are making big preparations for the aviation meet that will take place between that school and their rivals of the Oakland Polytechnic High School during the first week after the Teachers' Institute in April. The air vehicles are small models of monoplanes and biplanes, none of them being over five feet in length. Notwithstanding this fact, Ronald A. McCoy has succeeded in making his monoplane travel a distance of 150 feet, and Fletcher McKnight claims to have flown as high as fifty feet in his small biplane. All of the vessels of the air were built entirely by their owners. The following students and their crafts will be entered against the Polytechnic School: Ronald McCoy, monoplane; Fletcher McKnight, biplane; Arthur Hutchinson, monoplane; Francis Hood, biplane; Arthur Hadden, biplane; John Johnson, biplane; Harry Bettencourt, monoplane, and Thomas Sawyer, biplane.

Members of the faculty of the two schools will be the judges of the meet. The contest will be held at night, the highest flying machine and one for the best constructed craft.

All of the trial trips of the Fremont aviators are being made under cover of darkness and the first flight that will follow hereafter will have of the various air ships will be on the day of the meet. This is the first meet of its kind held in this vicinity, and, if successful, it is thought that others will follow hereafter, and that students of the high schools of the bay region will be encouraged by the school authorities and assisted in making experiments with air craft.

Club Will Investigate Proposed Powder Plant

MELROSE, March 3.—At a meeting of the Melrose Citizens Club, held last night, the charter convention was received from R. H. Rowan. The matter was discussed at length and C. W. Seadman and the crowd were asked to the committee to represent the club at the coming meetings of the convention.

It was decided by the club members that an investigation would be given following Lent.

Redeem the Last Of School Bonds

ALAMEDA, March 3.—The last of the \$500 school bonds known as municipal improvement fund No. 1, were redeemed by the city of Alameda yesterday. The bonds were issued for 20 years in the year of 1890, and were worth a total issue of \$50,000, which was used for school buildings in the city.

The bonds were the property of the Pacific Investment Company and \$26,253 was paid in gold coin to redeem the last issue of No. 1.

Cadet Companies in Sham Campus Battle

BERKELEY, March 3.—As the initial practice in the methods of normal attack, a sham battle was held yesterday during the day at the University of California. The battle was fought by three sophomore companies under the direction of Colonel C. C. Vail.

ARCHITECTS URGE UNIFORM SCHOOLS

Want Practical, Not "Pretty," Designs Submitted to the Board.

ALAMEDA, March 3.—A committee from the American Institute of Architects, which is the professional association of architects in the United States, appeared before the board of education Tuesday night and urged that architects be obliged to submit uniform plans for the two new school buildings to be erected in this city this year.

The association wants a competition of plans and not of the drawings and put the matter up to the board of education in this way. Their idea is to have uniform drawings submitted in plain India ink instead of water colors. Many artistically beautiful designs are submitted to the board of education, which are not practical, and it is the desire to abolish the "beautiful" and maintain the practical in plans.

ASK FOR PRIZES.

Prizes were asked for as a consideration for the work of competing architects. The matter will be referred by the board of education to the district attorney for a decision.

An addition of four rooms will be built on the Wilson school this summer during the vacation months, and it was decided last night to select an architect for this work instead of advertising for competition.

Work on the Halseth school and the new building to be erected at Eighth street and Santa Clara avenue will be started this summer. These structures will be built of reinforced concrete and brick.

Discussion was held as to the housing of the Halseth school pupils during the work of construction, and it was decided that it would not be advisable to move the school back on the playground lot. Temporary buildings will probably be built and part of the old building utilized.

PLAN OPEN AIR SCHOOL.

An open air school may be used during the summer months. Superintendent of Schools Wm. C. Woodard stated that the new school to be the most modern in the State.

Two cases of failure to comply with the compulsory education law have been determined by the board of education and an investigation is being made, which will result in a strict enforcement of the law on the part of the parents.

The statute provides that all children between the ages of 8 and 14 years must attend school. It was decided to install seats in a basement room in the high school to relieve the overcrowded condition of the school.

INCINERATOR FOR GARBAGE URGED

Councilman Krumb Inspects Plant—Is a Big Success.

ALAMEDA, March 3.—A garbage incinerator, the combined use of Alameda, Oakland and Berkeley is being advocated by Councilman Fred L. Krumb, who witnessed the operation of a large incinerator at San Jose Tuesday afternoon.

Krumb represented the city of Alameda at the inspection of the incinerator and submitted a verbal report to the City Council Tuesday night in which he stated that the plant was practical solution of the garbage problem.

The plant is owned by the Universal Sanitary Reduction and Power Company. It is said to be capable of handling 600 tons of garbage per day.

Members of this city is the manager of the company, George C. Carson of San Francisco is the inventor of the new plant.

The company is willing to install an incinerator in the bay cities or in each of the cities at an expense and either sell it to the city or conduct it as a private plant.

Charges Husband Flourished Revolver

That John H. Carroll chased his wife about the house waving a revolver threateningly above his head is the charge of Harriet Carroll in her suit for divorce filed yesterday on which she was granted a decree by Judge Daniel B. was granted a decree from Clara Pingree for desertion. Other cases granted yesterday were: "Principles and Practice" from Frank Shank, desertion; Sarah A. from Herbert Thompson, desertion and failure to provide; Hattie from Arthur E. Green, desertion and failure to provide; and Alice R. from Harvey T. Curtis, cruelty.

Will Lecture on Use Of Psychic Powers

Albert B. Shields, recently of the Emmanuel Church of Boston, and now a resident of Luke's Hospital in San Francisco, will deliver an address before the students at the Oakland Medical College Monday evening on the "Principles and Practice of Psychical Powers."

Mr. Shields' problem is to determine the practical use in the modern world of the so-called powers of well-recognized psychical laws.

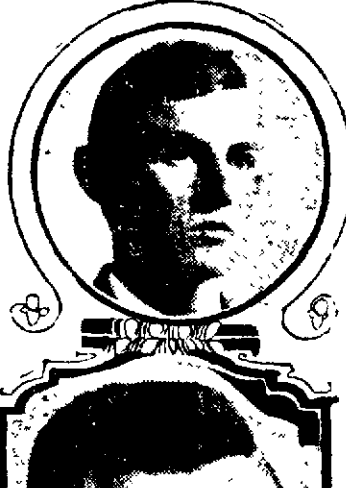

An invitation has been extended to the students of the college to attend the lecture.

Dr. Lum Appointed As School Director

ALAMEDA, March 3.—Dr. William Tappan Lum, one of the most widely known physicians in the bay cities, has been appointed a director of the board of education of the city of Alameda. Dr. Lum is a graduate of Syracuse University, New York, and of the Johns Hopkins Medical College of New York.

Students Taken Into Engineer Chapter Society

JOHN ROYAL JAHN, elected to Tau Beta Pi.

JOHN ROYAL JAHN, elected to Tau Beta Pi.

ALAMEDA, March 3.—Eleven undergraduates and two graduate students were taken into the California Alpha Chapter of Tau Beta Pi, the engineering honor society, at its regular initiation held last night.

John Royal Jahn, '02, was admitted to graduate membership. Since his graduation he has been hydraulic engineer for the Pacific Gas and Electric Corporation, but is now with the P. G. & E. Company in the same capacity.

The following students were also admitted to membership: J. H. Wain, '02, C. A. Reed, '02, C. M. Staples, '02, L. J. Torrey, '02, C. A. Waldman, '02, W. C. Little, Jr., '02, E. F. Coker, '02, R. C. White, Jr., '02, G. O. Scarfe, '02, W. W. Moody, '02, C. W. Ingels, '02.

After the initiation, the members adjourned to the Forum Club, where the members of the society rendered a banquet to the neophytes.

The speakers of the evening were: Professor Charles Berlet, Jr., Professor C. L. Corey, Professor S. B. Christy, Mr. Buckner Street and Mr. H. H. Wise '02.

MOHAMMEDANS ARE LECTURE SUBJECT

Persian Missionary Will Talk to Students Concerning Religion.

BERKELEY, March 3.—F. M. Stead, for nine years a missionary in Persia, will speak at 7:30 o'clock tonight in Stiles Hall. His subject will be "The Mohammedans."

Mr. Stead has recently been speaking in the southern part of the State, and comes here with a high reputation as an interesting speaker with an intimate and thorough knowledge of his subject. His talk will be an unusual opportunity for those interested to become acquainted with conditions in the Mohammedan East. The public is invited.

Alameda Personals

ALAMEDA, March 3.—Mrs. A. Latham entertained her friends at a luncheon at her home on Bond street, where many of her friends enjoyed an evening at cards followed by music and the serving of refreshments.

Miss Rena Scott, the fiancée of Howard Baxter, whose marriage will be an event of the 17th of this month, will be the complimented guest at an informal sewing bee to be given tomorrow afternoon by Miss Edna Voigt.

Miss Helen Godfrey has set her wedding day for March 18th. She will be united to Frank A. Rue, the ceremony to be performed at the residence of the bride, Oakland, by the Rev. Edward L. Parsons.

Mr. and Mrs. M. Lemcke and Miss Emmy Lemcke have written to friends here from Dresden. The family cent abroad early in January. They will return in August.

Mrs. T. P. Enigh and her daughter, Miss Edith have left for the south, where they will visit friends. Most of their time will be spent in Los Angeles. Miss Enigh is the fiancée of Hubert Piersons of San Francisco. Their wedding will be solemnized in the early summer.

George Moss has left for an extended business trip of the Eastern states. He will be away three months.

Mr. and Mrs. Alonzo Griswold are planning an Alaskan trip and will leave for the north next month.

Former Resident Dies In Hawaiian Islands

ALAMEDA, March 3.—News has just reached this city of the death of Mrs. Herman Buch, formerly Miss Annie Wagner, in the Hawaiian Islands. Mrs. Buch was married two years ago, and went to the Hawaiian Islands about a year ago where her husband is manager of a large sugar plantation.

Death followed an operation for appendicitis. Mrs. Buch was born in this city and lived with her parents, Mr. and Mrs. William Wagner on Court street until several years ago when the family removed to San Francisco. She leaves many relatives and friends in the city who will mourn her death. She was 22 years old.

Besides her parents, Mrs. Buch is survived by her husband and an eight months old son.

Her death occurred on February 24th.

JAPANESE SLASHED RIVAL IN FIGHT OVER GEISHA

Victim May Die as Result Many Deep Gashes in His Head.

Victim May Die as Result Many Deep Gashes in His Head.

ALAMEDA, March 3.—Japanese feud between Minatou Gado and Torokichi Saka, Japanese, came to an abrupt termination this morning when the latter attacked Gado as he was eating his breakfast in a restaurant at 1024 Park street and "knifed" him, cutting deep gashes in his head. Covered with blood and staggering from weakness, Gado grasped an ax that was in the kitchen of the eating house and made an attempt to combat the furious attack of his opponent, but Saka fled and is now being hunted by the police.

Gado lies on a cot at the Emergency hospital after having spent several hours on the operating table getting the deep cuts on his scalp sewed up.

SOCIETY WARNED HIM TO LEAVE WOMAN ALONE

Attack Made While Wounded Man Was Eating His Breakfast.

ALAMEDA, March 3.—The outcome of a dispute between two Japanese men over a Geisha girl. The Orientals have a society to protect their friends, and Saka's fellow countrymen made a demand upon Gado to either come to his attention to the woman or pay a large sum for her. His refusal to comply with their demands led to the attack upon his life.

Gado may die. Doctors D. W. Stidham and J. A. Rife worked two or three hours this morning to save his life, but he has a number of great blood vessels in the Japanese district on Park street where it is thought that Saka is hiding.

Both men lived at 1624 Park street.

PARENTS REQUEST MANUAL TRAINING

Allendale Club Wants School Building Enlarged for Technical Class.

FRUITVALE, March 3.—At a meeting of the Allendale Improvement Club last night E. L. Lawson and H. Thompson were appointed to attend the meeting of the Oakland Board of Education, to place before that body the request of the club for an addition to the public school of Allendale, which would be used for the purpose of manual training. The subject has been discussed at the last meeting of the parents' club of the school and has been agreed upon by the board at the request of the principal, Miss Alice V. Baskley.

J. Kilmore and Louis Heitz were added to the committee to represent the club at the charter convention.

Following a protest sent to the Oakland City Council last week a formal protest was registered on the books of the club last night against the removal of Santa's statue from the corner of the corner of Lieke avenue and East Fourteenth street. The only objection made was that the corner is a transfer point to Allendale.

San Leandro News

Mrs. Ed Smith of Oakland spent a few days with her mother.

George Haag has returned from the German Hospital in the City where he recovered from a recent illness.

Frank Edwards of San Francisco spent Sunday in town.

Miss Edna Pearce was the guest of the Misses Olsen Sunday.

Robert King left Wednesday on a visit to his home where he will spend several days with his uncle.

Harry Holmes entertained the friends of his daughter, Miss Edna, who was married on Sunday evening. Charles Drury won the first prize and Henry Gansberger second.

Miss Frank Furell, who has been visiting in Antioch, returned home a few days ago. Benjamin Jones is spending a few days at his home in the city.

Frank Hansen is spending several days in San Francisco.

Mr. and Mrs. Hansen, who are employed on one of the river boats, is home for a few weeks rest.

A. McCaughey, who has been confined to his home during the cold winter months, was out Wednesday enjoying the fine spring weather.

Old Residents to Enjoy a Reunion

ALAMEDA, March 3.—Ten old residents of this city have banded together and planned a grand reunion of pioneer residents for this month, when a long residence in this city will be celebrated by automobile rides to Hayward and a banquet served at one of the local clubs.

Newark Rapidly Progressing Toward Industrial Fame

PLAN JUBILEE WHEN NEW BRIDGE IS BUILT

Great Event in Coast Railroad History Rapidly Nearing Completion.

NEWARK ON MAIN TRAFFIC HIGHWAY

Surrounded by Fertile Soil and Productive Section of County.

When the Dumbarton bridge, the new engineering project of the Southern Pacific Company, is completed across the extreme eastern arm of San Francisco Bay, Newark, close to thirty miles from Oakland, Alameda County will hold a celebration such as she never held before and her 2,000 people will combine in their manifestation of joy that the plan is complete, the plan which means for the town more than any other one thing has occurred in its history.

Several meetings of the Newark Chamber of Commerce for the purpose of perfecting plans for the big celebration to mark the completion of the Dumbarton bridge have been held and it will only be a short time when the program will be announced.

The committees have been appointed that will have charge of the affair and on March 7 a smoker and banquet will be held at which the time and plans will be completed.

The following committees have been appointed by President W. Wyatt: Finance, G. Haffner, F. Ruschlin, M. Calderia, T. Richmond and Otto Schlessinger; entertainment, W. Ely, F. C. Buchanan, T. Woolley, J. E. Jacobus and D. Caffancy.

The Dumbarton bridge and the schedule which will be put into effect on the railroad when the bridge is completed will practically place Newark on the map in a permanent and decided sort of way. It will mean that through trains from the East, diverted at Niles Junction, will steam through Newark on their way to cross the span which is but a short distance from the center of the town. It means that Newark will be placed on the commutation list and its citizens may ride to and from San Francisco in less time than an hour and enjoy the privilege thereby accorded to the other communities in the central section of Alameda County through the lines of the Southern Pacific ferry system and the Key route electric system.

Meaning to Newark.

The people of Newark realized what it would mean to them when the first word was spoken regarding the possibility of building the bridge and putting the cut-off into effect at Dumbarton, and since that time, through the period of doubt, into the stage of certainty and past the preparation of the preliminary plans to the actual labor of erection and construction, they have not lost one moment in working for the celebration that is to be.

The men of the town have taken charge of this in a way which speaks only of success and the new lease which Newark will have on life and that will have charge of the affair and on March 7 a smoker and banquet is to be held with festivities and which seems to be sure and bright.

And Newark lies directly in the way of great possibilities. The Dumbarton bridge and the cut-off plan was a necessity which was bound to come.

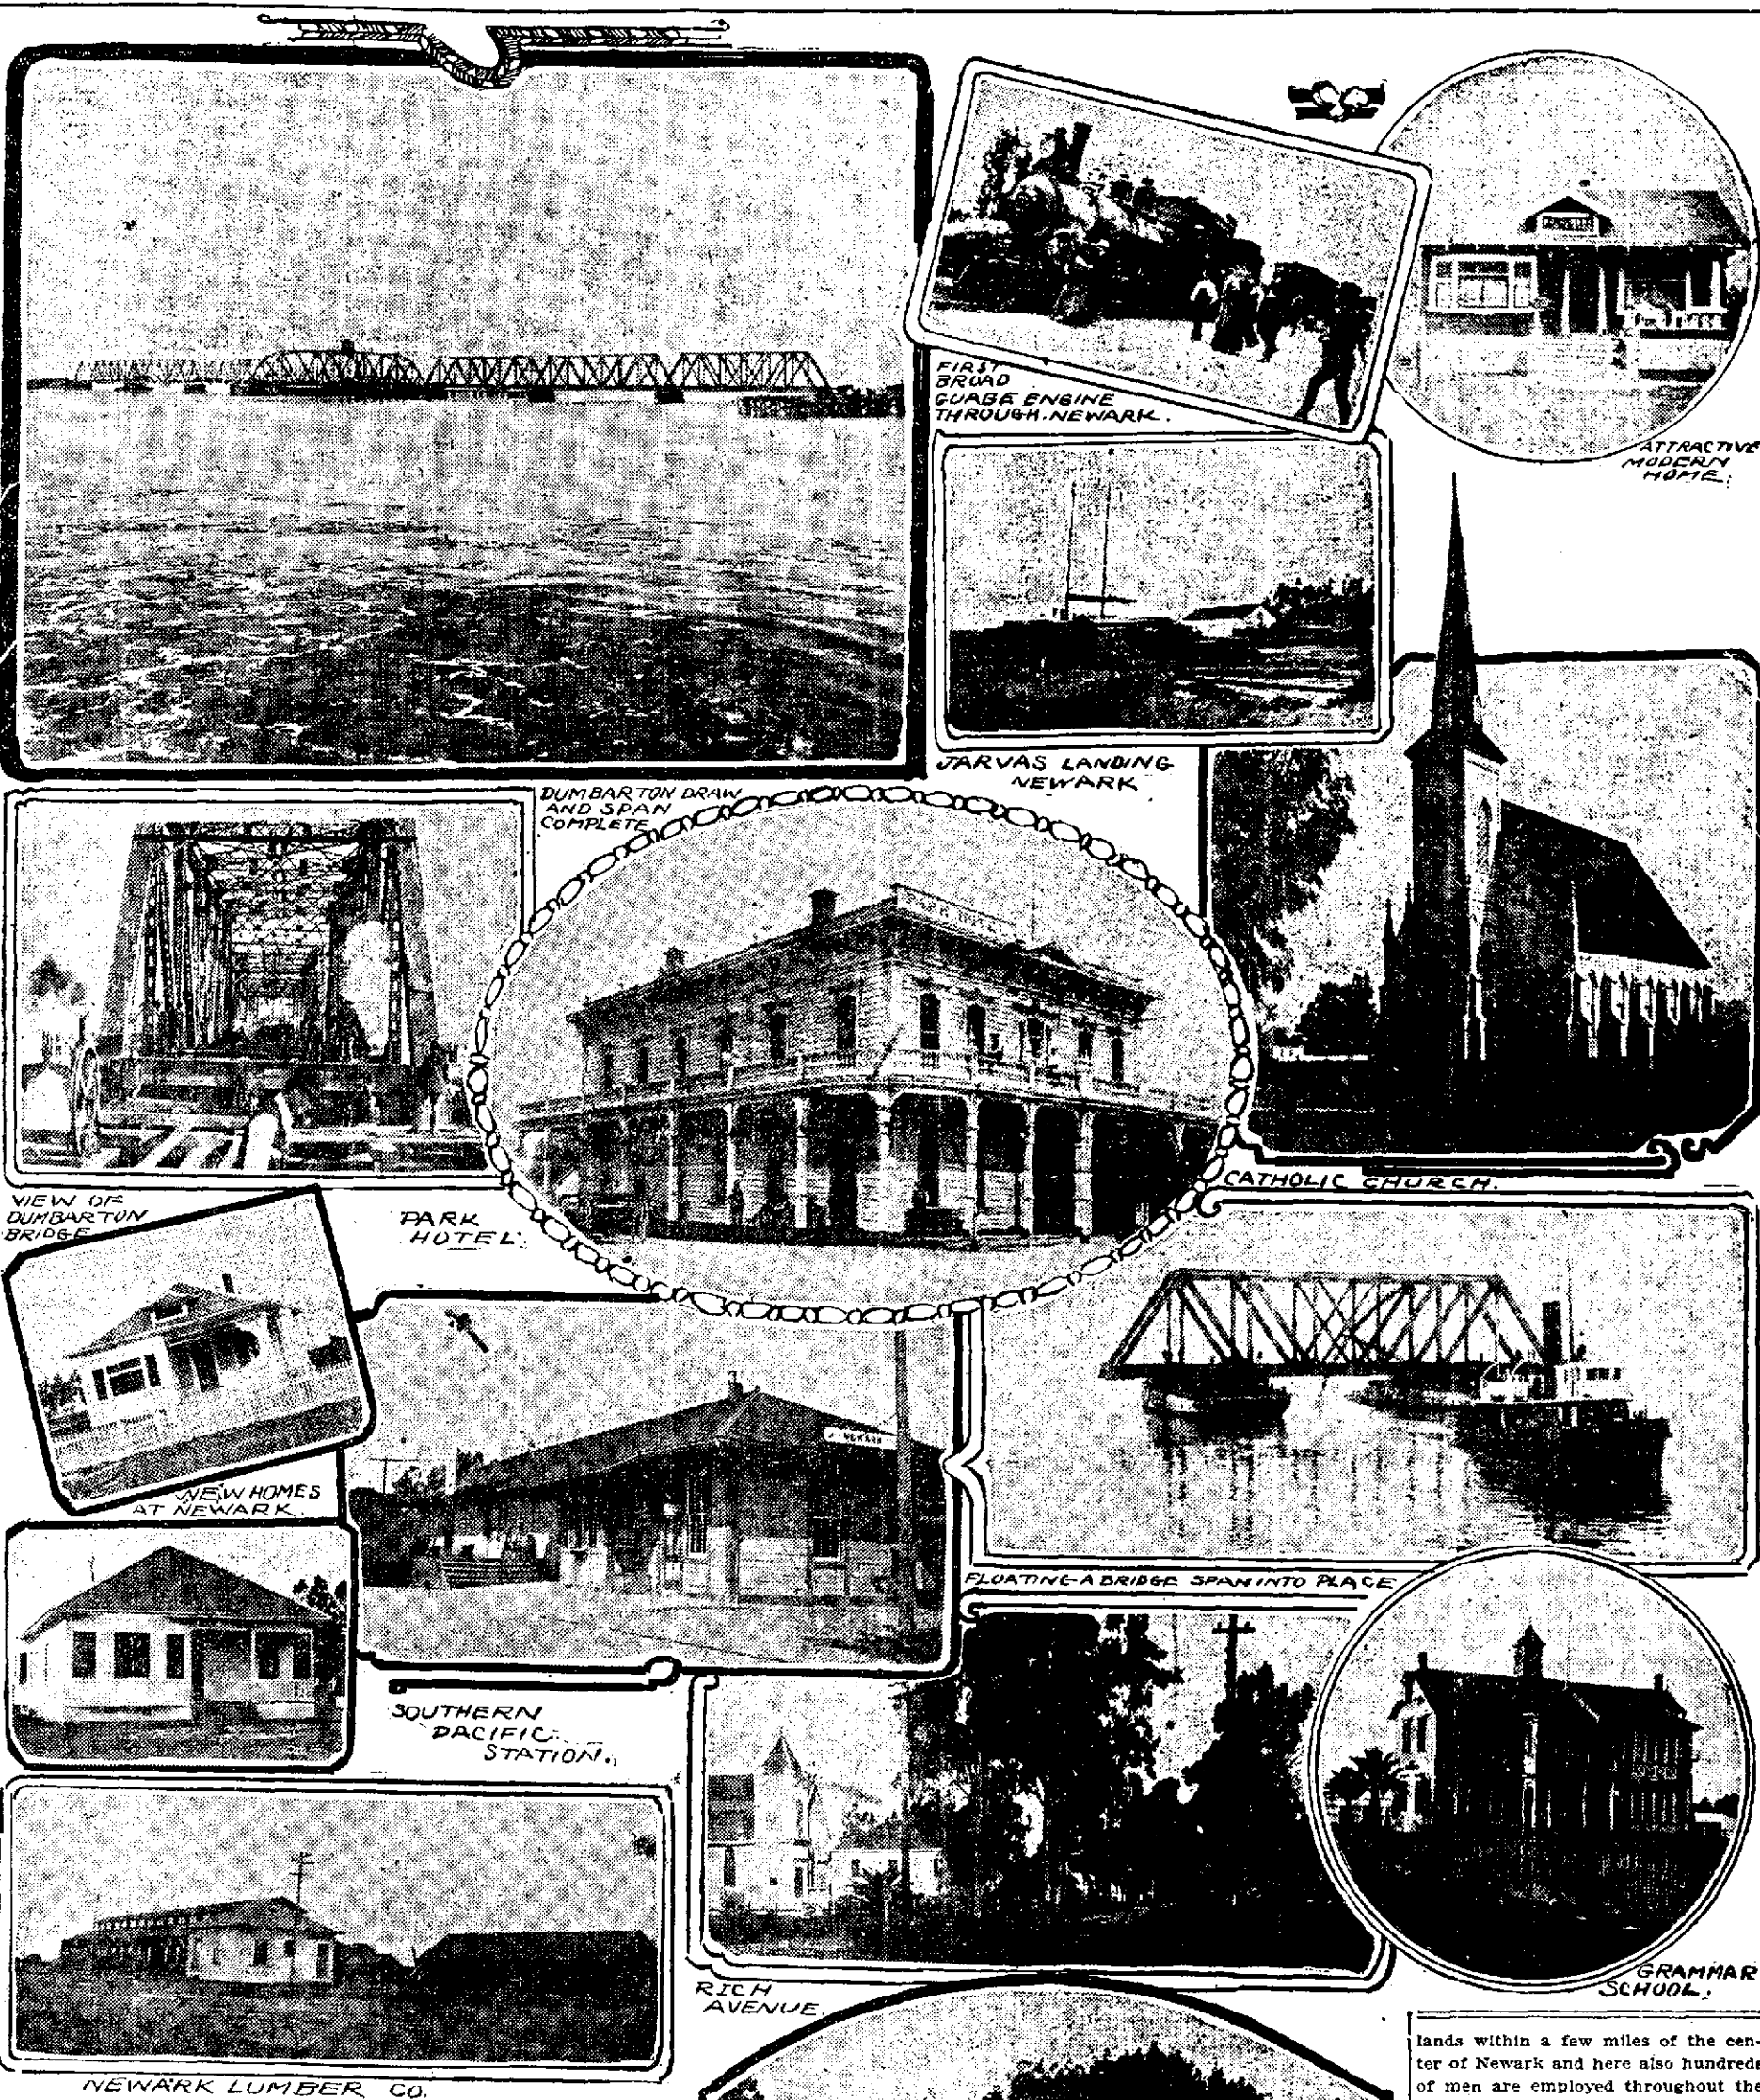

FAMOUS BEAUTIES NEVER GET FAT

Womanhood wonders why famous beauties grow old, but do not grow fat. They live at sixteen case, amid the porcelain flesh pots. The wine, that puffs out obscure mortals, flows not liberally down their slender throats. Yet their life-long lean does not thicken their limbs nor double their chins. What is the secret of the long-lived gracefulness of the beauties?

One-half ounce Marmola, 1/2 oz. Fl. Ex. Cascara Aromatic, 3/4 oz. Peppermint Water. This is the famous Marmola Prescription, long familiar to the fashionable pharmacists of the world and their clientele, but which has only recently penetrated to the knowledge of the hot spots of womanhood. Since when, for convenience sake, it has been put into elegant pocket form, the Marmola Prescription Tablet, which can now be had of well-nigh any druggist, fashionable and ordinary, or the Marmola Co., 238 Farmer Bldg., Detroit, Mich., in large cases for seventy-five cents.

With this tablet any woman can reduce, by losing a pound a day, in a few weeks take off fat (where it shows most) on chin, abdomen, hips, etc., without need of exercising, table restraint, fear of wrinkles, or the slightest physical harm or uneasiness.

THE NEW SOUTHERN PACIFIC BRIDGE AT DUMBARTON AND SOME OF THE HOMES AND BUILDINGS AT NEWARK.

and its arrival is only a signal for the celebration. The town is surrounded by the richest soil in the county.

All Are Working.

Just what the celebration will be in all its details has not been determined upon, the committees not having been named as yet, but each and every man and woman of the community seems to have delegated to himself and herself the duties of a committee in interesting everyone in the great celebration that is to come.

Newark is peculiarly fortunate in the class of citizens of which she boasts. The men and women of the town are energetic, industrious and prosperous and no chance is ever allowed to pass which might be taken advantage of for the betterment and uplift of the community.

Newark is a home town. The conveniences adaptable for the comfort of the people are there in abundance. The water system of the town is of the best, being supplied by the Spring Valley Water Company and two independent concerns, the Moses Water Company and the Salt Water Works, which operate wells in the vicinity.

Fire Department.

The fire department, composed of volunteer members of the town, is capable of holding in check an ordinary blaze, and the personal interests of its members is a great asset toward the rapid response made to calls of alarm.

At present no sewer system has been laid out in the town, but the energetic and up-to-date citizens are preparing definite plans for the construction of a system and the formation of a sanitary district.

The Newark grammar school is on a par with the other public institutions

of learning in the county and four teachers are employed for the purpose of instructing the younger generation. The Washington Township High School, located at Centerville, is supported by Newark in part; and many students are in attendance from the busy town. The grammar school is attended by 200 students and the property is valued at \$15,000.

Churches of Newark.

Two prosperous churches, Catholic and Presbyterian, are supported by the residents of Newark, and the structures in which they are housed would be a credit to a community larger and more advanced than is the town.

Newark has two large hotels, each one of which is well supported by the many visitors who come to the town. The Park Hotel is the oldest of the two and occupies a prominent corner in the business section of the town valued at \$15,000. The Newark Hotel property, also in the center of the town, is valued at \$10,000.

Newark boasts of the finest pavilion in Alameda County. The pavilion was built many years ago by the Fair estate for the purpose of providing for the large picnics which were in the habit of coming to this delightful locality from San Francisco. The property finally diverted to the town and is now held by it. Expositions and dances are held here and hundreds of people yearly enjoy the festivities carried on within its walls. The pavilion is 100x150 feet in size and provided with all the conveniences necessary for the holding of large celebrations.

Two Industries.

Newark has two industries of great importance. The James Graham Stove

Works are situated in the town and are the largest works of their kind west of Chicago. Hundreds of men are employed in the works and the concern represents an investment of more than \$250,000. The employees

of this company are home owners and their homes are all located in Newark.

The Plumber Salt Works is also an industry of great importance. The works own over 100 acres of salt

lands within a few miles of the center of Newark and here also hundreds of men are employed throughout the year. The output from these works is enormous and the quality of the salt is considered to be equal to that of any like concern on the Coast.

More than \$150,000 has been invested in the Newark Lumber Company's plant at Newark. Millions of feet of lumber pass through this concern yearly and the mill work of the company is considered by firms in the larger cities to be of a superior quality.

Rich Garden Soil.

Newark is surrounded by hundreds of acres of vegetable and dairy lands. Vegetables of every sort are raised here and tons of the product are shipped from the town to the markets throughout the county. It is estimated that 150,000 gallons of milk leave the Newark station annually and 20,000 gallons of cream are also shipped during a year.

Newark is a town of homes and in

JUNCTION FOR SEVERAL RAILWAY LINES

Transcontinental Roads Enter San Francisco Over the Dumbarton Route.

CONVENIENT TO BAY AND OCEAN TRAFFIC

Several Notable Industries Are Operating at This Point.

the construction of new residences has eclipsed the records of other smaller towns in the county during the past year. In the recent six months many fine houses have been erected in the town. These homes are of the cottage construction and have been provided with all the modern conveniences with which the homes of the wealthier residents in the larger cities are equipped. W. Wyatt, president of the Newark Chamber of Commerce, owns a home valued at \$5,000; F. Falk's residence is valued at \$10,000; Miss M. Wymer's home places would bring \$8,000 on the market; F. A. Moses has a \$3,000 home in the residence section; F. L. Ely has expended \$5,000 on the erection of his home, and the place of B. Fuller is valued at \$6,000.

Projected New Hotel.

A new hotel is contemplated in Newark, to be erected by Miss M. Wymer. It is planned to build a structure which will involve an expenditure of more than \$7,000, and the construction will be in conformity to the growth of the town and the future needs.

Newark has a Chamber of Commerce which is alive to the necessities and advantages of the section. The Chamber holds regular meetings devoted to the consideration of matters which mean much for the prosperity and betterment of the community. The officers are:

W. Wyatt, president; F. J. Jacobus, secretary; F. Falk, treasurer, and F. J. Ely, vice-president.

State's Action Upheld By Tennessee Senator

WASHINGTON, March 2.—The recent criticism of Virginia made by Senator Heyburn of Idaho on the floor of the Senate because of that State's action in placing the status of General Robert E. Lee in Statuary Hall found its echo at the banquet of the Virginia club when Senator Robert Taylor of Tennessee made a fiery speech upholding that action. Senator Taylor did not specifically name Senator Heyburn, but no doubt was left in the minds of his hearers that it was the Idaho Senator, toward whom his denunciation was directed.

NOT A 'CURE-ALL'

Separate Remedies, Each Devised for the Treatment of a Particular Ailment.

There is no "cure-all" among the Rexall Remedies. There are different and separate medicines, each one devised for a certain human ailment or a class of ailments closely allied. For instance, Rexall Dyspepsia Tablets are recommended for the positive relief of stomach irritation, indigestion, flatulency and dyspepsia. They are rich in Bismuth-Subnitrate, Pepsin and Carminatives. They are prepared by special processes which perfect and enhance the great remedial value of these well-known medicinal agents. This remedy sells for 25 cents, 50 cents, and \$1.00 per package. Every one suffering from stomach disorder should try Rexall Dyspepsia Tablets, inasmuch as they cost nothing if they do not satisfy. Remember, the Owl Drug Co., Inc. is the only store in Oakland where these remedies may be obtained, and every one in need of medicine is urged to investigate and take advantage of the frank and generous manner in which they are sold.

Electropodes
Positively Cure
Rheumatism

A remarkable Electric Device, that is relieving countless people of the pains and causes of Rheumatism. Now within reach of every sufferer.

A NEW ELECTRIC TREATMENT

Electropodes are metal insoles, worn in the heels of the shoes. One is a negative and one a positive plate. The body becomes the battery, the nerves the connecting wires—over which a gentle flow of electricity passes, building up the entire system.

What They Cure
Rheumatism, Neuralgia, Headache, Kidney Trouble, Backache, Weak Heart, Sleeplessness, Lumbago, Stomach and Liver Complaints are positively cured by Electropodes—or money refunded.

Your Protection
Your Druggist signs a contract to refund the \$1.00 you pay him for Electropodes if they fail to effect a cure, or if they should, after 30 days' free trial, prove unsatisfactory.

Electropodes are mailable. If your druggist cannot furnish them, send us \$1.00 and we will see that you are supplied. In ordering, state whether for lady or gentleman.

WESTERN ELECTROPODE COMPANY **LOS ANGELES, CALIFORNIA.**

HEAVYWEIGHT BATTLEGROUND IS INTERMINABLE PUZZLE

RICHMOND IN THE FIELD FOR CHAMPIONSHIP BOUT

"Pittsburg of the Pacific" Invites Big Fellows to Occupy Arena Built for Nelson and Wolgast

By EDDIE SMITH.

THE situation regarding the big fight battle ground remains the same as it was three weeks ago when Tex Rickard arrived here and announced that he and Gleason would settle the controversy over the battle ground within a day or two.

Joseph Nelson, the Salt Lake banker, has left after having had his little talk with the promoters and he is none the wiser for his trip and just a bit sorer at the pair for not giving him a little more consideration. Richmond has come nobly to the front and is after the match tooth and nail.

Last night Gleason and Rickard were visited by a committee of the Richmond people and plans were laid for the handling of the big fight.

All these things are going on in a very quiet manner, but not entirely to the satisfaction of the parties most interested. It was proposed that Gleason and Rickard take the July permit off the hands of Jim Griffin and promote the contest in San Francisco, but to this scheme the Nevada man seems to have some fear.

Tex wants to be the big man with the promotion of the contest and as he is putting up lots of money he should get the glory if there is to be any. To this Gleason has no objection, for he has had so many years' experience with the game that he has come to look upon the notoriety end of it as a joke.

The one thing that holds back the selection of the battle ground is extreme caution on the part of Rickard, who wants to be more than sure he is right before he leaps. When the battle ground will be settled on no one can tell for the way the men feel about it at this time is that they have five months to the date of the contest and here is no particular rush to settle this very important question.

"GUNBOAT" IMPROVED

Gleason has somewhat astonished the fans who have been watching him at his training at Millers' place by his improvement since his last contest here. While in Philadelphia, Smith boxed with Jack O'Brien and had one round fight in which he was given the newspaper decision over Jack Fitzgerald. The contest is described by the Quaker critics as being rather tame for the first two rounds, and in the third Smith was excused and received a stop that sent him to the floor.

The critics say that this aroused the "Gunboat" and that then and there he started to clean things up. The last four rounds of the contest were of the hurricane order and the California heavyweight came roaring home with a victory.

Considering the little experience the sailor has had he is doing great work and if he is able to get away with Jim Barry on the Wednesday night he will be in line for a crack at the winner of the Jim Flynn-Sam Langford match at Los Angeles.

Barry is training at the Beach Tavern and is as confident of winning as he is that he is alive. Jim is of the opinion that no novice can beat him in a round contest and he expects to beat the sailor in a fashion that will make the people of San Francisco and Oakland believe he has a royal chance to flatten one Sam Langford, should the colored man defeat Flynn.

"Gunboat" and Barry are to meet in a ten round contest before the Oakland Wheelmen Club at the Piedmont Pavilion. The fight was announced last night by Matchmaker Moffitt as follows: Lupton Williams vs. Ed. George, Frank Harris vs. Ray Temple, and Chuck Larsen vs. Frankie Murphy. Besides these six round contests there will be one four round curricula raiser. Villadon have established a reputation for starting their shows on time and they will have the one on Wednesday started at 8:15 o'clock sharp.

MURPHY GOES EAST.

In company with his manager, Johnnie Oliver, Jim Buckley and other friends who came to the coast to see him make his first appearance, Frankie Murphy will leave for New York some time this afternoon. The fans of the coast will be sorry to have Murphy leave here, for he has made a great hit with the local critics and they would like to see him in another contest, and this can be said of another bout with Owen Moran.

Murphy has said that he is thinking of coming back to the coast and that he

Oaks Practice Hard On Hayward Grounds Despite Train Delay

Despite the fact that several players of the Oakland Coast League baseball squad are staying home, the Oakland Sox special, Manager Wolverton has more than a full team hard at practice on the Hayward grounds. The grounds have been put in very good condition and the boys are already getting down to fast work.

Thus far fifteen men have reported for practice and a couple more are liable to drop in any time. These on the ground already include in addition to Manager Wolverton, Pitchers Christian, Nelson, Thompson, Dank and French, Catcher Lewis, Thomsen and Spelman, First Baseman Cameron, Second Baseman Cutshaw, Third Baseman Hogan, Outfielders Maggart, Manush and Britt.

Pending the arrival of the men on the Sox special, the infield for practice has been made up of Cameron on first, Cutshaw on second, Wolverton on short and Hogan on third. The men work together in first style and it is probable that in the first practice games the team will go into the field with this make-up.

Whether or not the Sox special arrives in time for Sunday morning's schedule here, the fans will be given a chance to see the Oaks in action, as, in the event of the non-arrival of the Sox, some other team will be substituted and a game will be played on the home grounds at Freeman's Park at the regular hour, 10:10 o'clock in the morning. Sunday afternoon the Oaks will play the Hayward Cubs at Hayward and great preparations are being made by Manager Hill of the Hayward team to put a strong aggregation in the field in the hope of winning the contest.

Manush, the new outfielder who has just arrived from his home in Mississippi, has created a very favorable impression. He looks the athlete, with his fine build and he is apparently very fast on his feet as his past record would indicate.

Catcher Spelman, member of the new team, is "cutting loose" just yet, so that a correct line can hardly be gotten on him, but he handles himself like the real article.

French, the ex-Portland pitcher, showed in a workout yesterday that he has plenty of "smoke."

St. Anthony's Five Defeats St. Peter's In First of Series

Fully 500 people saw the St. Anthony's basketball defeat the quintet from St. Peter's school, San Francisco, last night at the first of a series of three now being played for the championship of San Francisco and Alameda counties. It was played in St. Mary's gymnasium.

The special features of the game were Hanley's basket throwing and the splendid "cutting" of the St. Anthony's players.

The next game will be played in San Francisco next Tuesday.

Percy Taylor, Well-Known Turfman, Dies in East

(CHICAGO, March 3.—Percy Taylor, a familiar figure in Chicago turf circles for many years, died yesterday at his Fox River farm near Elgin. Mr. Taylor was born at Portsmouth, England, fifty-nine years ago. He came to this country in 1890 and identified himself with the breeding and raising of thoroughbreds. On his farm near Fox River, Indiana, he bred many horses which were frequent winners.

THE DAWN OF A SEASON - Drawn by H. M. Shields

W. T. OVERTON TAKES PURSE IN COMMON CANTER

Rinda Wins Two-Year-Old Race From Fast Field of Youngsters. Shilling Pilots Four Winners

By LEE DEMIER.

A most beautiful day greeted the large crowd that made their way to the Oakland track yesterday. The card was featureless as the two-year-old race and the fourth race were purse affairs and proved to be the best races of the day.

The best of the best, "Rinda," was fast and furious and the layers worked with their coats off as the heat from the sun's rays was intense.

Jockey Shilling celebrated his departure for New York by driving home four winners. The noted jockey arrived, who will report to Owner S. C. Hildreth, has sold all of his old tact and when he arrives at Sheepshead Bay where Hildreth's thoroughbreds are quartered a brand new tact which has been selected by the noted owner and trainer awaits him.

W. T. Overton, which was handed around for a good thing, won the confidence of his many backers by taking the fourth race in a common canter. Shilling, who had the leg up on the chestnut horse, made no mistakes and always had the other riders up his sleeve.

At the rise of the barrier Shilling shot his mount to the front and won the race without any trouble.

Overton went to the post looking a bit dicky, but Shilling never let up on him the entire race.

F. Crowley, which was quoted in the betting at 10 to 1, lay close to the winner all the way, ran a very smart race, just got up in time to beat out the thing Sewell for the place. Hammer was heavily played at the last minute, could never get to the front and second in the race. Lady Fitzgibbon ran a good race and will be heard from the next time out. Myra O'Connell was bothered on the back stretch and could never recover.

The long shot element was in line when

U.C. TRACK TEAM MAY GO TO WESTERN CONFERENCE MEET

That it is possible that California may send a track team of eleven men to the Western Conference meet in Illinois next June is shown by the fact that the University of California has just elected a new athletic director, Mr. H. H. Hildreth, who will take charge of the team.

Fast Time of Indoor Runners Said to be Due to Short Tracks

NEW YORK, March 3.—The new world's indoor marathon record made by Thure Johansen, the new Swedish wonder, in a race at the Sixty-fifth Regiment Armory, New York, last night, being questioned by some athletic experts on the ground that the whole system of measurement in relation to track length in this country is wrong.

"Athletes in their circuits of indoor runs do not run eight hundred yards, but the curb as those who measure the tracks would have us believe," says A. C. Connelley, the time, in the case of the new record, is a matter of fact and this was the case in their recent marathon. This would warrant a cutting of the course by at least thirty yards to the mile.

"It is notable that many athletes who have shown record breaking form in their indoor performance have been unable to make equally good performances on the street and outdoor dirt and clay paths."

Cross-Country Race To Be Held Here by A. A. L. on Saturday

The Academic Athletic League's annual cross-country race will be held next Saturday morning, 10:30 o'clock, starting at Grand Avenue and Perry street, in this city. The runners will proceed up Grand Avenue and over the Piedmont to the Grand Avenue station, where they will be met by the local press.

'WIZARD' SCHAEFER, FAMOUS BILLIARD PLAYER, IS DYING

DENVER, Colo., March 3.—Jack Schaefer, world's famous billiard player, is dying at his Denver home. Schaefer, who is suffering from tuberculosis, experienced a relapse Monday and has since been sinking steadily. Early this morning attending physicians admitted that the end is only a few hours off.

Schaefer's family is at his bedside and his brother arrived yesterday from Chicago.

SPRINGS UNDER THE MICROSCOPE

R. ROLLER of Seattle last night made a valuable find in the Springs of the M. P. A. building. The find was made by Manager Paris of the Coosworth team, who was looking for a new player. The find was made by Manager Paris of the Coosworth team, who was looking for a new player.

Phoenix Nine Is Again Victorious Over Blue and Gold

BERKELEY, March 3.—The University of California nine was defeated in the game played yesterday with the St. Mary's Phoenix, by the score of 4 to 0.

From a spectacular point of view, the game was rather featureless. Two pretty double plays pulled off by the California infield relieved the monotony of the ordinary grind, but other than these, sensational hitting was very conspicuous by its absence. The Phoenix, gathering seven very much scattered hits from Smith's delivery, while the Varsity touched Wilcox for four.

Smith, who pitched for California, was in good form and showed a great improvement over his last start in the fielding department. He kept his head at all times, as shown by the fact that twice the squeeze play was used by the collegians ineffectively. The hits were kept apart, and it was through no fault of his that the game was lost. Smith was more or less a mystery to the California batters, as he had no trouble in fanning eleven men.

Battler to Open Bids For Thompson Fight This Evening

CHICAGO, March 3.—Battling Nelson will name the place and possibly the date for his fight with "Cyclone" Johnny Thompson tonight when he and his manager open the bids for the forty-five round battle. As Nelson termed it "yes, today," the fixing of the place for the fight will be just like signing for the fight on my return trip to the lightweight championship.

Cooke and Moore Give Pretty Pool Exhibition

Cooke against Moore in the pool tournament developed into the prettiest game of the tourney both as to actual execution and an exhibition of nerve. The score was 100 to 80. Cooke was playing under the handicap, 100 to 85.

Pools in the early stages made by Cooke and Moore took a promising lead. Running ahead of his handicap the last frame saw Moore with only four balls to go and Cooke with fourteen under game. A long drive netted Cooke three balls and safety and Moore scratched. Their a beautiful three-ball combination tilted the air with howls and broke the bunch and Cooke sailed to victory by a close margin. Cooke is in line to win the first honors of the tourney.

Soccer Teams Submit Ultimatum to League

The Thibault Vampires and Albion Rovers have forwarded notice to the California Football Association that unless the rental of the Presidio grounds is reduced to conform with that of Freeman's Park and that the games be equally divided between the two grounds, the soccer clubs will withdraw from the association.

The game between the Burns and Albion last Sunday, at the present writing is very uncertain, and will not be played unless the above conditions are lived up to.

Three of the best teams out of the competition, the contest for the cup would be virtually a joke.

St. Anthony's Five Defeats St. Peter's In First of Series

St. Anthony's basketball team defeated St. Peter's in the first of a series of three games played for the championship of San Francisco and Alameda counties. The game was played in St. Mary's gymnasium.

EDITORIAL IMPRESSION OF THE Mountain Roll

Greatest Amusement of Age

The Mountain Roll, of which a beautiful cut is here displayed, is we understand to be erected in Idora Park this coming season. After viewing the beautiful device at the rooms of the company, we have come to the conclusion it is going to be the chief attraction at the park and one for beauty and magnificence that cannot be surpassed. It is difficult to appreciate the true value of this very ingenious device by any descriptive article. We would therefore suggest to any that may care to be interested in this coming attraction at Idora Park, and eventually throughout the parks of the United States, to take the time to view this device.

BUILT AT IDORA PARK.

The concession as it will be erected in Idora Park, to say the least, is perfect from an amusement standpoint, pleasing to the eye, and magnetic in appearance, presenting as it does a majestic and refreshing landscape.

As viewed by our representative at the office of the company, we can with justice say that the success of the Mountain Roll is assured from its inception in the park, and will prove to be the most popular form of amusement ever presented to the public. The many beauties of the ride down the mountain cannot be done full justice here, suffice it to say, that it is exhilarating, sensational, very enjoyable and perfectly safe.

PLEASANT RIDE TO TAKE.

Imagination may present to the mind the pleasure of a trip down the side of a hill in a huge cylinder barrel wherein eight people are seated on a ball bearing seat that gently tips too and fro as the cylinder rolls down the mountain, sometimes at a high rate of speed, and then again on very gentle grades, over hills, waterfalls, and castles, caves and steep inclines, until it arrives at the starting point; every passenger in the car gets a delightful experience and an increased desire to repeat the many pleasing features of this very attractive pleasure ride. As we gaze with intense admiration and delight at the children, young and old folks, enjoying the many happy moments of a life that to many appears too short, we are more than thankful that God gave some people the brains to conceive and put into execution forms of amusement that would drive dull sorrow away. People nowadays, young and old, realize that there is something in life besides the stern realities, and look forward to the time they can get away from the cares and troubles of every day life; but how few view the amusement concessions at places of amusement and stop to consider the hours of care and trouble experienced in creating, mastering and presenting to the public such forms of amusement as the Mountain Roll. But success with perseverance and determination eventually bring its reward, and the inventor is paid back by the public in a good substantial manner. Amusement devices of this character have paid those fortunate enough to hold stock, dividends beyond their most sanguine expectations. Investigation proves that stock in a company of this kind is extremely hard to procure, as it increases rapidly from its issuance.

A RARE OPPORTUNITY.

We can for the benefit of the readers of THE TRIBUNE quote stock in amusement companies that were first placed on the market at 50 cents a share that now have reached as high as \$1000, and this stock not more than five years ago.

SUCCESSFUL MEN AT HEAD

The gentlemen connected with this company are men of success in the commercial world, responsible and thoroughly reliable. Only a limited number of shares will be sold as it will not be necessary to sell many shares of stock to accomplish the successful accomplishment of their ambition.

PUBLIC IS CORDIALLY INVITED.

From investigation at the office of the company we have ascertained that the books of the company are open to the public for a short time. After that there will be no stock for sale.

It is seldom in a lifetime that opportunities of this character are offered to the public and men that grasp the possibilities of a device of this kind are the men that win.

ONE OF THE GREATEST OPPORTUNITIES EVER!

THE MOUNTAIN ROLL

The company is incorporated for 25,000 shares at a par value of \$5.00 per share. There is but one class of stock, fully paid and forever non-assessable. No preferred stock to draw interest before your stock receives its share of the earnings of the company.

The appearance of the concession from the outside is magnificent, presenting a vista of mountain crags, boulders and precipices, rivalled only by the actual scenery of the Alps or the Sierras.

The sensation of the patron riding within a car shaped like a huge cylinder, rolling with startling speed down steep declivities, around huge rocks and almost down into deep canyons, is exhilarating in the extreme and calls for a repetition of its delights.

The capacity of this device is much greater per square foot of surface than any other amusement concession of a like character, and the earning capacity per hour is therefore increased in proportion.

Building, Oakland, Cal., for Administrator.

Steinway Upkeep

It costs more to make a Steinway than any other Piano. Materials of the highest grade and the most skillful artisans in the world make every Steinway a work of art.

For that reason it costs less to keep and the original investment is practically the only expense. A Steinway will outlive a generation in the full glory of its tonal beauty and the pleasure and satisfaction derived from its ownership cannot be measured in dollars.

NEW GRAND JURY IN RECORD TIME

Judge Van Nostrand Breaks the Record in Securing the Panel.

SAN FRANCISCO, March 3.—For the first time in years the nineteen names for the new Grand Jury were found in the first panel of thirty recently drawn. The securing of the full jury usually occupies days, but was accomplished yesterday in Judge Van Nostrand's court in less than two hours.

Following are the men who will compose the Grand Jury of 1910:
Lawrence Arnstein, woolens, 2112 Pacific avenue.
George D. Clark, contractor, 120 Frederick street.
John Cronin, retired, 2323 California street.
William Cronin, roofer, 17 Baker street.
Isaac Goldman, merchant, 333 Webster street.
Louis Gassner, fur merchant, Grant avenue and Geary street.
Andrew J. Gallagher, photo engraver, 416 Sixteenth street.
J. Frank Jewell, insurance, 630 Fillmore street.
E. J. Lowry, contractor, 1650 Page street.

Isador Laventhal, merchant, 2816 Clay street.
William Lane, real estate, 19 Dorland street.
Charles McCarthy, real estate, 2756 Pierce street.
Edward McDevitt, California Baking Company.
Fernando Nelson, automobiles, 684 Second street.
George J. Oliva, real estate, 1419 Mason street.
Max Sommer, shoe merchant, 736 Ashbury street.
F. L. Turpin, capitalist, 72 Bartlett street.
T. S. Williams, tailor, 1614 Vallejo street.
John J. Wither, agent, 2330 Vallejo street.

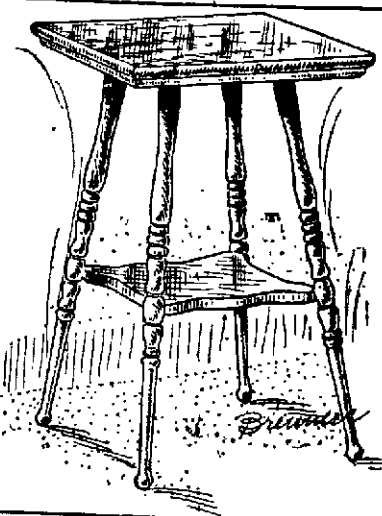

Colonel Dan Burns Finds Another Mine

SAN FRANCISCO, March 3.—Colonel Dan Burns, politician, horseman and mine owner, still has his luck with him. He has discovered a mine about eight miles from La Candelaria which is said to be even richer than the fabulously rich property in Durango, Mexico.

Word reached this city yesterday of Colonel Burns' latest stroke of fortune. Burns is fortunate in the first place to hold on to La Candelaria mine in the face of litigation, and threats and other to deprive him of the property. The Candelaria mine is reported to be worth between \$20,000,000 and \$30,000,000, though that is purely a guess at the value of the property, which is said to have produced \$1,000,000 in profits in a year.

Severely Burned By Boiling Grease

SAN FRANCISCO, March 3.—Christopher Antien, proprietor of the Bristol restaurant, 312 Connecticut street, was severely burned about the face and hands at 2 o'clock this morning through a fire which broke out in his place. Boiling grease set fire to the woodwork, and a slight explosion threw a quantity of the scorching liquid upon Antien. The department extinguished the flames with nominal loss.

Golden Oak Table

This Table comes in solid oak; top measures 15x18 inches. It is strongly built and nicely polished. A \$2.00 value at Breuner's.

\$1.25

Note the low prices on the odd pieces of parlor furniture in our windows

REGENTS CENSURE PROFESSOR ROSS

Wisconsin University Officials Object to His Favoring Free Thinkers and Anarchists.

MADISON, Wis., March 3.—The recent visit of Emma Goldman, the anarchist, Parker H. Setcomb, former disciple of free love, and other long-haired advocates of questionable doctrines to the University of Wisconsin for the purpose of spreading their dangerous beliefs among the students are now regarded as closed incidents.

After spending nearly an entire day in discussing the report of the board of visitors on the visit of Miss Goldman to Madison, and the action of Professor E. Ross of the sociology department, formerly of Stanford University, in advising her lectures to his classes, the board of regents last night adopted a resolution formally censuring Professor Ross and requesting President Van Hise to convey to him his unanimous disapproval of his indiscretions.

Professor Ross is now on the Pacific coast, bound for China, where he expects to spend a year in studying social conditions. The resolutions of censure will be forwarded to him as soon as his address in China is learned.

HOPE IS LOST FOR RESCUERS' SAFETY

Six Men Who Went to Relief of Wrecked Farralon Are Drowned.

SEATTLE, March 3.—All hope for the safety of the six men who started out in an open boat to seek help for the wrecked steamer Farralon has been abandoned by officers of the revenue cutter service on Puget Sound. The boat crew, consisting of Male Swanson and five men, three of whom were passengers on the wrecked steamer, left Blinn Bay, Alaska, February 7, two days after the wreck of the steamer. No word has been received from them since, and unless they took refuge among the Indians they are lost. February 20 the revenue cutter Tahoma sailed from Seward, Alaska, on a cruise of the neighboring islands to search for the missing men. Local officers of the revenue cutter service believe that if the Tahoma had been successful in her search a wireless message would have been sent. The fact that no word has been received from the Tahoma leads them to believe that the men have not been found.

Stylish, Snappy Spring Shoes
Values up to \$7. The new season's styles from America's leading manufacturer. All shapes, all leathers, in all sizes.

Danderine

Grows Hair and we can PROVE IT!
The Great DANDERINE Never Fails to Produce the Desired Results.

It enlivens and invigorates the hair glands and tissues of the scalp, resulting in a continuous and increasing growth of the hair.

Danderine stimulates the scalp, makes it healthy and keeps it so. It is the greatest scalp invigorator known. It is a wholesome medicine for both the hair and scalp. Even a small bottle of it will put more genuine life in your hair than a gallon of any other hair tonic ever made. It shows results from the very start.

Now on sale at every drug and toilet store in the land; 3 sizes, 25c, 50c and \$1.00.

Free to show how quickly Danderine grows hair, we will send a large sample free by return mail to anyone who sends this free coupon to the Danderine Danderine Co., Chicago, with their name and address and 10c in silver or stamps to pay postage.

If you want to make money

\$7000 SALARY IS BARELY SUFFICIENT TO TIP THE WAITER

NEW YORK, March 3.—A salary of \$7000 a year is barely sufficient to pay the necessary tips to waiters in these days of high cost of living, according to Magistrate Robert G. Cornell.

"How much do you earn a month?" asked the magistrate of Emil Pesoni, a waiter in a fashionable up-town restaurant, who is seeking to arrange terms of separation from his wife.

"Well, I get \$29.50 in salary and perhaps \$15 or \$20 a month more in tips," was the waiter's reply.

"You can't expect me to believe that," said the court in some heat. "For I dine at your restaurant often and I know that if a person gives a waiter a tip of less than \$1 he is classed with the underclass. Why, my salary of \$7000 a year is scarcely big enough to cover the expenses of tips."

MARSH HENRY WANTS TO KNOW

The name of Senator Guggenheim becomes prominent in the investigation. By the way, why is Senator Guggenheim? — Louisville Courier-Journal.

RECALLING DAYS OF BATTLE STRIFE

Martial Features Figure on the G. A. R. Program at Idora Park.

The entertainment which will be held tonight at Idora Park under the auspices of the Grand Army will be an exceptionally pleasing affair. The features will be appropriate to the occasion and the old war songs, the fife and drum and men in uniform will vividly recall the days "when Johnny came marching home."

Several well known speakers and singers will take part. The program in full is as follows:

Hawaiian Glee Club, under the direction of R. Williams.
Exhibition drill and manual of arms by detachment of Company F, Fifth Regiment National Guards.

"My Own United States," solo by E. M. Campbell Jr.
"These Hard Times That Jeff Davis Brought Upon Me," monologue by Comrade S. P. Babcock of Admiral D. D. Porter Post 3, A. R. C.

Drum duet, by Comrades S. E. Chapman and Fred Dietzen of Appomattox Post 1, A. R. C.
Comrade A. F. Abbott of George H. Thomas Post. The drums used on this occasion will be those carried by Comrades Chapman and Dietzen during the Civil War.

"Columbia, the Gem of the Ocean," by Miss Lucy May Van Den Mark, the daughter of a comrade.

Stereoscopic views by Comrade W. R. Bair of Lyon Post. "My Country 'Tis of Thee" song and picture of the author; George of Liberty, Abraham Lincoln; the firing upon Fort Sumpter; "On for the War," steamer on the Mississippi River loaded with troops; Company D, Seventh Iowa Infantry, marching; a new recruit and the girl he left behind him; box cars loaded with soldiers; Belmont—Grant's first battle; gunboat attack on Fort Henry; Fort Donelson—Grant's second battle; Shiloh—Grant's third battle; the old flag.

Boston Belle Shown Hobart Horsemanship

SAN FRANCISCO, March 3.—For a time yesterday the polo game on Clark's field lost interest in the eyes of the society folks who crowded the side lines, as Walter Hobart gave an exhibition of superb horsemanship for the education of Miss Elmer Sears of Boston.

In one corner of the field the opposing sides were charging back and forth, intent on getting the white ball through the goal section, and close by the section set apart for the spectators Hobart put his pet pony through more stunts than are seen in a circus.

Miss Sears and Hobart had discussed the merits of ponies and, the former being an equestrienne of marked ability, the discussion grew quite animated. In order to prove that his animal was highly intelligent and could do all that Hobart sent over to the stable for the pet.

Hobart then directed the stable boy to mount the pony and put him through his tricks. The boy obeyed, but the steed declined to perform. Miss Sears smiled at the dubious fashion and the amused Hobart's mettle, and determined to prove his assertion. Walter ordered the boy to dismount and, himself astride, indulged in many fancy stunts. Cobweb riding, bare-backed tricks and other novel performances followed in quick succession.

Hobart placed a dime on the turf and had his pony jump over it, alighting it, and do other clever tricks, and, as a climax, the master picked up the coin while riding at full speed.

Hobart was applauded by Miss Sears and the pony was given an extra lump of sugar.

Gorgeous Gowns on Display at Chicago

CHICAGO, March 3.—"Diana at the Bath" had nothing on some of the living models at the great fashion show which opened tonight in the Coliseum. In truth, the models did not have much on themselves. The show attracted a great crowd, as the latest creations in sheath gowns, pajamas, lingerie and chandlery hats are being shown on 500 shapely young women.

The men have a look-in this year not only at the show, but the newest fashion models for the season are so perfect and the gowns they display are so costly that they are shown in glass cases.

A NIGHT ALARM
Worse than an alarm of fire at night is the metallic cough of a croup. Careful mothers keep Foley's Honey and Tar in the house and give it at the first sign of danger. Foley's Honey and Tar has saved many little lives. No opiates. Wishart's Drug Store.
